CITY AND VICINITY

☞ GOLD in New York at 3 o'clock 109¼

OUR LAKES.—The "Canadian Illustrated News" for this week contains cuts of two more of Frontenac's Lakes, Wolfe Lake from Fermoy Village, and Knowlton Lake, from sketches by A.W. Moore. The pictures are very well finished and very truthful in appearance.

POLICE.—Margaret Wilson, vagrant, committed to the County gaol for five months.—John Hennessy, drunk, was dismissed; and John Hannigan and Thos. Kennedy, drunk, were fined $2 or 30 days. A case of abusive language, Gunn vs. Burke, was settled.

BOARD OF TRADE.—There will be a meeting of the Board of Trade next week to consider the questions to be discussed at the next annual meeting of the Dominion Board of Trade. The trade letter of Mrs. Patterson will be also reviewed.

PERSONAL.—Colonel Flower, contractor of the K. & P. RR., has passed through the city en route to Watertown. All who visit Sharbot Lake should see the Col. He is at present the life of the place, and peculiarly American in his disposition, whole-souled, genial and hospitable.

THE DUNKIN PETITIONS.—The temperance people of the city are making a vigorous effort on behalf of the Dunkin Bill. One petition—the first one started—has about 100 signatures on it, all ratepayers, to say nothing of the petitions being prepared by the clergymen and the ladies.

THE COUNTY COUNCIL.—It is likely that there will be a special meeting of the County Council before long, it being held that in order to make the settlement lately made between the Committee on County law suits and the K. & P. RR. legal and binding, it should be ratified by the Corporate body. There seems to be some force in the contention.

MARINE.—The schooner "Skylark" ran ashore yesterday at Four Mile Point, when bound for Brockville from Cleveland with a cargo of coal. The tug Hiram Calvin went to her assistance and succeeded in pulling her off. The schooner "Grantham" passed down the river today from Muskegon for Quebec with a cargo of deals.

THE CROSSING.—We join with our local contemporary in protesting against the muddy crossings. This morning they were not so bad, thanks to the frost; but the Council cannot take credit for anything which the climate may do. We cannot see why Kingston cannot be kept as free from mud on the crossings as Belleville, by having a man appointed to keep them clean.

THAT EXCURSION.—The invitations have been issued for the excursion over the K. & P. RR., on Wednesday next. The train will leave Kingston at nine o'clock, and reach Sharbot Lake about eleven o'clock. All the members of the City and County Councils, and a large number of citizens are expected to go on the trip. A dinner will be given the party at Shibley's Hotel.

WANTING A POLICEMAN.—The Sergt. in charge of the police station last night was interviewed by a chap who wanted a policeman to look up a pair of lost curtains for him. He produced a little book, from which he read off a list of things which he said he wanted to "present by himself," and coming to the curtains he ejaculated, "Them's what I want, and I want 'em right away." The Sergt. explained that his case partook of a civil action against the party who sold them to him, or the carter who lost them, but he couldn't understand, and in an angry tone demanded "What the — are the police for." That ended the meeting. The intruder was shuffled out and told to commence with the moon or the mud, which he proceeded to do after the most approved fashion of a drunken man.

THE LAZARUS ROBBERY.—Dectective Cullen, of the Montreal Police Department, was in the city yesterday. He had been to Toronto looking after valuable property which had been stolen from Montreal recently and a portion of which he recovered; and he stepped off here to interview a convict in the Kingston Penitentiary in regard to the Marsch-l-Lazarus robbery. The convict in the K.P. is charged with supplying Marschal with the moulds of Lazarus keys before he (the convict) was imprisoned for burglary. The interview was not successful so far as getting information was concerned. The convict would tell nothing which would throw any light on the Lazarus robbery. Detective Cullen will be even with the Penitentiary bird, having three charges of burglary against him in addition to that for which he was convicted.

WIND WAFTS.

—The Tandys have been invited to give a Concert in Carleton Place.

—Take your choice. The candidates for the mayorality are in the field.

—Wristlet parties are the latest. They have long been fashionable in police circles.

—Dr. Walkem bids farewell to Victoria, and will doctor the employees of two mills at Burrard Inlet.

—Young ladies, the new shade is "antique purple." It is about the tint of an election eye two days old.

—The weather for fall plowing the past season has been unsurpassed in the recollection of our farmers.

—It is probable that the Rev. Mr. Clarke, lecturer, elocutionist and humorist will visit Kingston.

—In the case of Copp v. Canada Cotton Manufacturing Company, tried at the last Assizes, a rule nisi has been obtained for a new trial.

—They are paying back the pool money in New York to the betters. Wagers on the Presidential contest are all declared "off."

—The remains of the great behemoth will be brought to Kingston for exhibition. No go; we are used to wonders here.

The Rector of St. Thomas' Church, Belleville, writes to the papers, asking that in the dispute between him and his congregation circumstances be not judged harshly. He wants both sides heard.

—The New St. Mary Magdalene Church, Napanee, will be opened on St. Andrew's Night. The Bishop and Archdeacon Parnell will preach on Advent Sunday.

