The Concert at Gananoque.

Sir,—Allow me, in the next issue of your valuable journal, to convey the expression of my sincere gratitude to the ladies and gentlemen of Kingston who kindly volunteered their services at the Concert held in Gananoque, on the evening of the 7th inst., for the purpose of raising funds to purchase an organ for our Church here. I also profit by this opportunity, and tender my best thanks to all those friends from Kingston, our own Gananoque, and elsewhere, who nobly came forward on the occasion, and by their generous contributions materially assisted the fulfilment of the good work. To all I wish the purest happiness here and hereafter.

The Corporation Officers.

A new broom sweeps clean. The Committee on Salaries are very busy, seeing how much of the City Officers' Salaries they can safely reduce. They have a sworn duty to fulfil, and it is expected that it will be strictly done. But they should bear in mind, if they want public work to be well and faithfully performed, that that work must be properly remunerated. A good man has as much right to be well paid by a public body, as by a private individual; and as good services are always well remunerated by those who engage them, the same should be the case with the City Officers. Seventeen new members are in the Corporation, all elected to cleanse the Corporation. Hitherto nothing has been done in the cleansing line, which shows that there was really nothing to cleanse. And altho' the Committee we speak of are striving to pull down Salaries, yet no one thinks of dismissing or changing one single officer, which speaks volumes in favor of the conscientious way in which their several duties have been performed.

Is it a Solution of the Question?

Toronto, Feb. 9.

There is undoubtedly a desire on the part of the public to see the Seat of Government question settled. They are wearied with the constant, fruitless discussion of the subject, and provided that some place is chosen which is reasonably suitable for the purpose, they will not grumble at the result. What we complain of in the Government proposition is, that it does not settle the question finally and forever. If it were decided that Ottawa was to be the place, and none other, however unsuitable that city might be, it would be a comfort to think that we had got rid of the whole matter forever. Were the ministerial proposition carried out, however, we should be just as far off the end as ever. The Government would probably go to Quebec, and the very next session a motion would be made to prevent the expenditure of money at Ottawa. It would be successful, because it would be supported by almost the whole of Lower Canada and many Western men. Toronto would hope to enjoy the next four years, and would supply a large number of votes to accomplish the desired object.—Suppose that rock avoided, however, and the Government taken to Ottawa at the end of two, three, or four years, what guarantee have we that it would remain there? If the present Government, using all the influence of corruption—using the Queen's name and the Governor General's authority—can only obtain a majority of seven in the present House, and not the most sanguine of their supporters anticipate that they will have more, what number could not be got against Ottawa by a Government opposed to it?

The present Government rest for support on Quebec and Ottawa; suppose one depending on Toronto and Montreal, what is to hinder such a Government to remove the capital? They would easily find as many reasons for doing so as were found in 1843 for removing from Kingston to Montreal.—The question is not one which ought to be or can be settled, save by a majority of the representatives deciding on the merits of the rival cities. In the present position of affairs in Canada, the capital must have friends to keep its advantages as well as to get them.

The uncertainty and lack of finality in the Government proposition, is rendered still worse by the present position of the relation between Upper and Lower Canada. The people of the west demand Representation by Population.—many eastern men say it will never be granted, and that they would rather repeal the Union. The present Ministry propose Federation of all the Provinces as a remedy, and there is still another party which desires a Federal Union of the Canadian Provinces. The adoption of any of these measures may alter the whole aspect of the Seat of Government question, and what now appears reasonable, proper, and wise, may then be the most absurd thing in the world. In short, the Government proposition *does* nothing; it is just as if the whole question was thrown open again to be the sport of parties and sections, with an enormous outlay in the meantime. Next session, in Quebec, we would have a repetition of the old schemes of four years ago.

THE HOUSE YESTERDAY.

Toronto, Feb. 9.

