SATURDAY EVENING, JULY 17.

CITY AND VICINITY.

REMEMBER to pay your water account and save the discount.

Prognosis—Fresh to brisk westerly to northerly winds, fine and continued cool weather.

REMEMBER the moonlight excursion of St. Andrew's Church advertised in another column for next Monday evening. A large steamer with the splendid band of "B" Battery on board, in the bright light of the full moon. How beautiful!

PROSECUTING CAPTAINRYMEN.—Four men of the 4th troop of the 4th regiment of cavalry were brought up before the police magistrate at Victoria by the Major for non-attendance at the annual drill. They were let off by paying costs, as they did not fully understand the reading of the Militia Act.

THE HORRIBLE FLIES.—Oh! the flies, the horrible flies, buzzing around like electric lines, dodging about like a man's dream over the butter and into the cream, holding conventions all over the bread, biting your ears and tickling your head, crawling, buzzing, too busy to die, begone, you nasty pestiferous fly!

PICNIC PRIZES.—The St. George's Society picnic on Wednesday will assuredly be as attractive as usual, and that is saying a great deal. The prizes have been placed in the window of Messrs. Stacey & Walpole, where they have been examined with a great deal of interest. The Society expect a great gathering of people at the picnic.

THE FREEMAN FIRE.—The residents of Sydneyham are worthy of much praise for the strenuous exertions put forth by them to keep the Freeman fire from spreading. Those who stationed themselves upon the roof of Mr. Freeman's house will not soon forget their labors. Several of them were scorched severely, and others had their clothing destroyed.

MR. BUCKER'S DEMISE.—The Gananoque Reporter says there seems to be but one opinion in regard to the demise of Mr. Buck, lighthouse keeper, and that is that Mr. Buck has been most unjustly dealt with and dismissed without real cause. It is currently reported that Mr. W. Jackson has been appointed to the position from which Mr. Buck has been removed.

LECTURE BY BISHOP HAYES.—On Tuesday evening Bishop Hayes, Chancellor of Syracuse University, will lecture at Alexandria Bay on "The white man in America," the proceeds to go towards reducing the debt on the M. E. church, of which our young and genial friend, Rev. J. N. Tait, is pastor. The Kingstons at the camp ground will patronize the lecture, especially on Mr. Tait's account.

EXCURSION TO ROCHESTER.—Father McWilliams' excursion to Rochester will not take place next week, as many have been led to believe, but will take place about the middle of August. The Rev. gentleman has made arrangements for specially reduced rates, with several of the principal hotels in Rochester, for all those attending his excursion. Due notice will be given of the day and date of the above.

SKIFF UPSET.—This morning the eldest son of Prof. Dupuis started from his father's camp ground, at Cowan's Point, in a skiff. When he got out in the river he stood up to adjust something and the boat capsized. The youth climbed upon the overturned boat and remained there until the steamer "Prince Louise" picked him. He was landed at Ross Point. His boat was towed ashore by a friend.

MRS. BROWN'S ACKNOWLEDGMENT.—Mrs. J. Brown acknowledges the receipt of a copy of resolutions passed at a meeting of the Reform Association of Kingston, on the 10th of May, with reference to the irreparable loss sustained by herself and family. She asked the Secretary of the Association to convey her sincere thanks for the very kind terms in which the meeting expressed its sympathy with them in their bereavement.

House of Industry.—The funds of the House of Industry being exhausted the Directors met last evening to devise some means of procuring money in order to conduct and sustain the institution for a time. It was suggested that a moonlight excursion be given, and the scheme was at once made popular by the generous offer of the St. Lawrence Steamboat Company, the members of which placed the steamer "Watertown" at the disposal of the Mayor and gentleman who waited upon them in regard to the boat's terms. The excursion will take place on July 27th. The efforts of the Directors in the interest of the charity should be supported by the public. It should be felt that the House of Industry has claims upon those who are in a position to assist it financially, and it should also be felt that a crisis has been reached which can only be tide over by prompt action on the part of those benevolently inclined. By attending the excursion the public can enjoy themselves and contribute to a deserving institution at the same time.

