NURSE'S TREASURE

The Nurses' Treasure regulates the bowels, cures wind-colic, checks vomiting, diarrhœa and dysentery, and is a sure preventive from any attack of convulsions, so generally fatal to children. Mothers should always have a bottle of the Nurses' Treasure at hand, and carefully read the directions and certificates. Its popularity is conclusively evidenced by the use of its great value.

CITY AND VICINITY

☞ GOLD in New York at 3 o'clock 106½

☞ *The Cheapest Place in the City to buy CLOTHING is at A. A. LEVEY'S Clothing Emporium, Wellington Street,*

COURT.—Only one woman, a drunken creature, was before the Court this morning. She was reprimanded and dismissed.

THE LAUNCH.—The ocean vessel was launched at Garden Island this afternoon. A great many went over from the city at 1.30 o'clock, and just arrived there in time for the show. From the city she was seen to take to the water reader.

WIDDOWS' LECTURE.—Last evening F. G. Widdows lectured in the Victoria Music Hall, and the audience numbered fully 600 people. Besides the lecture Mr. Widdows sang some five times. This evening he will appear at Brockville.

CRICKET.—The Kingston Club will begin their practice for the season on Thursday next. The grounds are in good condition, and the Club expect to do some tall playing during the year. The first defeat awaits the St. George's Club, of Montreal, on the 24th.

THE TOLLS.—A resolution was passed in the City Council last evening that will have the effect, we think, of abolishing the tolls on the Kingston and Napanee Road. The affairs of the road are such that the City Council have every reason to believe they will be successful in their undertaking.

THE SABBATH SCHOOL PRESBYTERIAN.—This is the only publication of the kind, in connection with the Presbyterian Church, in the Dominion. It is neatly and tastefully got up; and beautifully illustrated. Published in connection with the BRITISH AMERICAN PRESBYTERIAN, TORONTO.

SUSPENSE.—There was a great many in Kingston who feel an anxiety as to the safety of the "City of Brussels," which has among its passengers the pilgrims to Rome. The steamship companies say there is no fear, but the public do not accept the assurance with any degree of confidence. The steamer has now been out fifteen days.

A CALL.—Last evening there was a meeting of the congregation of Chalmers' Church, Prof. Mowat, Moderator of the session, presiding. We believe remarkable unanimity of feeling prevailed, and that a call was unanimously extended to Rev. F. G. McCuaig, of Clinton. It is very probable the Rev. gentleman will accept. He is a very popular preacher, and a man of many estimable parts.

THE BUTCHERS.—The shambles being about empty, the Council are discussing the advisability of enforcing the city by-laws, and bringing about a re-occupation of the premises as formerly. We cannot say when the action will be taken, but it has been decided to pass a by-law making all butchers doing business within a reasonable distance of the shambles return thereto or submit to a heavy penalty.

THE PIC-NIC.—The arrangements for the St. Vincent de Paul's Society pic-nic, to be held on the 24th, are completed. It will be the event of that day. There will be games and amusements of various kinds, and every provision made for an enjoyable day. Anything under the management of this Society can be depended upon, besides the worthy object they have in aim.

THE "GENEVA."—We are sorry that the steamer "Geneva" is not to be part and parcel of our harbour fleet. The steamer has been chartered to run on the Ottawa river. We are satisfied of one thing—that there is nothing on the Ottawa that can make time with her, and after one season's excursioning the people of the Ottawa will be loathe to part with her.

FORTUNE.—We understand that a young man in Kingston is in a position to be warmly congratulated by his friends. He is the recipient of $20,000, the bequest of an aunt in England. No one deserves recognition better. And while he is to be congratulated on his good fortune, he is at the same time to be sympathized with for the loss of so kind and respected a relative.

THE STREET RAILWAY.—There was another halt on the street railway this morning, but it was not to make any changes in the line on account of disputed measurements. It was for the purpose of carrying into effect the suggestions made by Committee in Council last evening. The road will not keep the centre of the street, but take a little to the east for the convenience of farmers' teams and the public.