Another day has been lost to the country. Mr. Malcolm Cameron opened the proceedings in a speech of considerable duration, which contained not a single new idea. He had the same talk about the waste of policy of the Brown-Dorion Government, and the shocks and guarantees which have been used by every ministerial speaker since the session opened—but not a single novel thought or expression. The member, for want of a better occupation, read a number of very stupid letters of Yankee stump poetry, with a stumbling awkward prose quotation and humour, which made people laugh at him than with him. The Opposition too [illegible] replying to Mr. Cameron, [illegible] how to keep [illegible] managing [illegible] Mr. Cameron [illegible] Mr. Archambault moved the adjournment of the debate, which was carried on a division of 61 to 58.

Mr. Archambault then moved, in amendment, a resolution proposing that an address should be presented to her Majesty, requesting her to reconsider her decision, and be advised to give it in favor of Montreal.

After a short but animated discussion the members were called in, and the amendment was put and lost. Yeas 59; nays 102.

On the motion of Mr. Cauchon, the House then adjourned.—(Colonist.

LEGISLATIVE COUNCIL.

Feb 9th

The Speaker took the chair at 3 p.m. The consideration of Mr. Armand's resolution against the expenditure of funds on the erection of public buildings in Ottawa was postponed until Friday next.

The following resolution on the motion of Mr. Campbell was carried. "That a select committee be appointed to inquire in to the State of the Law upon bankruptcy and insolvency in the province, and report what changes are desirable to introduce to conform as equal distribution of the assets of insolvent debtors, and to relieve such debtors as have or may be in honest accordance of such assets and others were prevented from doing so by unforeseen misfortunes, and that such Committee consist of Messrs. Patterson, Crawford, Ferrier, Hamilton, Perry, Dickson and the mover."

Mr. Bell moved to amend [illegible] to protect the rights of property was [illegible] Mr. Campbell [illegible] Mr. Bell [illegible] Mr. Vankoughnet, Mr. Ferrier, Mr. Hamilton and Mr. Morris.

To the Editor of the British Whig.

Sir,—In looking over a Kingston paper of the 4th instant, I read an Editorial concerning the Crystal Palace. The worthy Editor says, 'The Crystal Palace is some miles distant from the city;' how many he does not state. Now, Sir, in place of the Palace being 'some miles from the city,' the Show Grounds are not two hundred yards from it; and for this reason he wants the Crystal Palace removed to the City Park. But he likewise gives another reason for its removal. He says, 'By removing the Crystal Palace to the Park, it will add to the value of property in that portion of the city.' What an eye he has for 'that portion of the city!' Poor fellow! how liberal he is in 'that portion of the city!' Let the District and City Councils meet forthwith and order the removal of the Palace, with all its etceteras, to the Park, for the purpose of increasing the value of property in 'that portion of the city.' If that part of the city is not satisfied with the Park, Cricket Ground and New Court House, by all means let it have the Crystal Palace. I would, in addition, suggest the removal of the Depot from Shaw's wharf to the Park; as that might also tend to increase the value of property in 'that portion of the city.'

Your humble servant,
A CITIZEN.

Kingston, 8th February, 1859.

PROVINCIAL PARLIAMENT.

Toronto, Feb. 9th.

In the Council several important measures were introduced.

In the Assembly the debate was resumed by Mr. Cameron, who pointed out the various discrepancies in the statements made by the members of the Brown-Dorion Ministry with regard to their policy, and went on to argue generally in favor of upholding the Queen's decision.

Mr. Cartier defended the Orange body against the attack of Mr. Piche. He then alluded to the intention of the Government to complete the commutation of the Seigniorial Tenure, and stated that a sum of about £300,000 would suffice for that purpose.—He also promised a thorough reform of the Lower Canada municipal system, and concluded by defending the administration from the charges of fraud and corruption so lavishly imputed by the Opposition.

Mr. Loranger argued that the Government had virtually abandoned the Queen's decision, and that their falling back upon it now was a mere afterthought. He accused them of a change of policy on the question, and intimated that they had no real intention of going to Ottawa after all. He defended those who supported the amendment from the charge of being wanting in respect to the Sovereign, and maintained the loyalty of the French Canadian race.

Mr. Robinson ridiculed the alliance between Messrs. Brown and McGee, and predicted its speedy disruption. He stated that he would have opposed the reference to the Queen as an abnegation of the right of self-government, and as placing her Majesty in a false position. The reference, however, had been made, and the decision given, and the matter now stood in a different position; the question now was whether the House would or would not persist in the slight to her Majesty, and on that consideration, therefore, he should vote against the amendment. He would not, however, vote for a removal to Quebec during the time required for the erection of permanent buildings, the only effect of which would be to increase the expenditure of the country.

