OUR PACIFIC RAILWAY.

Criticism of the Scheme by an American.

Sir John Macdonald, the able Conservative Prime Minister of the Dominion, has a big elephant on his hands, whose "keep" he cannot afford and which he is at his wits' end to dispose of. He has been in England for two months or more, with one or two of his official colleagues, engaged in financing attempts to transfer the animal to parties who can afford so huge and expensive a luxury, but as yet he would seem to have had no success.

The London *Examiner*, just received has a severe and incisive article on Sir John's management, and the *Economist* of the preceding week had a similar though less pointed article. The *Examiner* says: "The Dominion Ministers have grossly mismanaged their mission. They have repelled confidence where they should have nourished faith, and have sown distrust where they should have cultivated hope. They have been mysterious and fussy at the same time. They have flourished about their object and have inspired communications that proved to be misleading. The upshot is, with the best intentions, perhaps, they have cast no credit on the Canadian Pacific Railway.

After a great deal of cavorting and exhibition of paces it was given out some three weeks since that Sir John Macdonald was about to return home, the business on which he had come to London having been at last accomplished. The story put forth was that the big white elephant had been shifted from the Dominion Government to a syndicate of English, French and American financiers, who would assume all responsibility and appeal to the investing public in their several countries for subscriptions to complete the Canadian Pacific. The report went so far as to state the terms of the transfer. But as soon as this news or this rumor was published, and it began to attract attention, discredit was thrown upon it, and the financial public came to regard the reported syndicate as a myth, not to say a hoax. It was said that the announcement was premature; and there was a hitch in the arrangements; that it was not certain after all that Sir John's mission had succeeded. In the language of the *Examiner*, "Another week passed; the construction of the railway and the finances thereof were topics of discussion, but no certainty has even yet been attained as to what has been accomplished."

It looks now as if Sir John Macdonald's present mission might prove as abortive as his similar mission last year. His object last year was to get aid from the English government, but Lord Beaconsfield gave him the cold shoulder. His more recent plan was to form a syndicate, and in this too he seems likely to fail, in spite of all his financial juggling and the apochryphal rumors he has set afloat to influence public opinion. The hard truth is that the Canadian Pacific cannot be built without engulfing a great amount of capital which can bring no returns within the next forty years. It would be a road constructed through a wilderness, with long stretches of absolute barrenness and in a climate of such severity that the road would be closed for four months of the year. A road running through a bleak wilderness, with its Pacific terminus a thousand miles north of San Francisco, has no chance for any share of the trade of Eastern Asia, and there would be no local business to feed it, like that which is furnished to our Pacific road by the rising cities of California and the development of our mining industries in the States and territories which flank the Rocky Mountains. For 6 ty years to come it would be a sheer waste of capital to build the Canadian Pacific Railway, and the investing classes understand this so well that Sir John Macdonald's hypothetical syndicate could have no success in selling its shares. The construction of the road was incautiously promised ten years ago as a means of bringing British Columbia into the Dominion. The inability of the Dominion Government to keep its promise is a source of infinite embarassment, and especially to Sir John Macdonald, whose political party, when they brought him into power, made electioneering pledges which they are unable to keep.

Farm Notes.

OATS AND WHEAT.—The sowing of a bushel of oats per acre, with the winter wheat, says the *American Agriculturist*, has often proved of material benefit to the wheat crop. The oats grows more vigorously than the wheat and aid in catching and holding the snow. The oats act as a mulch or protector to the wheat. The little food the young oat plant draws from the soil is returned during the spring when, killed by the winter, they rapidly decay.

HORSES' FEET.—Long exposure to wet and mud at this time of the year frequently produces cracks and other troubles in horses' feet. The prevention is keeping the horses' feet clean by frequent washing and wiping dry with a coarse cloth. A little crude petroleum applied to the horses' feet before the horses are taken from the stable will help greatly in preventing them from becoming cracked. If the feet are already in bad shape they should be bandaged and the horse kept where it is dry. Cleanliness is the most effective prevention of troubles with horses' feet.

IMPLEMENTS IN THE FIELD.—One in riding through the country is surprised at the manner in which the farmers leave their valuable farm machinery in the field without any protection from the rain and the sun. A shed of rough boards costs but little, and will pay a large interest on the investment, if used to shelter these machines. Besides we do not see the slow decay; we are apt to forget it is going on, until reminded by some costly machine which goes to pieces just at a moment when most needed. This treatment of machines is excellent for the manufacturer, but it is one of the prominent reasons why "farming don't pay."

Man's Noblest Work.