THE Y.M.C.A. MEETING.—The public meetings announced for Thursday and Friday evenings next under the auspices of the Executive Committee of the Young Men's Christian Association of Ontario and Quebec, will be held in the Victoria Hall. Messrs. F. K. Cree and W. P. Crombie are very popular evangelists, and the meetings, under their direction, may be expected to be unusually successful.

THE CANADA CHRISTIAN MONTHLY.—This magazine continues to occupy a high position among religious periodicals. Cheerful in its tone and liberal in its sympathies, at the same time its presentations of the truth are clear and decided. Besides the editorials it generally contains a good deal of valuable original matter. The selections are short, and attractive. The number for May contains two illustrations. C. BLACKETT ROBINSON, Publisher, Toronto.

POOR FELLOW!—A chap in Belleville wanted to poison himself because his girl married, as he thought, a rival. He went to a friend, a druggist, and said he wished to die—that he desired a full dose. He got the dose, but it wasn't poison. It was calomel, and after a few hours' agony of body and spirit his suicidal notions fled, and he rejoiced that he still lived. More than that, he learned that his girl was true to him, and now he hopes to be strong enough to be married next week.

WIND WAFTS.

—According to the rule, this is "locust year."

—The R.W. & C.RR. will change time next Monday.

—A coal combination is now regarded as impossible.

—Tisdale Brothers, of Kingston, have rented the premises at Belleville, where they keep and build boats.

—The Steamer "Picton" will leave the bay on the 21st to resume on her route between Toronto and Port Dalhousie.

—Probabilities for the next 24 hours, for the lake region: Fresh easterly to northerly winds and clear to fair weather and possibly light rain.

—The first steamer from Sarnia *en route* for Prince Arthur's Landing took three hundred passengers, bound for Manitoba.

—Building is rushing ahead in this fine weather. It is a race between the two new hotels. The British American got the start and is ahead.

—At Port Huron, the schooner Maggie, of Kingston, was sold by the deputy marshal to Messrs. Chadwick and Voorhees for $340. Bad for Kingston's credit.

—The R. W. & O. RR. will run refrigerator cars from points on that line to Boston after May 13th. Let us pack up some obsteperous alderman and send him off.

—The watering cart to-day did a good service. It blew a gale and while there was a dust in the suburbs, the centre of the city was free from the nuisance. Have you paid Sam Phippen your dollar, grateful merchant?

—This year Ottawa is to see a grand demonstration under the auspices of the "Union Allet," which is composed of Canadians who have belonged to the Papal army. There is also a programme arranged there for the celebration of the Papal anniversary on Sunday, May 20th.

Kingston Missionary Union.

The regular monthly meeting of the Kingston Missionary Union was held last evening in St. Paul's School House. The chair was filled by the Rev. W. B. Carey. The Rev. H. Wilson and F. W. Kirkpatrick conducted the missionary service. There was a large attendance of members. Mr. R. V. Rogers read an interesting paper from the *Missionary Magazine* "Mission Life," on Christian work in the Island of Ceylon. A lengthy and very able and interesting original paper was supplied by Mrs. R. T. Burns on the early missionary work of the Church of England in North America. The subject embraced the Church history of this Continent for the last three hundred years and brought forward the names of many of the pioneers of Chrittianity in the United States and Canada, whom descendants will feel it a privilege to revere. The paper was received with well deserved applause and Mrs. Burns was accorded a hearty and well merited vote of thanks for her labours.

ELECTORAL DIVISION SOCIETY.—We believe the Collectors of the Electoral Division Society are now making their annual rounds, and we hope they will meet with every encouragement from a liberal public. We regret that some should feel inclined to look upon the mission of these gentlemen so indifferently. Our readers should remember that they labour on behalf of an Association in which they should feel deeply interested, and that on their countenance of it in a large measure depends the success of the shows which are held periodically, and which have been such a great attraction in the past. We do hope that this year the collectors will be cheered by liberal subscriptions. We want the show of this season to be much better than ever before, and this result cannot be attained unless the mill is supplied with the necessary grist.

