Medical Men Testify.

London, Ont., Sept. 28.-Medical experts occupied the whole morning the Sifton murder trial. Five wellknown physicians were called by the crown. Three of them gave strong evidence for the crown theory as opposled to that of the fatal injuries Jos Sifton sustained having caused by a fall. Dr. Recles, of London, who assisted at the post-mortem, said the injuries might be explained either by two or more blows. Hearing of the case has been adjourned until Monday morning.
