WIND WAFTS.

It will be grand, bye and bye, riding on the railroad cars.

—This is splendid weather.

—More like summer than Spring.

—The schooner Oriental has reached Hamilton—the barque R. Gaskin is on her way up.

—Prof. Fenwick delivered the opening address in the Congregational College, Montreal.

—Men and women in their glory now—the men gardening and the women house-cleaning.

—There's not a shop where we have been, the owners of which are wise.

—But who if asked success's cause, would answer—"Advertise!"

—The opening of the Welland Canal is not looked for within five weeks, but the canal is reported clear of ice between Welland and Port Robinson, and dredging has commenced on section 20.

—Twenty captains of lake craft signed the pledge at East Saginaw, Michigan, on the 21st of March. This is a commendable way to begin the season of navigation.

—Thoughtful mothers are inserting blue glass in the front of their boys' pantaloons. The theory is that the pane of blue glass will counteract the pain of blue eyes.

—He was a solemn looking traveler, and he walked through the dog-splashing, "Heaven is my home," when one of the boys called out, "Then you are going the wrong way, stranger; this is the train for Tyndengs!"

—He, who turned Queen's evidence in the recent robbery case at Ottawa, was yesterday sentenced to three years in the Penitentiary at Kingston, on the several counts to which he pleaded guilty when first arraigned.

—On Thursday, the 6th, a True Blue Lodge was organized at Clark's Mills. The organization was done by Bro. John Donnelly and Wm. McLaughlin, of Kingston. The new lodge includes fourteen members, and is known as the Walker Lodge.

—She was sweetly dreaming of bright golden fields where flowers breathed perfume and she thought she was chasing butterflies. Up and down hill and dale she ran, and then she caught a beautiful red-winged butterfly, and awoke to find that she had nearly twisted her husband's nose off.

House of Industry.

The monthly meeting of the Board of Directors was held last evening in the City Council Chamber, and there was present: The Mayor, Alderman Gibson, Messrs. J. M. Mearns, D. Gibson, D. Fraser, A. Chown and G. M. Mason.

Mr. Mearns made a motion to the effect that Miss Ryan (whose name was connected with the late epidemic) be allowed to remain in the institution until arrangements are made for a place for her in the country.

Messrs. Drummond and McDonnell read the motion as going contrary to standing orders of the house.

It was understood, however, that the woman should not suffer any by summary ejection.

A motion was made adding the name of Mr. Donnell to a Committee for the preparation of a code of laws for the government of the House.

A book was also ordered to be kept by the Superintendent in which to enter and keep an accurate account of all donations and bequests.

A Walk.—Reclining on the sidewalk on Queen Street, as dusk set in, was a boy of about 10 summers, fair and rather effeminate in appearance. A little bundle lay at his side. He coughed and sneezed and his general appearance indicated him to be a wail—alone in the world. His heart had been troubled, he had called a while, and then he died and slept; and passing by, a little fleshy haired girl caught the expression of his face, lingered and loved, and finally stopped to impress upon the youthful brow the stamp of her affection and sympathy—a kiss. Gently it was done, gently she arose and vanished in the shade of evening. But the boy slept on, dreaming pleasantly of the past, and seeing hopeful visions of the future; but he saw not the fairy belle who stopped to caress the wanderer by the way, to soothe him in his sorrows, and to lift the sunken heart and nerve it on to noble deeds. Perhaps those two souls may meet again—perhaps to think and feel as one—perhaps to credit that mystic kiss as the first link of future joy. Who can tell!

ENTON BIBLE CLASS.—There was a very large attendance in the Y. M. C. A. Rooms last evening of ladies and gentlemen interested in the study of the Bible. The Rev. Mr. Peacock presided. There was also present Rev. Mr. Joffile. The subject of discussion last evening was, "Nathan the leper," as recorded in II Kings, 5th chap. The Chairman laid down the plan of the lesson, which consisted of the various characters, such as Nathan the leper; his position in Damascus; the king; his master; and the Hebrew maid; and then the king of Israel, and Elisha the prophet, with the countries and the chief cities. Then there was the disease and the cure, all of which the Chairman explained and illustrated. There was then an interchange of thought on the various points in the lesson, which made the hour pass away very agreeably. It may be said that these meetings are a success, and there is no better way that those interested in the study of the Bible, especially Sunday School workers, can spend an hour in each week. There will be a meeting again next week in the same place at 8 o'clock. Punctuality is necessary.