THE QUEEN'S BIRTHDAY.—Last year before each celebration day, we urged a change in Kingston holiday tactics, urging that the citizens should stay at home, dress up their shops and entertain their visitors. We are glad to learn that such a movement is contemplated for the 24th, when excursions will arrive here from Carthage, N.Y., the Bay of Quinte and K. & P. Railway. The Belleville yachts have been challenged to an aquatic contest for that day; the revived Kingston Lacrosse Club is seeking after a game with the Indians; the military will fire a salute, and several base ball matches and athletic games will take place. All this will be embodied in a programme, to be prepared by a committee of active citizens.

ANNUAL MEETING.—At the annual meeting of the shareholders of The City of Kingston Water Works Company, held at their office yesterday, the following gentlemen were elected Directors for the current year, viz.: Messrs. George A. Kirkpatrick, M.P., R. Deacon, H.C. Voigt, M. Doran, P. Lenes, J.P. Gildersleeve, H.J. Macdonald, W. Breden, and Dr. R. Stewart. At a subsequent meeting of the Directors, Geo. A. Kirkpatrick, Esq., M.P., was elected President, and R. Deacon, Esq., Vice-President.

FOR MANITOBA.—One hundred agriculturists from the vicinity of Pembroke, Pakenham, Smith's Falls, Carleton Place, Sand Point and Almonte, leave Ottawa to-day to take up lands in Manitoba. They go by special train, and take with them considerable farm stock. The exodus has also reached Kingston. On Saturday evening, and again last evening several families left for Winnipeg by R. M. Line steamers, and the agent here, Mr. Hatch, has on his books the record of 18 families preparing to move thence.

SHAFT BROKEN.—The steamer Hastings *nee* Rochester, will not leave for Belleville and Bay of Quinte ports today. In fact it may be some days before she will leave. Her shaft, between the two flanges of the wheel on the port side is broken. It was not discovered until she was lying at the dock. An order has been given to the Kingston Foundry for a new shaft.

THE MARKETS.—Dullness is chronic. New York reports flour dull at $6,25 @ $6,75; wheat dull and no sales; offered at $1,95 No. 2 Chicago, and $1,97 No 2 Milwaukee.

MARINE.

—A large number of ships are reported from Quebec as close at hand.

—The R.M. Line advertises tri-weekly trips. In a week or so they will begin the daily trips. The Algerian passed up last evening and the Spartan down this morning.

The Chicago *Inter-Ocean*:—The schooner Muir, David Muir captain, cleared from Green Bay for Kingston, Canada, on Thursday evening. She is loaded with 1,700,000 feet of board or square timber and 1,700 pipe staves. The Muir will probably charter for Liverpool, England.

—Passed the Welland Canal: Schr. Trinidad, Clayton, Chicago; Cavalier, Collins' Bay, Sheboygan; A L Andrews, Cape Vincent, Chicago; Col. Cook, Ogdensburg, Cleveland, Tronore; Mary, Port Stanley, Garden Island, do, light; schrs. Republic, Toledo, Clayton, timber; H. Dudley, Toledo, Kingston, staves; G. M. City Property Sale.

No. 2—Vacant lot on Clarence street, adjoining the above, Messrs. Folger Bros., $600.

No. 6—Part of lot and building on Clarence Street, occupied by Messrs. J. Brown & Co., Mr. P. Brown, $700.

No. 7—Unsold.

The whole brought $10,975.

Presentation.

On Saturday evening Mr. Archibald McPhie, who for some years past has been manager of the St. Lawrence & Chicago Forwarding Company here, was presented with a costly gold watch and chain by a few of his Kingston friends. The presentation was made in the reading room of the Kingston Club, of which Mr. McPhie was Vice-President. Mr. C. V. Price acting as spokesman for the donors, and accompany the gift with a few well chosen words of regret at Mr. McPhie's departure, to which the beneficiaire suitably responded. During his residence here Mr. McPhie made a high reputation among business circles and in private life as a gentleman of the nicest sense of honor in all his dealings, and the gift of which he was the recipient of on Saturday evening was intended as a slight expression of the esteem in which his high character had caused him to be held by all who knew him. Mr. McPhie is about establishing himself in business in Montreal, whither he is accompanied by the good wishes of his many Kingston friends who hope for him a very large measure of prosperity.

