WEDN'SDAY EVEN G. JULY 4,1877.

CITY AND VICINITY GOLD in New York at 3'o'clock 1052 Immense Reduction in Prices at A. A. LEVEY'S Clothing Emporium, Wellington Steet, to clear | the Cape to-day,

Spring and Summer Clothing. FOR THE CAPE. -Our third class boats have gone to Cape Vincent to take part in the yacht races there to-day. We hope for their success.

FRUIT. - Strawberries are not plentiful this year. But the fruit dealers inform John Bull. us that the lack of strawberries will be more than made up by the very large yield of cherries

FOR LIVERPOOL .- Mr. L. W. Breck yesterday left for Quebec, where he set sail for Liverpool on Messrs. Calvin & Breck's new ocean steamer "Garden

now? His predictions of midsummer weather have been perfectly correct, and our faith in the recently much abused yet | mean jokes put on the strawberry shortvived.

Council, -The members of the Council who fyled an appearance at the Council Chamber last evening, expecting a a four-dollar-a-day diet for one week meeting, were: The Mayor, and Aldermen Asselatine, Campbell, Drennan, Dupuis, Gaskin, Metcalfe, McRossie and Walkem.

THE BAND. - The garrison band had a rest last evening. It was intended discourse in musical parlance in the Park at 7:30 o'clock about "Harliquins, Queen Elizabeth, and Dancing Eyes," but the rain interfered. A more unpleasant evening for July was never remembered.

ILLUSTRATED HISTORY. - Mr. Field, the agent, has delivered parts V and V of Tuttle's Illustrated History of the Dominion of Canada. They are equal to the preceding numbers, and go to form a enost excellent, complete and useful

MELITARY COLLEGE. -The entrance (Military College) examinations are now in progress. Three more Kingstonians have presented themselves for entrance. Their papers will be sent to Ottawa, and the announcement will be made in due time as to their success and standing in the competition.

ROBBERY .- On Monday evening some burglar entered through one of the winup stairs entered the bed room of the proprietor, and robbed the till of some \$40. The act was too eleverly performed to be credited to an amateur. Detective Hagerty has a clue.

COUNCIL .- The City Council did no have a meeting last evening, in couse quence of the lack of a quorum. There was nothing, particular to do. A large number of accounts and pay lists were to be passed; but it is probable some ar rangement will be made whereby the money will be forthcoming to meet the most urgent calls.

THAT FIZELE. - Five lawyers -- beg par don, statesmen - were announced to appear in the latest styles of addresses at Sydenham on Saturday evening. Mr. Walkem alone was present, and there was no heart or soul in the meeting, despite the enthusiasm of Celebration Day in the village. The opening of the Frontenac campaign was dreadfully inauspicious.

St. George's Society. - Last evening nic reports were received, and a resolution granting a welcome and especial privileges to those members of the old St. George's Society of Kingston who have expressed a desire to affiliate with the younger and more vigorous societya root of the old branch.

THE EMMA. - The opinion has been expressed that the yacht Emma has good sailing qualities, and is solid and steady in any wind; but she hardly carries enough canvas to compete with such boats as were pitted against her on Dominion Day. There are several who think the "famoua" Katie Gray would have more than a match if the Emma were sailed with an equal apread of "muslin,"

Pic-Nic. - The Sunday School children of St. George's Cathedral were rather unfortunate in the holding of their pic-nic at Mortonwood yesterday afternoon. The early part of the afternoon was very much enjoyed, but the down pour of rain completely spoiled out door amusement towards evening. The children, at least, appreciated the ride to and from the pic-nic grounds on the street cars.

THE LEAD WORKS,-The Council die not have a meeting last evening, but had there been such, the Finance Committee were prepared to recommend that the Lead Mining and Manufacturing Company be allowed a remission of tax for 10 years-or at least charged only at the value of the land for that time-in the event of their establishing smelting works in Kingston.

HEATED TERM -This is the month when man is warranted in coasing his industry and seeking rest, quietude and recreation. It is fortunate that there are so may delightful places in the vicinity where this rest can be procured, and Sharbot Lake and the Thousand Islands promise to be the resort of many more of our population than in years gone by, since these, places have become so notable

SCHOOL EXAMINATIONS. - To-morrow morning the public examinations in connection with the public schools will commence with Wellington Street School, and last but two days. This is merely a review of the schools for the benefit of the pablic. The Inspector has made his examination minutely, and at length. The teachers will soon be at leisure to recruit their failing health at Sharbot Lake or