PRESENTATION AT THE BARRACKS.—On Wednesday Sergeant-Major Clark, of "A" Battery, returned from England, which he had visited on business in connection with his pension, he having served considerably over 21 years, and this morning he was the recipient of a very handsome present from the Queen—a silver medal awarded for long and continued good conduct. The presentation was made in the presence of the whole Battery, drawn up on the square of the Barracks, just prior to the march out. Sergeant-Major Clark made a very complimentary speech in praising the medal in the hands of Sergeant-Major Clark, pointing to the fact that men may win tokens of worth in many ways, but that nothing but conduct such as that of the soldier who has earned the recognition of the Queen. He pointed to this fact as an encouragement to others to follow in his footsteps and aim at similar results. Sergeant-Major Clark is a most deserving soldier—a soldier in spirit, deed and demeanor. He has fully earned the honour which has been passed upon him by Her Majesty.

PROBABILITIES.—To show that the probabilities of the weather are of greater consequence than some people are inclined to credit them with, we append the following summary, taken from the monthly report of the Meteorological Office, Toronto:—

The number of predictions issued by this office was 263. They were as follows: For the Lower Lake region—number issued, 134; number fully verified, 92; number partly verified, 28; number not verified, 15; or 88.8 per cent. verified and 11.2 per cent. not verified. For the St. Lawrence—Number issued, 129; number fully verified, 103; number partly verified, 8; number not verified, 19; or 86 per cent. verified, and 14 per cent. not verified.

THE PUBLIC SCHOOL BOARD.—A special meeting was held last evening at the Board Room. Present—The Chairman, Messrs. Hurray, Oliver, McJannet, Tones, McDonough, Wilson, Irvine. A report of the Committee on Schools and School Properties in regard to all-tenant of contracts for waste was adopted, and an additional grant of \$15 made for Williamsville School, to improve the job. The Board resolved to strictly enforce the rules prohibiting the admission of children from County schools to the city schools, except upon payment of a fee of fifty cents per month. The resignation of Mr. Thomas C. Wilson, the Principal of Queen Street School, accompanied by a medical certificate of the danger of continuing his teaching longer, was received, and a certificate of nineteen years of faithful service, and of sympathy in his affliction of bad health, was signed by the trustees present. The proposal to open a Public School Institute was brought up and informally discussed.

OURSELVES.—We take the following from the Printer's Machinery: "The British Whig Steam Job Printing House, Kingston, Ontario, sends a fine specimen in the shape of a business card, the first number of which, was issued in February. It is printed at the British Whig office and is very creditable to the printer and pressman."

RAILROADS.—On Monday next it is expected that the laying of the track on the E. & P. R. west of Sharbot Lake will be commenced. There will not be any stop for the first seven miles, and even then there will be but little delay. By next September the line will be open to the Mississippi.

Cooper, more familiarly known as 'Doc,' has resigned his position as custom house officer at Cape Vincent, and has taken the late Horace Grosley's advice and gone west. It is rumored that the Hon. William Macdonnell has entered an action against Mr. Norris, M.P., for \$200,000, the amount of the penalty Mr. Norris will have to pay if it is proved that he had a contract with the Government while sitting and voting in the House.

Mr. Norris has returned to Ottawa from Montreal, and Mr. J. G. Currie and Mr. Irving are looking into the case. It is stated on the authority of the former, that there is no ground on which Norris can be sued for damages.

It is rumored that a change can be brought about in the Ontario M.P., for having been interested in the Ontario Publishing Company before it was incorporated. It is said that it can be proved that he is still a partner in a hardware firm which contracts with the Government for the supply of coal. It is charged that he also held a \$10,000 contract for lumber for the late Government.

As the Tories have begun to amuse themselves by moving for writs in the Ontario courts, the members are alleged to have had contracts with the Government, it is rumored that writs will be moved for in a number of constituencies where the members have vacated their seats by being interested in newspapers which have received public money from the Government. There are Mr. Currie, of Ottawa, who holds stock in the Citizen; Mr. Stephenson, of Kent, who owns the Ontario Press; Mr. Desjardins, of the Ontario; Sir John Macdonald, who holds stock in the Mail; and Mr. Howell, who is interested in the Belleville Intelligencer, since this Parliament was elected. Mr. Wallace, of Norfolk, and others, there are clear and certain cases of Conservative members.—Herald Times.