Mr. Archambault then moved, in amendment, a resolution proposing that an address should be presented to her Majesty, requesting her to reconsider her decision, and be advised to give it in favor of Montreal:

After a short but animated discussion the members were called in, and the amendment was put and lost. Yeas 59; nays 102.

On the motion of Mr. Cauchon, the House then adjourned.—(Colonist.

A message from the Governor-General informing this House that he had granted permission to Mr. W. Walker to absent himself from the sittings of the House during the present Session was read, and the House adjourned.

LEGISLATIVE ASSEMBLY.

February 9.

After the report last last night, and the rejection of Mr. Hogan's amendment, Mr. Archambault, member for Assomption, moved the following amendment to Mr. Sicotte's amendment to the main motion:

'That all the words after 'that' be struck out and the following substituted instead thereof. 'The Legislature of Canada having resolved that a fixed Seat of Government should be selected; and having solicited our Gracious Queen, by an Address of either House, to exercise her perogative in making such selection, and an Act, moreover, having been passed adopting, beforehand, the decision of Her Majesty and appropriating the necessary funds—we agree with His Excellency that the act of the Canadian Parliament and the decision of the Queen are binding on the Executive Gov't of the Province. But that we regret that Her Majesty has not been advised to select the City of Montreal rather than the City of Ottawa: that we therefore respectfully take the liberty to submit to Your Excellency that it is the opinion of this House that an address be presented to Her Majesty to represent that this House humbly prays Her Majesty to reconsider the selection she has been advised to make of a future capital of Canada, and to name Montreal as such future capital.

On the vote being taken the following was the result: yeas 13; nays 102.

PETITIONS.—By Mr. Dunkin, from N. H. Hinson and others, praying for incorporation of the Montreal commercial library association. By Mr. Dorion, by the carpenters and joiners association of Montreal, praying for aid towards their library.

On the order of the day being called, Mr. McMicken of Welland, took the floor and addressed the house in support of the main motion. He was followed on the same side by Mr. Talbot, who was speaking when the report left.

The Scotsman newspaper relates the following curious case of the recovery of a lost marriage ring:

'About the end of July or the begining of August last, a woman named Catherine Ferguson, the wife of a miner named McLean, at Clifton near the head of Loch Lomond, lost her marriage-ring while engaged in putting in or building peats, and notwithstanding that every search was made for it at the time, it could not be found. About a fortnight ago the cat brought a rat into the house, and around the neck of the rat was the marriage-ring. It is supposed, as rats are known to carry off coins or pieces of silver or gold, that the ring had been taken to the rat's nest, where it had gone over the neck of one of the young ones, and remained there until the animal had advanced in growth, and, curiously enough, been captured by the cat. Mrs McLean, who had been about a year married, was no less rejoiced in getting possession again of her lost ring than surprised at the very singular way in which it was recovered.

Mary [illegible]milton, charged with vagrancy, was committed to goal for 20 days.

DRUNK.

Mary [illegible] McGinnis, Ann Wallace, and Mary Hu[illegible]n, were charged by policemen Stacey a[illegible] Pickett with being drunk and disorderly. They were severally committed to gaol for 20 days.

Andrew Rogers, an old offender, was charged with being drunk. He was committed to gaol for 20 days.

Edward Savage was charged by policemen Nugent and Pickett with being drunk on Ontario Street. Fined $1.

DISORDERLY.

John Marsh was charged by policemen Pickett and Symmons with being disorderly. Fined $1.

Mr. J. Ramage appeared to answer a charge of assault against Joseph George. From the statement of Mr. George it would appear that the right of the Frontenac Division No. 2, to occupy the Temperance Hall was disputed by Mr. Ramage, who, last night, attempted to eject the members of the committee of that Division, and seized hold of and forcibly pushed Mr. George. Mr. George, however, declined to prosecute Mr. Ramage, and the Magistrate said it was a case entirely out of his jurisdiction, as the title to the place was in dispute.

