## CONVICTS' ESCAPE.

BAD MEN-REMINISCENCES. Yesterday afternoon quite a flutter oc curred among the Penitentiary officials and guards in consequence of the escape of two convicts. The Deputy Warden had occasion to go on the wharf with two men, named William Gilbert and James Butler, and when outside the prison walls the two men rushed before off Mr. Flanigan could do anything to stop them. He was captured by Guard Driscoll without much trouble Butler got further away, but finally he was run down and captured in an out house on new Division street. Guard McConville, Mr. Douglass and Policeman Carson were the captors. He was very stubborn when taken and refused to return to the prison. Handcuffe were placed upon him, but he slipped them off repeatedly. Finally he was forcibly carried back to the Penitentiary. The fellows were only out about an hour. They will be tried for the escape. These are the facts as far as we can learn them

ters, but the officials were very reticent. William Gilbert was sentenced at a interim session at Welland on the 23rd July, 1878, to five years, for larceny This was his first term.

SING THE SCHOOL GRANT, ETC. The regular meeting of the Publi school Board was held last evening There were present : The Chairman, Mr. Wilson, and Mesers. Woods, Irving, Valdron, Anglin, Tandy, Horsey, Pense

The minutes of the last meeting were

SCHOOL EXAMINATIONS. The Secretary read the programme school examinations, which will commence next week. Mr. Woods intimated tha he would be absent from the city for several days. He desired that some one should be appointed to act in his stead at the examination in Louise school. The matter was left over for a few days.

THE SCHOOL GRANT. Mr. Horsey asked if anything had been done recently by the City Council in regard to the grant of a sum of money for

school accommodation. The Chairman answered in the negative. The Board should have a definite answer. Steps should be taken to compel a disposal of the subject.

Mr. Pense referred to the preju dice which some members of the Coun entertained in regard to the grant. He had believed that after the lapse of a certain time the grant would be made, but when the Finance Commit tee recommended in its favour it elicited opposition, and the discussion was postponed because statistics had not been submitted. At the next meeting he would be prepared with any figures that might be required. He thought he and Mr. Irving would be able to produce such facts as would convince reasoning Aldermen that the School Board should be sustained. If forced to it the Board could lease suitable rooms for school pur

should be kept as distinct, as possible: Mr. Irving said that though there was anreasonable prejudice against the grant He was satisfied a case could be present ed to the Council sufficiently strong to meet support. At the last meeting the representatives of the School Board were taken at a disadvantage in consequence of the fact that at a certain stage of the proceedings there was a universal desire to have the question deferred for discussion at another time. Mr. Pense at the aforesaid meeting had taken the proper course. The School Board had a right to sek for an amount of money for cer tain purposes, and they were not in the habit of furnishing details, nor was it incumbent upon them so to do. He did not

think the grant would be refused. Most of were overcrowded, and that they should be lie School Board, because it has locale supported, and when these Altermen were convigced of the necessity for school enlargement they would endorse, he thought, the application for the

of the Council. He counselled the School Board to be firm and dignified in their action. They should not on this the first occasion of applying to the Council under the authority of the amended law, hitherto unattainable, and yet most dedo anything which would furnish a pre- airable. cedent for future reference. If they wished money at another time, and did not finish the details, they would be exposed to a charge of having broken faith with the Council. If they did as some been solicited by several to furnish the Aldermen contended they should do they would be simply acting as Committee of the Council, whose work named be subject to revision, ap proval or disapproval. It was not right that one or two members of the Conneil should bunt against the whole of the School Board and the bulk of the citie zers in the matter of important ime third annual sceeting of the Business Colprovements. It was singular that when | lege Teachers' and Penman's Association the majority of the Council were in favor of giving the school money two or three members, by shere force of ignorance and cheek, should endeavour to prevent an issue being runched. He was sorry one was not present to whom he had something to say, as he intended to address some observations to him personally. However, at the next meeting he would enlighten the absent one on the privileges and ducies of striving to serve two masters, both of whom he could not please. It was an outrageous proceeding that a member of the School Board should acquire information to be used against them if possible. The Council appeared to be only too happy to seiza upon any excuse to refuse the money. Mr. Horsey believed that there was time when details could have been fairly furnished the Council as to the manner in which the grant of \$4,000 should be expended. But the Council had acted so unfairly that the time for that cour tesy had passed. As for the member

alluded to (Dr. Fee), the speaker said he feared he was not serving one master. much less two. Mr. Pense said Alderman Irving and he

considered the auggestion of forcing a vote et a late meeting of the Conneil, but to move the previous question and thus shut off debate might have, he thought alienated some of those who were now friends to the proposed grant.

It should be understood that the School Board was not responsible for the overcrowding. that several school rooms do not meet the requirements of the law, and that it was their purpose not to allow them to be further occupied as they had been. So far as his vote was concerned he would go for the closing of schools as were now illegally used. The public inter est demands an improvement in the condition of the school buildings as well poses.