Inspector Chrysler and Deputy Inspector Hanley examined the measures used by the farmers and hucksters this morning. Some loud talk was indulged in. The farmers don't like to pay for the re-stamping of their measures so soon again.

Total Abstinence Society.

The "B" Battery Total Abstinence Society held its first formal meeting in Kingston yesterday evening, when 25 members were present.

The President of the Society, occupied the chair. The principal business of the evening was the presentation of a silver cross of honor to Sergeant James Sloane, for three years faithful membership and cards of honor to twelve months membership to Corp. Hugh, Bombardier Jackson and Trumpeter Cochrane.

The President, in presenting the cross and cards to the recipients, addressed each of them in encouraging and complimentary terms, and urged upon the members generally the necessity of holding fast to their engagements as total abstainers. The falling off in the membership, as compared with Quebec, was found to be very slight indeed, and there is no doubt but that the old members will soon work the society up to more than its original strength. The question of whether lager beer should be considered a total abstinence beverage was unanimously negatived.

Peck's Fun.

Belford & Co. have issued another entertaining volume, entitled "Peck's Fun," being the extracts from the En-Croise Sun and Peck's Sun, Milwaukee, selected with the object of giving the public in one volume the cream of Mr. G. W. Peck's writings of the past ten years. A learned critic remarked that the book is "not too pious, but just pious enough, that there is electricity in it the same as there is in a young fellow's arm, and while you don't get the whole shock at first, any more than the girl does who she is hugged, the current gently enters your soul as it does the girl's, until, in about eleven minutes, you feel as though you owned a brewery." To be had at Stacey & Walpole's.

The fish in the harbour are feasting on ten or twelve bushels of damaged grain thrown overboard from the schr. Maric. Many a poor family would have gladly purchased the grain for their poultry, but the impetuous duty stepped in and prevented it.

The Sailors' Union had their excursion this afternoon on the schr. Forest Queen. The vessel was tastefully decorated. A respectable crowd went aboard. The vessel sailed around the harbor for some time and then proceeded down the river.

Celtic lightened 4,000 bush. wheat and proceeded to Montreal.

The cartoonist's Humour.

Group is particularly bright and amusing this week. The "annual blow-out" is well conceived, and to the point. Hon. Mr. Pope, Sir Charles Tupper and Sir John Macdonald have gone on their periodical junketing tour. They have arrived at London and seek John Bull, whose office is next door to that of the High Commissioner. Sir A. T. Galt comes along on the hilarious trip as they swing along. Mr. Pope and Sir Charles enjoying the best Havana cigars. The High Commissioner, logged out in official livery, is simply amused at the spectacle, and somewhat indignantly ejaculates, "What you here pronouncing a man not, then, capable of transacting the business of the Dominion as High Commissioner?" To which Sir John replies, "The business? Oh, certainly, but we couldn't have our annual junketing by proxy, you know, accompanying the response with a wink, the significance of which is best known by the Premier's personal friends."

Of the small cuts that entitled "Waiting for the other chap," is the best. Here we have a prize ring in which Mr. Major Bestie, of Toronto, is shown stripped to the buff, and prancing around in high metal, apparently eager for the contest with some one for the representation of Wat Toronto.

Poisoning Cases.

From the Napanee Express we learn the facts of a number of poisoning cases that have recently occurred in the neighborhood.

A woman living in Napanee took spoon salts. Before long she felt severely ill, and on investigation discovered that a liberal quantity of sulphate of zinc had become mixed with the medicine. Appropriate remedies produced recovery.

Another woman had a dose of salicy, dispensed by the same accommodating neighbor, was similarly but a little more seriously affected.

Mr. Joseph Nickel died at Bath on Saturday, the 11th inst. The cause of his death was an accidental overdose of quinine which produced convulsions. He was entirely unconscious during nearly the whole time of his sickness. He had been ailing with chill fever.