—Messrs. Rathbun, of Mill Point, have had the new sash shop fitted for heating by steam, and it works splendidly. The work was done by Messrs. McKelvey & Birch, of Kingston, who make a specialty in that line.

—Young boys contemplating shooting excursions in the woods will please carry a card in their pockets, inscribed with their name, age, address, and if possible a brief synopsis of their life. It would expedite the work of the reporter.

—Referring to the projected Steamboat Company, composed of Bay of Quinte steamers, the *Palladium* says it strikes it that the project is a good one, and if the Company is formed and well managed it will be a benefit to all concerned.

—The American company that bought Mr. Hott's farm near Flinton, in Kaladar, expect large returns from the rich indications shown up to the present time. The *Express* says a mine is being worked in the eastern part of the Township, and a shaft is sunk in the Township of Barrie, from both of which the indications are that they will prove very rich. These mines are all in the north part of these counties.

ANCIENT FRONTENAC.—Last evening the annual installattion of officers of this, the first Chapter in Canada took place at the Masonic Hall, the ceremony being performed by R.E. Comps. Wilkinson and Creggan. There were present as chapter and visiting Principals, R.E. Comp. Parker, Ex-Comps. Thos. Gordon, L. Clements, Thos. Seale and J.M. Pollock. This is the 79th year of the chapter's history, the names of many of its founders being scarcely known to the people of the present day. It has contained some of the most distinguished of Canadian masons, and Sir John Macdonald is now fifth on the list, though for 22 years a member. The officers for the current year are:—

E. Comp. S. Woods—Z.
" " W. A. Gunn—H.
" " E. J. B. Pense—J.
" " G. W. Andrews—S.E.
" " A. Strachan—S.N.
" " W. Baillie—P.S.
" " Jas Redden—S.S.
" " W. Clarke, J.S.
" " Philip Bajus—M.C.
" " E. Ball—Jan.
" " Thomas Scorah, } M. of N.
" " W. Lewis, }
" " James Adams, }
" " George Gillies. }

At the closing of Chapter the companions present adjourned to the supper room of the Anglo-American Hotel, where as fine a spread as Martin has yet tickled the palate with was rapidly put out of sight. Then came the toast of "The Queen," coupled with "The Craft," and companions laid themselves out for an evening of song, sentiment and merriment, a recreation apparently enjoyed by all, if not fully meeting the popular rage for "true Reform" in clubs, or the "paper cultivation and social intercourse" of a Y.M.C.A. Hall.

"BELFORD'S MAGAZINE."—This latest and most promising yet, with all due respect to the *Canadian Monthly* and *New Dominion Monthly*, of the Canadian magazines, was issued to-day with an attractive list of contents. Among the contributions in this first number are the following, which will be especially interesting here:—

Words for an Anthem. Poetry.—Charles Sangster.
Arminius. A New Poem.—Susannah Moody.
University Consolidation.—Canadensis.

LICENSES.—Inspector Conley has been requested by the Government to furnish them with a return of the amount of fines imposed and collected for violations of the license law since May last. The result is somewhat surprising, nearly $500 being gathered in, exclusive of the dues of two or three parties who have left for parts unknown.

JUVENILE CLUB.—This is an age of imitation, and it must be expected that the youthful will follow in the footsteps of the more advanced in years. Hence the announcement will not be surprising that the faster of our boys—those who are supplied with too much pocket money for their own good—have rented a room and propose to have a club of their own.

QUARREL.—A farmer, bareheaded and with bleeding face, attracted attention on the street this morning. On enquiry it was ascertained that he had been concerned in a quarrel at an up town hotel, and received the punishment of having one of his eyes nearly gouged out.

FERRY STEAMERS.—The only trips now ran are: Leave Kingston for Cape Vincent at 2 p.m., leaving there for return at 10 a.m. Leave here for Wolfe Island at 11:30 a.m. and 3:30 p.m., leaving Island at 9:15 a.m. and 1:15 p.m.

Y. M. C. A.

As the benefits of Young Men's Christian Associations are under discussion here, the opinion of the *Evangelical Churchman*, of Toronto, taken from yesterday's issue, may be of some little interest:

"We believe that much of the Church's work can be better accomplished by a large united body, than by a number of weak divided bodies. The aggressive work of the Church in particular, is far better carried on in this manner. Where the Gospel is proclaimed by those, who, meeting on a common platform, sink in the prosecution of the work all minor differences, and deliver the message common to all, in its fullness and freeness untrammelled by any of the peculiar features which cause the dividend lines between the various churches, a grand difficulty in the way of the hearer is removed. He is not troubled on the threshold by the consideration of the question with which Church shall I allow myself, which of these Bodies is the true Church, in which I shall without fail find the salvation I need? In the united body, the sun, the common centre of attraction, occupies so prominent a position that all other matters pale in its glorious light; it is presented to the searcher after truth to whose attention the minor questions of the differences between the bodies that revolve round this grand Light of the world may afterwards be directed, before he casts in his lot with the one rather than the other. No one can doubt of the benefits that must be derived, the impetus for good that cannot but be given to our young men by such large meetings as those held in Toronto and throughout the world on Sunday the 12th of November, for prayer and for stirring up our youth and quickening them in their Christian walk.

