CANADIAN BRANCH.

In addition to the sum of $100,000 which has been deposited in CASH with the Canadian Government for the exclusive benefit of Canadian Policy holders, the Directors have decided to invest in first-class Canadian Securities the whole of the earnings of this Branch, which, from the fact of a higher rate of interest being obtainable in Canada, will enable the Company to reduce very materially its

The Directors have also determined, in order that this Branch may in every respect be placed on a footing of equality with the local Offices, to empower the Canadian Board with full authority:

2nd.—To settle without reference to the Head Office, all claims arising in Canada.
3rd.—To invest in first-class Securities in Canada.

CATARRH.

The Constitutional Remedy.

The Constitutional Catarrh Remedy is the first article placed before the public that proposed to cure Catarrh by building up the Constitution. It struck at the root of the whole difficulty, and thousands upon thousands of letters have been received by the proprietors, setting forth the marvelous cures, and what is remarkable, curing not only the Catarrh, but all other ailments at the same time. This is what it always does. The following statements are only samples of what we are constantly receiving, from well known people to whom you can write, and not bogus ones. Catarrh and its attendant evils, cold in head, hacking cough, incipient consumption, headache, pain in the back and loins, dizziness, languidness, loss of appetite and general weakness, all leave together when the Constitutional Catarrh Remedy is taken as recommended.

Home Testimony in favor of Littlefield's Catarrh Remedy:

T. J. B. HARDING, Esq.,

Brockville, 12th Feb., 1876.

My Dear Sir,—I can can fully endorse, from my own experience, the favorable account of the Constitutional Catarrh Remedy. It has afforded me relief from Catarrh and Cold every time I used it, and then when I could not take proper care of my self in bad weather.

Yours respectfully, C. W. VOLNEY.

T. J. B. Harding, Esq.:

Brockville, Feb. 9, 1872.—Sir: Having had Catarrh for a number of years, and having tried nearly all the remedies advertised that promised relief or cure, without the desired result. I came to the conclusion that it was useless in trying to cure the disease. I was advised last fall to give the "Constitutional Catarrh Remedy" a trial, and did so, with very little faith as to the result. But I am happy now to say, that after using three bottles, I am entirely cured and no not feel as if I ever had Catarrh. I also cheerfully recommend it to all those that suffer from that disease, and am satisfied that it can will only try one bottle, it will need no other recommend, and will convince the most sceptical.

Yours Respectfully,
JOHN C. BANN,

LIFE INSURANCE THEORIES, TESTED BY HARD TIMES, HAVE PROVED TO BE TRUE.

1. During the last twenty-four months business men have been compelled to give most of their time and energy to save their business from ruin.

2. This proves that the value of money invested in commercial pursuits is, to a great degree dependent upon the life of its possessor. Your business, as a whole, deprived of your personal management, must shrink in value from the moment of your death.

3. Since, therefore, your business and most of your investments, will be of less value to-morrow if you are dead, than to-day while you are living, it is evident that your life should be fully insured. The hardness of the times, instead of furnishing an excuse for delay, should add weight to the arguments in favor of immediate insurance, for if it is hard for you to pay a premium now how much harder would it be for your family to support themselves, in these times, if you were dead.

4. Then before your health becomes impaired, discharge this duty which you know you owe to your family. The feeling that your family and old age are provided for,—no matter what may happen,—will afford you permanent comfort, which an equal amount of money laid out in any other way could not purchase.

BE CAREFUL.

When you have made up your mind to Insure, that you invest in none but a First-Class, Economical Company. That there are first rate, and second rate, and third rate Companies, and Companies not worth rating, seeking business in Canada, must be apparent to all. The British Board of Trade have established the following rule:

"TAKING INSURANCE AS IT EXISTS, THE PUBLIC CANNOT BE MISLED IF, WHEN SEEKING AN OFFICE IN WHICH TO EFFECT AN INSURANCE, THEY SELECT ONE WHICH TRANSACTS ITS BUSINESS AT A SMALL PERCENTAGE OF WORKING COST."

The following figures shew the "per centage of working cost," or working expenses per $100 of income, on the part of 15 of the Companies doing business in Canada, compared with the ÆTNA LIFE:—

Five largest Canada Companies	$35.36
" of the American "	27.50
" largest American "	10.78
The ÆTNA LIFE Ins. Company	8.58

The above figures shew the real cost of being insured in the different Companies. ☞ When you are asked to Insure by any Agent, see that he writes your application on the form of the

Ætna Life.

If he has none, write for a set of papers to

THE OLD DRESS-COAT.

Where cobwebs are thick and ceiling low,
And the dusty floor looks dark below,—
Where trunks and boxes in lonely pride
Are gloomily ranged 'round the rough wall side
Where pictures hang that are old and dim,
Where old hats lay devoid of brim,
Where the past over all in dust is wrote,
Hangs on the nail the old dress coat.

