

Money to Lend

At seven and a half per cent. SMITH & DICKSON July 19, 1880.

Daily British Whig.

Opfer per Urban Discr.

Commenting on an American boast that "Goldwin Smith boldly advocates annexation, and that he has no inconsiderable following over the matter," the Toronto Globe says that "he has not as an annexationist more than one follower who dare openly avow himself as such."

The Hamilton Times is particularly severe on Mr. McInnes, of Ottawa, the contract jobber. Like Mr. Patterson, who could show out the postmaster of Toronto to get that office for himself, it says he is master of his masters, and can compel them to do what he pleases.

Though the present season of the year is so enjoyable yet it is furnishing the usual forebodings of the approaching season of severity. Among all our other precautions against the coming winter let not the claims of the poor be ignored or forgotten.

The opinion was expressed by Mr. Baskerville at the Baker bun-fest the other day that the Tories were defeated on the memorable 5th of June because the leaders of the party were not sufficiently acquainted with the people.

When we agree with the Toronto Telegram when it says that the murder of Lord Mountmorris will not help the Land League cause, whether the Land League had anything to do with it or not.

The Quebec Chronicle of Monday says: "Though no information of the matter can be obtained either from Sir John Macdonald or from Mr. Carson himself, we believe there is no reason to doubt that the member for the county of Quebec will in a few days be sworn in at Ottawa as a Minister of the Crown."

Ottawa Free Press. There is a strange discrepancy between Sir John's statement that there are American capitalists in the railway syndicate and the possibility of Mr. McInnes, at Montreal, being a member of the firm of O'Brien, He and O'Brien used to keep an evening house at one time, and Mackay was a minor, bonded with them.

The capitalist of Great Britain are looking more and more to the lands of North America as a field of speculation. Simultaneously with a report that Mr. Blake, M. P. for Waterford, Ireland, is coming to America to spy out land, comes a statement from Sir John Macdonald that he has sold \$4,000,000 worth of land near the Rocky Mountains to the Thomas Brassey, who intends sending his son out to settle upon it.

The oldest son of General Grant has been enticed to Flood's daughter. Flood is one of the wealthiest of Californians, being a member of the firm of Flood & O'Brien. He and O'Brien used to keep an evening house at one time, and Mackay was a minor, bonded with them.

They are advised. Everybody at this season of the year is liable to sudden attacks of sickness, and it is important to have a remedy, prompt in action, and that relieves the system of taxation which has been instituted for party purposes in Canada will die with the lapse of the present Dominion Parliament.

SCHOOL QUESTION AGAIN.

A glaring specimen of contemptible correspondence is to be seen in Monday's issue of the News. It declares that our original estimate of the difference in cost of the education of pupils as between the public schools and the Collegiate Institute, to be false, and that we had not the decency to correct it. There was no particular necessity for correcting a statement that was substantially true. In a circular, advertising the merits of the Institute, we find the average attendance for last year placed at 104. That at \$21 per pupil for fees would net \$2,184.00; city grant, \$2,000.00; Government grant, 1,000.00; rent from lands, \$100.00. Total revenue, \$5,284.00, which divided by 104 will give \$50.80 as the cost per pupil at the Institute, and we are assured the smaller numbers of this year would give a larger average cost per pupil.

As against this we have shown the cost per pupil in the public schools to be \$4.34, or less than one-twelfth of the figure for the Institute. We readily allow the fairness, however, of comparing only the senior classes with those of the Institute, and taking Mr. Knight's outside figure of \$9 the difference still remains as about six to one in favour of the public schools.

Walker, champion pugilist and pitcher of Canada, has issued a standing challenge for \$1,000, open to the world. Dr. McCosh is said to have first suggested the idea of a Pan-Presbyterian Council, in an address at St. Louis in 1866.

The Mayor and a delegation from Clifton waited upon Mr. Mowat to get the Government to erect a fence along the banks of the Niagara river at the falls. A diver has discovered off the breakwater wharf at Quebec a box of 1,000 cartridges, supposed to have been thrown overboard from the brigantine "Atalaya."

The Corporation of Quebec have paid over the amount for which the city was sued, for the services of the volunteers at the labor riots in 1877, and the men are now receiving their pay. The Toronto World says it has come to the knowledge of the police that there are a number of servant girls in that city who are in regular connection with thieves.

