G.T.R. Track Improvements.

Toronto Mail and Empire. TRI-WEEKLY SERVICE. General superintendent McGuigan Steamers leave going cost at 4:45 p.m., of the G. T. R., spent vesterday in-Wednesday, Friday and Sunday. Going west specting the big track improvements at 11:30 p.m., Tuesday, Thursday and Sa in progress between Whitby and Port Union. The object of the work is Ito reduce the grades in preparation for the double tracking. At its highest point, on the Scarboro Heights, the altitude of the track will be reduced eighteen feet, while along the whole distance the high spots will be cut down, and the low spots filled in. thus enabling larger trains to be run and greater speed to be maintained.

Dance at the Club. The club house dance last evening was largely attended, the presence of the cadets again adding an attractive ished by Thornton and Keyes' orchesira. About twenty-five couples were present.

How These Strange Crentures Attach Themselves to Larger Fish.

People of certain temperament sometimes attain their wishes by hanging to the skirts of persons of larger capacity. In the fish world these find their counterpart in the remora family (the suck coast by five species. In these fishes the nearest the head-is transformed for all practical purposes into a sucking organ by means of which they can attach theme selves very firmly to the gill covers of prefer to go through life as an appendage have actually been found emaciated and exhausted from carrying about their uuinvited guests.

An eminent observer of fishes has thought it very probable that the object of the suckers is to share the fragments of food with their bosts, but whatever the cause the latter are surely entitled. our sympathy. It happens, however, that this very propensity for "banging on" has recoiled on the sucker much to his disadvantage, for as soon as man discovered this peculiarity he cudgeled his brain for some practical application which would redound to his own advantage, and, being himself perhaps a "hanger on" to other people, some resourceful individual conceived the idea of using this fish as a bait and make him do the catching. Ogilby's "America" occurs the following description of how the Indians of long ago used these fishes to aid in the cap-

ture of others: "Columbus from hence proceeding or further westward discovered a fruitfu Const, versing the Mouth of a River, whose Water runs Boyling into the Sea. "When I die I would rather go to climb the tree and knock him out; Semewhat farther he saw very strange like an Eel, but with an extraordinary great Head, over which hangs a Skin like Bag. This Fish is the Natives' Fisher; tened about him, so soon as a Turtel, or any other of his Prey, comes above water, they give him Line; whereupon the gathering the Mouth of the Bag on his ! first, that he let not loose till hal'd up out of the Water."

> Why He Kept a Dog. A prominent dog fancier and wealthy man of Philadelphia stypped into a grocery the other night, says The Press, and accidentally struibled over a far old Ger man, who was sitting in a corner smok

Under his chair was the most remarkable specimen of a dog that the gentleman had ever seen. It had the appearance of a pug, with rough red hair and a taughing at the placed old man and his the possibility of any odour from

nondescript dog. "What kind of a dog is that?" asked the gentleman. "I don't know," replied the German.

"I suppose you use him for hunting?"

"Is he good for anything?"

"Then why do you vaine him so?" "Because he likes me," said the old fellow, still puffing his pipe, and the expression of the dog as he looked up from un der the chair fully confirmed the state-

"There is no better or stronger reason than that," asserted the gentleman emphatically as he walked away.

Enlightened the Lawyer. "I presume, my good fellow, you're a