The heaving breasts are dull and still,
But the light wind play with the flaps at will;
And lazily swings its shabby tail,
It floats its length from a rusty nail,
Like a pendulum moving the hands of time
That meet and part at the noon tide chime,
And the arms together kindly float,
As if to gloat o'er the old dress coat.

Oh, many a time in the olden day
I've brushed its dust and folds away,
And decked myself for the evening ball,
Where the dance was wild, and love ruled all,
And laughed as I whirled in the giddy dance,
At the girls' sly look and admiring glance,
And felt youth's music's sweetest note,
And I sauntered along in my fine dress coat.

But now, as I turn from its mouldering pride,
And look in the broken glass at its side,
The face that I see is graver grown,
And the laugh that I hear has a sober tone,
And the form that gave it such graceful swings
Hath bowed 'neath the weight of sterner things
But love to think of the happy hours
I danced in my coat 'mid music and flowers,
Ere the steps of time in its rude march smote
And crushed the pride of my old dress coat.

COUNTY COUNCIL.

To the Editor of the British Whig.

DEAR SIR:—In the WEEKLY WHIG of last week I observe an article headed "County Council," purporting to be a discussion on the assessment question, handed to you and requested by several members of the Council to be published, or in other words such members should be termed a ring, as the object appeared to be, to raise municipalities which were already too high, and reduce their own municipalities which were much too low. Of course coming from several members of such ring, it could not be expected to be any thing else than a one sided affair, leaving out statements made by the opposition that would clearly show the want of knowledge of municipal legislation, as also the corrupt intentions of the ring, and their desire to throw on the Judge the blame of their own determined ignorance and corruption.

The truth is that in the June session of the Council of the County of Frontenac a majority of the Equalization Committee with several memoers of the council met in the evening at a public house, no notice being given of a meeting of said committee, and without the assessment rolls of the several municipalities or anything proper to guide them, then and there proceeded to equalize the same and the conclusion came to that evening was not altered the next morning when they met to sign the report, which report provided that all the municipalties should remain as equalized last year except Garden Island, Pittsburgh and Wolfe Island, these three to be increased in valuation, and the townships of Kingston and Kennebec be reduced. Of course the Reeves of the municipalities increased very justly protested against the report as unjust, and stated their intention of appealing to the proper authorities for relief if the report would be adopted. Some of the members of the ring stated that the county was assessed too low, and they must commence to raise it somewhere, and they might as well commence on these municipalities, and they did so accordingly. Now the object aimed at by this equalizing ring seemed to be to punish the Reeves of some of these three municipalities, or rather the ratepayers thereof, so that the same Reeves should not be sent again to the County Council to find fault with and expose the doings of a majority of the Council and some of the officials thereof. In fact it was freely circulated by the friends of the ring that such was the case, and they specially mentioned the Reeve of Pittsburg. Such assertions expressed by such men plainly show what they are. An appeal was made to the County Judge, who after patiently hearing the evidence from both sides although not waiting to hear about one dozen more witnesses on the defence for the reason, as I suppose, that the evidence so far taken on the side of the defence, was not to the point, or did not show the relative value of the different municipalities, but simply showed that several small and choice farms with extra buildings in Pittsburgh and Wolfe Island, sold at from $50 to $60 per acre; and I suppose it was on this statement that the Judge stated that the County was worth four times as much as it was assessed at; but the evidence before the Court for the appealants as to the relative value of the municipalities, as given by the respectable and intelligent gentlemen, enabled the Judge to decide in the honourable manner in which he did. This, of course, enraged the ring as it set the ratepayers of the county against them, and then they at once proceeded to fabricate a scheme to overthrow the decision of the Judge, and to secure their next election, and behold, this gigantic piece of legislation that you have published at their request, was concocted by the county officials, who lead the ring and introduced into the council chamber. (Read 1st, 2nd and 3rd time and became law in their opinion.)

Now, Mr. Editor, when men will do business in such a manner and then boast of their doings by way of publishing it in the public print under such a flow of language it must be admitted they displayed a large amount of ignorance or bad feeling, or both. Is it just that the appellants and the Judge should be persecuted and villified in such a manner when doing their duty, and protecting the public from the wrong doings of these men. The by-law passed for the purpose of granting so large a sum of money, viz., $5,632, was for no other purpose than reversing the Judge's decision, deceiving the electors of the county, and securing their next election, but such conduct will, I trust, not be entertained either by the electors or the Judges.

In order that the public may know the injustice of the equalizing ring I give the equalized assessment of 1875, which shows the amount per acre as equalized then. Add to this $32,000 to Pittsburg, $30,000 to Wolfe Island, and $5,000 to Garden Island, and that the evidence put Pittsburg and Storrington on an equal value. You will then see if the Judge gave a just decision as far as he went:

COUNTY OF FRONTENAC.

Municipality.	No. of Acres Assessed.	Equalized Value.	Value pr acre as equalized.
Barrie	14,733	$ 25,000	$ 1 69
