Mr. Neel n's name appears in the Public Accounts as the recipient of \$24,000. The Mail at once pounces on this as a sop to recoup Mr. Necton's election expenses. Here was a Reformer and a Reform candidate getting \$24 000 and other people only \$2,000 or \$4.000, for lands required for canal purposes. Well, and what is the upshot of all this? Simply that Mr. Neelon became trustee of an estate including valuable dock property land before it was known that it would be needed for canal purposes. The property being required by the Government, was valued in the usual way by official valuators, and the price awarded received with some dissitisfaction by many of the creditors, who thought it worth more.
