MONDAY EVENING, AUGUST 30 Tue Believille Intelligencer is the most industrious collector of N. P. hums that we know of, and our contemporary will doubtless with characteristic impartiality, copy the list of protectionist achieve ments in Ontario county as enumerated by the Perry Standard. According to this account the shortf is the man most actively employed in the industries of the county of Ontario. Nearly 300 mechanice have had to leave the town of Oshawe alone since the imposition of the new tariff and seek employment in the States. Percaps the most agained of proof of me dustrial decienation is that of Mr. Gibbs' own cabinet factory, which, under the late Imperial Government, afforded employment to 200 men and during all the present season has given work to only twenty-fire, or but one-eighth of the former staff. These are note which hom gatherers will find it difficult to crack. since they prove that the national policy is a fatture to the very matter to which It was to so re its greatest anccess, Viz., the industrial interests of the country.