WILLIAMSVILLE.—The Western suburb is looking up, and not with the assistance of the new buildings put up on the Government lots alone. The Street Railway is now building its depot or stables there, and a new Canadian Methodist Church is contemplated upon the central and commanding site of the burnt Spankie store, on the corner of Princess and Victoria Streets. A splendid opportunity is thus embraced of improving the locality, and relieving the Methodist community of their present out of the way and inadequate church accommodation.

VAGRANCY.—A woman and her two children were this morning committed to the county gaol for vagrancy. The woman is entitled to her fate, for she is a nuisance at the best of time. But we feel for her children. They would be kindly cared for by other people; but she must have them with her, and as in the present case when she becomes involved in trouble she makes them suffer with her. She is training them up in the way they should go.

DUNKIN.—If the Dunkin By-law vote in Palmerston stands 8 to 8, then the County declared itself 1,048 in favor of and 619 against the measure, a majority of 429 in its favor. As the Toronto *Observer* remarks this is but a small proportion of the actual vote of the county, but as it expresses the proportion of opinions as near as an average can be struck, it will satisfy the country in general, if not the *Observer*.

THE STREET.—If there is a worse piece of road in the rear of Frontenac than that part of Princess street near St. Andrew's church than the streets and improvements committee are not after all the biggest failure of 1876. Some much acquired metalling is being done to-day.

BOXING SCHOOL.—The neucleus is being formed for a fresh agitation in society circles. The young men are establishing a boxing school. Well, we can't complain. We do not favour trouble; but if there is any fighting to be done we don't want to see our boys licked.

A WIDOW AND NOT A WIDOW.—An Ottawa report says:—"Some weeks ago the dead body of a man was found on the Prescott dock and was claimed by a Mrs. Hughes, of this city, who was under impression that it was her husband. The remains were brought to the city and interred in the R. C. cemetery, and Mrs. Hughes, labored under the impression that she was a widow. Last night, however, Mr. Hughes returned home. His appearance scared Mrs. Hughes so badly that she is not expected to recover."

THE Grand Central Hotel, New York, leads in the popular demand for low prices. It has reduced its rates from $4. to $2.50 and $3.00 per day.

OXYGEN IS LIFE.

DR. BRIGHT'S PHOSPHODYNE.—Multitudes of people are hopelessly suffering from Debility, Nervous and Liver complaints, depression of spirits, hypochondria, timidity, indigestion, failure of hearing, sight and memory, lassitude, want of power, &c., whose cases admit of a permanent cure by the new remedy PHOSPHODYNE (Ozonic Oxygen), which at once allays all irritations and excitement, imparts new energy and life to the enfeebled constitution and rapidly cures every stage of these hitherto incurable and distressing maladies

Sold by all Chemists and Druggists throughout the Globe.

☞ CAUTION.—The large increasing demand for Dr. Bright's Phosphodyne has led to several imitations under somewhat similar names; purchasers of this medicine should therefore be careful to observe that each case bears the English Government Stamp, with the words, Dr. Bright's Phosphodyne, engraved thereon and that the same word are also blown in the bottle. Every case bears the Trade Mark and signature of the Patentee.

EXPORT AGENTS—Watney & Co., 107 South wark street, London, S.E.

BOOK AGENTS WANTED.—Now is the chance for intelligent, wide-awake Book Agents, experienced or inexperienced, if not afraid to work, to take their choice of three magnificent new books, excellent for Christmas presents, indispensable to every Canadian family, "The Fur Country," 100 illustrations; "The New Way Round the World," and the late "Tour of the Prince of Wales in India," both profusely illustrated. Also, "New Illustrated History of the Dominion of Canada" New plan—good wages. Write for terms, etc., to H. B. Bigney & Co., 28 and 30, St. Francois Xavier Street, Montreal.

ERPS'S COCOA.—Some time since, in a series of articles in these columns upon food, we spoke in terms of unqualified praise of Messrs Epps & Co's "Prepared Cocoa." The opinion we then expressed as to its purity and nutritious qualities has been fully endorsed by the public, as shown in its increased and steadily increasing consumption. We believe that Messrs. Epps's manufactories are now the largest of the kind in the three kingdoms, and the total quantity of "Prepared Cocoa" consumed at the present time approaches four millions of pounds annually. This result is not surprising. The dietetic properties of native cocoa are well known, but in the form prepared by Messrs. Epps they are rendered additionally valuable, both on account of their increased nutritive power and digestible character. We rejoice to see the high opinion we originally held to have been so generally confirmed, and we again congratulate Messrs. Epps on the sound and valuable addition they have made to our not over lengthy list of dietetic foods.—*Civil Service Gazette.*

A CARD.—To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, *Station D, Bible House New York City.*

HERE AND THERE.

—British Columbia ships hops to Europe.

—Winnipeg is to have penny readings in aid of the hospital fund.