This is an age of great works and wonderful inventions. Steam, electricity, water, air, all are made to serve man, but unquestionably the greatest inventions are those which preserve man's health and prolong his life, and among the greatest of these is Dr. King's New Discovery for consumption. Its effects are truly wonderful and hundreds are happy to-day who once looked forward to an early grave. For coughs, colds, bronchitis, asthma, loss of voice, hay fever, hoarseness, croup, or any affection whatever of the throat, chest or lungs, Dr. King's New Discovery will positively cure. We can cheerfully recommend it to all, and can unhesitatingly say it is the only sure cure for throat and lung affections. Trial bottle ten cents; regular size $1. For sale by all druggists.

A WONDERFUL DISCOVERY.—For the speedy cure of consumption and all diseases that lead to it, such as stubborn coughs, neglected colds, bronchitis, hay fever, asthma, pain in the side and chest, dry hacking cough, tickling in the throat, hoarseness, sore throat, and all chronic or lingering diseases of the throat and lungs, Dr. King's New Discovery has no equal and has established for itself a world-wide reputation. Many leading physicians recommend and use it in their practice. The formula from which it is prepared is highly recommended by all medical journals. The clergy and the press have complimented it in the most glowing terms. Go to your druggist and get a trial bottle for ten cts., or a regular size for $1. For sale by all druggists.

"TEABERRY." The newest wonder for whitening the teeth, delightfully refreshing to the mouth. To try it is to become a friend to the piquant, irresistibly popular dentrifice of the day.

DESCENDANTS OF PIRATES.

A Town Upon Which the Eyes of the World Rest—Its Past History.

One hundred and sixty-seven years before Christ the city of Dulcigno surrendered to the Romans and received exemption from taxation and its freedom. From 1,500 to 1,600 pirates held full sway, and in 1718 a great battle was lost there by the Venetians. In the seventeenth century Dulcigno became temporarily as noted as Jerusalem on account of the successful assumptions of an impostor named Sabbatai, who proclaimed himself the Messiah. Converts to Sabbatai were numbered by thousands in every part of Europe. His face was handsome and his conduct austere and becoming to the part he played. He was deeply versed in the Talmud, and able, through his fine education and general earnestness of demeanor, to impose upon all who came under his influence. As his fame increased his responsibilities widened, and it became necessary that he should deposed the Sultan, the enemy of Christianity. He therefore set out for Constantinople to confound the Turk with his anathema. Owing to the moral power which he had acquired, this expedition was not so crazy an affair as might be imagined. However, the Sultan met him with craft, temporized and finally got him in his power. Under threat of execution the imposter renounced his claim and became a convert to the Musselman's faith. He was then banished to Dulcigno, where, such is the power of faith, his former disciples refused to accept his apostacy in any other light than as a divinely inspired means of bringing Islam to his feet. The religion of Sabbatai of Dulcigno continued to thrive until his death, and his tomb became a shrine for fanatical pilgrims from Germany and France.

When the pirates were captured in the sixteenth century this harbor was the scene of the conflagration of 500 of their ships, a lustration that at one blow forever purged the whole Adriatic sea. In 1878 the Montenegrins took Dulcigno by storm, most of the Turkish garrison having previously got away by sea. Austria, however, at the Berlin congress, objected to its retention by Montenegro. Austria is chagrined by the present cession of Dulcigno to Montenegro. The Montenegrins, entrenched in their mountain fastnesses, can never be extirpated by their enemies. Their position is as impregnable as was the retreat of Captain Jack in the lava beds. There is a vitality in their race which would seem to prophesy great possibilities should they ever drift into the Roman Role of conquest.

A Fact Worth Knowing.

Are you suffering with consumption, coughs, severe colds settled on the breast, pneumonia, or any other disease of the throat and lungs? If so, go to your druggist and get a bottle of BOSCHEE'S GERMAN SYRUP. This medicine has lately been introduced from Germany, and is selling on its own merits. The people are going wild over its success, and druggists all over our country are writing us of its wonderful cures among their customers. If you wish to try its superior virtue, get a sample bottle for 10 cents, large size bottle 75 cents. Three doses will relieve any case. Try it. For sale by J. G. King, Kingston, and all first-class druggists.

DELICATE WOMEN.—Cases of female weakness, delicate and enfeebled constitutions, and those suffering with stomach, liver and kidney complaints, will find Electric Bitters a speedy and certain cure. The sick and prostrated should rejoice that such a reliable remedy is placed within their reach. Health and happiness will surely follow where Electric Bitters are used. For sale by all druggists, price only fifty cents a bottle.

THE VOLTAIC BELT CO., Marshall, Mich. will send their celebrated Electro-Voltaic Belts to the afflicted upon 30 days trial. Speedy cures guaranteed. They mean what say. Write to them without delay.

A CARD.