Argument and temperance. A Scotchman noticed a fish-seller and nearly all die. He gave the survivors whiskey, put, and they recovered all their animation and health. A quantity of inferior American coal oil was recently seized at Harrington, Grey's Cove, by Mr. Battie, Collector of Inland Revenue, to test an explosion occurring during the testing process, almost resulting injuriously to Mr. Battie.

A miner deserted his wife in Wisconsin and she found him in a Colorado town and chased him out into the hills. The miners were so greatly pleased with her grit that they bought a boarding house for her and regard her as the heroine of the day.

General John Macdonald says that during General Grant's last term the open tendency of this Republic was toward the Empire. The overthrow of the whiskey ring, in his opinion, prevented the third term.

The Geophyl Herald condemns the lighter rigmarole that Grand Jurors invariably inflict upon the public under the title of proceedings. As a general thing the gettars up of these articles know nothing about the subject they write upon.

A WONDERFUL DISCOVERY. For the speedy cure of consumption and all diseases that lead to it, such as tubercular cough, neglected colds, bronchitis, hay fever, asthma, pain in the side and chest, dry hacking cough, tickling in the throat, hoarseness, sore throat, and all chronic or lingering diseases of the throat and lungs, Dr. King's New Discovery has no equal and has established for itself a world-wide reputation. Many leading physicians recommend and use it in their practice. The formula from which it is prepared is highly recommended by all the best medical journals. The price is 25 cents per bottle, and the most glowing testimonials. Go to your druggist and get a trial bottle for ten cents, or a regular size for \$1. For sale by all druggists.

NEWS OF THE DAY.

The St. Ledger this year was worth \$50,000. Most Anglia Jurists Courts inherited \$200,000, which she has doubled in value.

Mr. Handford's Lecturing Tour. Educational Department. Striking Railway Men. Toronto, Sept. 28. Mr. T. W. Handford has resolved to take to the lecturing platform. Mr. A. P. Pilon, the well-known theatrical manager, is to take the lead in his career. He will take him to Boston, where he will spend \$200 in getting him properly advertised.

The Toronto School of Medicine is announced to open for the thirty-eighth session on Friday morning. Since the Canada Temperance Act went into force at Woodstock, N.B., the fines collected for the violation of it amount to \$300.

The strike of brakemen on the Northern Railway has a 7-ended yet. The way freight men on the Northern Railway to the number of several hundred quit this morning and joined the train men's strike. The brakemen on passenger trains will also strike, if so they have been asked to work freights in connection with passenger trains. The strike is assuming greater proportions, and it is very probable it will spread to the Grand Trunk and other railroads.

The Assessment Commissioner of Toronto has completed the assessment for 1880. The total increase in the present year is shown to be \$3,000,000. The increase is shown to be due to the abolition of exemptions of incorporated companies, lawns, parks, and farm lands.

The Mayor and a delegation from Clifton waited upon Mr. Mowat to get the Government to erect a fence along the banks of the Niagara river at the falls. A diver has discovered off the breakwater wharf at Quebec a box of 1,000 cartridges, supposed to have been thrown overboard from the brigantine "Atalaya."

UNITED STATES DESPATCHES.

Leading Events in the Adjacent Republic. Fall River, Sept. 28. The quincies held a fully attended meeting to-night. The resolutions of the quincies committee, recommending that they strike all the workmen of the selected companies, were adopted. The question whether they would strike or not was postponed until Saturday evening, when a vote will be taken. The indications are that they will probably strike.

Montreal, Sept. 28. A girl, Miss Stecker, an Irish girl, employed by her employer, Nancy Hayward, was yesterday visited by her mother who, holding up a Catholic cross and adjuring her to tell the truth, got from her the confession that her craft on Sunday, which so exasperated her that she pushed her down and struck her with an axe. Annie is only 17 years old and can neither read nor write and hitherto has shown no signs of piety.

Washington, Sept. 28. The Secretary of the Treasury to-day has authorized the purchase of 2,500,000 bonds for a sinking fund. New York, Sept. 28. The remains of Gen. Taylor arrived today from Florida. They were conveyed to the City Hall and will be held at the chapel tomorrow afternoon.

London, Sept. 28. A despatch from Caracas says that a plot has been discovered to surrender Pinar del Rio to the Americans. The principal conspirators in the town have been arrested.

London, Sept. 28. A despatch from Havana says that a plot has been discovered to surrender Pinar del Rio to the Americans. The principal conspirators in the town have been arrested.
