Phosphorus Medicine

ALTHOUGH the Modern Materia Medica implies many valuable remedies for human ailments, it is a matter of certainty that Phosphorus is decidedly superior to every other remedy of present known, and it possesses the great advantage of not causing, when used in a judicious manner, the slightest reaction or depression.

THE GREAT MAGAZINE OF 1861, says: "Phosphorus is an essential element of the human system, and its deficiency is a source of weakness and disease."

Dr. Rowbotham says it is difficult to give the exact amount of Phosphorus in a free, unoxidized state in an essential element of activity in the brain and nervous system of animals.

My Dear Sir, I can say fully endorse, from my own experience, the favorable account of the Phosphorus Medicine.