TO those who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. THE GREATEST WONDER OF MODERN TIMES.

HOLLOWAY'S

Pills and Ointment.

The Pills purify the Blood, correct all disorders of the Liver, Stomach, Kidneys and Bowels, and are Invaluable in all complaints.

The Ointment is the only reliable Remedy for Bad Legs, Old Wounds, Sores and Ulcers, of however long standing. For Bronchitis, Diptheria, Coughs, Colds, Gout, Rheumatism And all Skin Diseases it has no Equal.

Beware of American Counterfeits.

I most respectfully take leave to call the attention of the public generally to the fact, that certain houses in New York are sending to many parts of the globe SPURIOUS IMITATIONS of my Pills and Ointment. These frauds bear on their labels some address in New York.

I do not allow my Medicines to be sold in any part of the United States. I have no Agents there. My Medicines are only made by me, at 533, Oxford street, London.

In the books of directions affixed to the spurious make is a caution warning the public against being deceived by counterfeits. Do not be misled by this audacious trick, *as they are the counterfeits they pretend to denounce.*

These counterfeits are purchased by unprincipled Venders at one half the price of my Pills and Ointment, and are sold to you as my genuine Medicines.

I most earnestly appeal to that sense of justice, which I feel sure I may venture upon asking from all honourable persons, to assist me, and the public, as far as may lie in their power, in denouncing this shameful fraud.

Each Pot and Box of the Genuine Medicines bears the *British Government Stamp*, with the words "HOLLOWAY'S PILLS AND OINTMENT," thereon. On the label is the address, 533 Oxford St., London, where alone they are manufactured.

Holloway's Pills and Ointment bearing any other address are counterfeits.

The Trade Marks of these Medicines are registered in Ottawa. Hence, any one throughout the British possessions, who may keep the American counterfeits for sale will be prosecuted. Signed,

THOMAS HOLLOWAY.

This Preparation is Pronounced by the Most Eminent Members of the Medical Profession to be Unequalled for its Power in Replenishing the Vitality of the Body.

By its supplying all the essential constituents of the blood and nerve substance and for developing all the powers and functions of the system to the highest degree.

IT IS AGREEABLE TO THE PALATE AND INNOCENT in its action, while retaining all its extraordinary properties; and, as a specific, surpassing all the known therapeutic agents of the day for the speedy and

Permanent Cure of

Nervous prostration, Liver Complaints, Palpitation of the Heart, Dizziness, Noises in the Head and Ears, Loss of Energy and Appetite, Hypochondria, General Debility, Indigestion, Incapacity for Study or Business, Lassitude, Trembling of the hands and Limbs, Impaired Digestion, Mental and Physical Depression, Consumption in its first stages, Impaired Sight and Memory, Nervous Fancies, Impoverished Blood, Nervous Debility in all its stages, Premature Decline, Shortness of Breath, and all morbid conditions of the system arising from whatever cause.

THE ACTION OF THE VITAL RESTORATIVE IS TWO FOLD,

on the one hand increasing the principle which constitutes nervous energy, and on the other the most powerful blood and flesh generating agent known; therefore, a marvellous medicine for renovating impaired and broken down constitutions. It quickly improves the function of assimilation to such a degree that, where but years an emaciated, anæmic, cadaverous and semi vital condition has existed, the flesh will rapidly increase in quantity and firmness, and the whole system return to a robust state of health.

The Vital Restorative

acts electrically upon the organization, for instance, it assists nature to generate that human electricity which renews and rebuilds the nervous, muscular, nervous, cerebrinous and organic systems. It operates on the system without exciting care or thought upon the individual, to the process. It moves the lungs, liver, heart, kidneys, stomach and intestines with a harmony unsurpassed, yet unknown, unparalled if in medicine.

The Vital Restorative

gives back to the human structure, in a suitable form, the phosphoric or animating element of life which has been wasted, and exerts an important influence on the spinal marrow and nervous system of a nutritive character, invigorating the cerebellum, maintaining that innocent energy of the brain and muscular system which relieves the mind of anxiety, gloom, and melancholy, and effectually overcomes that dull, sluggish disposition which many persons experience in all their actions.

Finally, the Vital Restorative

maintains a certain degree of activity in the previously debilitated nervous system, its nerves enables all delightful organs to return to their sound state and perform their natural functions. Persons suffering in any way as before stated, or any of the hundred symptoms which this destroying disease assumes, can rest assured of an effectual and speedy cure by the judicious use of this most invaluable remedy.

THIS MEDICINE IS EXTENSIVELY USED IN THE ARMY, and is also in very general use in Hospitals and Public Sanitary Institutions throughout the land, as well as in private practice, where it is held as an invaluable remedy.
