at two o'clock, with D. A. Starr, \$292,725.24. city, in the witness box.

solicitor Melntyre suggested that conference be arranged for Monday evening between counsel and experts on the question of the steam plant. Many points difficult to settle by evidence might be agreed to by such

tion and the meeting was arranged called and was further examined for half past seven o'clock that even-Examined by the city solicitor, Mr.

Starr stated that he had considerable l'experience as an electrical engineer. Up to 1894 was employed as engineer for the Royal electric company, Montreal. Constructed electric railways at life of a cedar pole is fifteen years. Aylmer, Que., and Cornwall. Considered prices of labor as sworn to borers. Had linemen as low as \$1.22 a day, but preferred to pay \$1.75 for good linemen. Wages of foremen average from \$2 to \$2.50 a day. Inside power house would pay an expert \$3 day erecting plants; skilled laborers ered fity cents a pole ample for un loading, housing, peeling, etc. earth holes, 50 cents, and rock holes ered that five per cent, would be sufficient allowance for sag in wires, and this allowance would also cover tying, splicing, waste, etc. Erection of ser-Not in quality, but in vices could be done for less than \$1 a fair average price would be \$1. TO- Witness agreed with expert Thompsoy guys would be a good price. Open ar practically retail prices; any company ligures and not ask for engineer's expenses. If company was asked to tender in competition, they might make a charge for engineer's time; his comhad repeatedly installed plants for companies, without competition, and not made any charges for engincering expenses. Witness agreed with Mr. Thompson as to ten per cent discount for deterioration of poles, cross arms, oak pins, etc. The am ount of insulated main wire in use 50,631 pounds; the same extent of uncovered wire would weigh 39,173. The insulated wire at zzc. a pound would cost \$10,226.64; bare wire would cost wire for all practical purposes is as

suffered deterioration to the extent of