Primitive Methodist Excursion.

Yesterday a pleasant party, numbering 300, embarked on this excursion, the destination of which was the Thousand Islands. The ground was reached shortly before four o'clock, in time to let the excursionists attend the concluding part of the experience meeting conducted by Mrs. Bottoms. The party made a stay of four hours at the Park, which were spent in visiting various points of the ground. At six o'clock Mrs. served tea on the "Maud" and it is safe to say that the spread could not have been better. At 8 p.m. the steamer left the wharf homeward bound, the trip up the river being enlivened by instrumental and vocal music by the church choir. Quite a breeze was blowing. After a pleasant sail the city was reached about 11 p.m.

GARDEN ISLAND.

A FIRE THIS MORNING—EIGHT FAMILIES HOUSELESS—LOSS NOT HEAVY.

About one o'clock this morning a fire originated in the small wooden tenement occupied by Mr. Moses Emmond, a fisherman living on Fancy street, Garden Island. The flames so speedily enveloped and consumed the building that little or nothing was saved from it. But the fire was not confined to this building, but extended to and destroyed in all six houses, occupied by eight French Canadian families. All, however, excepting Emmond, saved the most of their furniture. Mr. A. Malone's workshop and the factory of the Dominion Incubating Company were burned. The loss will be between \$3,000 and \$4,000. There was no insurance. The fire lasted about four hours, and caused a brilliant illumination which was observed by distant residents of the city and adjacent islands. It was an unusual occurrence on Garden Island and hence was viewed as a kind of sensation. Those who were unhoused by it will be provided for without suffering much discomfort.

Garden Island, July 17.—Those burnt out are: Moses Emmond, J. B. Dicaire, John Dicaire, John Clement, Joe Saucy, Geo. Saucy, John Garand. Emmond lost all his furniture. The rest saved most of their things. The fire is supposed to have caught from persons smoking up stairs and dropping fire from their pipes.

Briggs v. Newell.

Mr. Abraham Briggs has called to request the publication of his statements as to the recent difficulty which he had with one Newell, a resident of Wolfe Island, while crossing the harbour in a small boat. On the evening of Monday 13th he, Newell, and the mate of the schr. "Bismarck," left Channel Grove in a small boat for Kingston where the last of the three named desired to do some business. The trio reached the city at a late hour and remained here until about daylight the next morning. When they set out for the schr. Bismarck Mr. Briggs says his companions were tipsy. When the pier at Garden Island was reached Newell gave a lurch which upset the skiff, and all three had to swim ashore. The narrator, with the mate, went on board the Bismarck while Newell again took the boat and went off for some time. When he returned Briggs got into the boat and Newell pulled out, but the former noticed that since he had not been being made and spoke to Newell about it. Newell said he was going to the city. Briggs said he should not do so that morning—not with his boat. Newell swore he would do so, and the subject was debated and disputed for a couple of minutes. Briggs said he saw that he had to take some strong measures in order to control the boat, and raising his hand at that time, Newell said that he would hit Newell a bat with the oar. The reply was "You can play at that." Briggs struck Newell gently, whereupon he received a retaliatory blow on the left arm. Newell made another wife by Briggs, breaking his ear upon the seat. Our informant then says he hit Newell hard enough to quiet him. Mr. Briggs said he entertained an antipathy towards Newell, and that he is not the owner of Channel Grove as was stated.

Medical Council.

Yesterday a communication was read from Dr. Day, asking the Council to furnish him with a list of voters struck off which were polled in his favor at the recent medical territorial election held in the Quinte and Cataraugus divisions, and to state the reason why each vote was struck off. Dr. Bergin thought it was a very modest demand from Dr. Day to ask for information wherewith to prosecute the Council. He moved that the letter be laid on the table. The motion was carried.

PROPHETES.—Mr. Wm. Mcintosh has assumed the management of the High Rock phosphate mine at Buckingham, owned by an English company. Mr. Mcintosh owns a phosphate mine near Kingston, which he had been working successfully for three years.