DEAN STANLEY'S ADDRESS.

His Views on the Future of Religion,

Dean Stanley's admirable address, delivered to the students of St. Andrew's, of which Rev. John Tulloch, D.D., is Principal and Vice-Chancellor, presents both liberal and hopeful views of the religion of the future. The Dean has no faith in the theory that Christianity is nearly shipwrecked, and does not share in the least the panic that frightens so many of the Lord's host. The address fills three columns of the London *Times*, and defies condensation. The points are these: (1) Theology is progressive. The old controversies, and many of the old beliefs, have wholly disappeared—*e.g.*, the damnation of children and the questions respecting predestination and justification. The old creeds are valuable as the phases and steps of an advancing faith; they are no final expressions of absolute truth. Christianity is not, like Mohammedanism, the religion of the sacred book, but the religion of a sacred literature and a sacred life. (2) Increased knowledge as to the authorship, composition, etc., of the Bible has removed many perplexities and objections. The Bible is not a dead code, but a living literature. Criticism enables us to distinguish between the temporary and the essential, between the parabolic and the historical. Thus the difficulties in a mechanical interpretation of the Bible pointed out by ethnology are removed by a higher and a truer principle of interpretation. (3) The old battles about words are passing away—*e. g.*, the fierce conflict between the Eastern and Western Church concerning the question whether the Holy Ghost proceeded from the Father or from the Father and the Son; and the famous Gorham controversy about baptismal regeneration, in which it never occurred to either of the disputants to define the meaning of the term regeneration. (4) We are coming to have a truer sense of the proportion and relation of truths. The old saying of Rutherford, "In God's matters there is not, as in grammar, a true, a more true, a most," is false, and its falsity is recognized. Questions of church government, or of forms and ceremonies, are of subordinate concern; they deal only with means to an end. So the graver question of miracles is subordinate to the more serious aspects, the moral and spiritual aspects of religious truths. These are in chief recommendations to the reason of mankind. Without them it would have long ago perished. We believe the miracles for the sake of the Gospels, not the Gospels for the sake of the miracles. External evidence has receded to the background, internal evidence has come to the front. (5) There is nothing to fear from any imagined antagonism between science and religion. They need no reconciliation; they are one and indivisible. Whatever enlarges our ideal of Nature enlarges our ideas of God; whatever gives us truer and nobler conceptions of God gives us a deeper insight into the secrets of the universe. This is the skeleton of a discourse which is clothed with flesh and palpitating with blood, the fair flesh and vital blood with which the Dean of Westminster is always accustomed to embody and make eloquent his thoughts.

—Col. McLeod says he has no instructions to accept any recruits for the Manitoba Mounted Police.

EPPS'S COCOA.—Some time since, in a series of articles in these columns upon food, we spoke in terms of unqualified praise of Messrs. Epps & Co's "Prepared Cocoa." The opinion we then expressed as to its purity and nutritious qualities has been fully endorsed by the public, as shown in its increased and steadily increasing consumption. We believe that Messrs. Epps's manufactories are now the largest of the kind in the three kingdoms, and the total quantity of "Prepared Cocoa" consumed at the present time approaches four millions of pounds annually. This result is not surprising. The dietetic properties of native cocoa are well known, but in the form prepared by Messrs. Epps they are rendered additionally valuable, both on account of their increased nutritive power and digestible character. We rejoice to see the high opinion we originally held to have been so generally confirmed, and we again congratulate Messrs. Epps on the sound and valuable addition they have made to our not over lengthy list of dietetic foods.—*Civil Service Gazette.*