New York Markets.

New York, Feb. 9th.

Flour, &c.—The flour market is very dull and rather heavy for Common and medium grades, the demand is confined to supplying the pressing wants of the local trade.

Sales 4,000 bbls at $5,20 a 5,30 for superfine state; 5,75 a 5,90 for extra state; 5,15 a 5,35 for superfine Western; $5,75 a 6,30 for common to medium extra Western, and $6,30 a 6,30 for shipping brands of Extra Round Hoop Ohio, the market closing very dull.

Canadian flour continues quiet with trifling sales at $6,30 a 7,25 for common to choice extra. For Southern flour the demand is limited and prices are without material change; sales 600 bbls at $5,75 a 6,10 for common, and $6,15 a 7,75 for fancy and extra.

TORONTO MARKETS.

Toronto, Feb. 8 1859.

WHEAT.—The market for wheat continues very buoyant with light supplies. Prices have advanced to a still higher rate, and 6s 6d for the finest fall wheat was paid in several instances yesterday. For good merchantable wheat 6s 3d to 6s 6d was paid freely, and very little really good wheat was bought below the inside figure. Medium and inferior was sold at 5s 9 to 6s.

SICK HEADACHE AND COSTIVENESS.—Sick Headache, as is acknowledged by all, arises from a foul or deranged state of the Stomach, and Costiveness is nearly always found present in Sick Headache; the two go hand in hand, and exist to an alarming extent throughout this bilious climate. Hundreds are suffering with such diseases. CONY'S STOMACHIC BITTERS, after having been used by one of the proprietors for over 25 years, in an extensive private practice with universal success in this class of diseases, is now placed before the public, claiming to CURE all of those ills that grow out of an unhealthy condition of the Billiary and Digestive Organs, and the proprietors have an abundance of testimony that their Bitters will do all they claim for them.

The following from Mr. Marcius S. Marsh, of Warren, Lake County, Illinois, speaks for itself:

R. S. Cony & Son: I have used your STOMACHIC BITTERS with good effect for Sick Headache and Costiveness. Having suffered for a long time with these troublesome and annoying complaints, I began to think there was no cure from them, but was induced by the popularity of your Bitters to make another trial, and accordingly bought a bottle at your store. I used part of the bottle, from which I was very much relieved, and when the whole of it was taken, I found myself quite restored to my usual good health. My bowels assumed a regular and healthy action, and as a consequence, my headache quite disappeared. My appetite has continued good ever since, my family are using it for similar diseases, and with like good results. I do not hesitate to recommend your Bitters to those suffering with such complaints. An appreciative public will surely sustain so good a family medicine. 'I say, God speed you, gentlemen, in your errand of good.' Yours, in a good Cause,

M. S. MARSH.

M'LANE'S CELEBRATED VERMIFUGE IN MISSOURI.

Job P. O., Oregon Co., Mo.,
July 23d, 1855.

MESSRS. FLEMING BROS., Dear Sirs: I have used Dr. M'Lane's Celebrated Vermifuge, prepared by you, in my family, and I do think it the best preparation now in use for expelling worms from the human system. My neighbors have also used it with the same success. You are at liberty to use this as you see fit.

Yours, &c.,
WM. O. NETTLE.

The above is a sample of certificates daily received by the proprietors, Fleming Bros., of M'LANE'S CELEBRATED VERMIFUGE AND LIVER PILLS. We think we are safe in saying they are the most reliable and popular remedies of the day.

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING Bros. of PITTSBURGH, Pa. All other Vermifuges in comparison are worthless. ☞ The greatest preservative of beauty known to modern science, is Prof. Wood's Hair Restorative and Cosmetic. Among the most important features of female beauty, are a luxurious head of hair, and a fine complexion; both of which should be guarded as sacred treasures, for either may be lost by neglect, or preserved by the use of the above named article; doing it dangerous. We seldom undertake, voluntarily, to endorse what are called 'Hair Restoratives,' as knowing full well that the great majority of such preparations are entirely worthless. Exceptions there are, nevertheless, and among them we have ever hesitated to express our conviction that the article known as 'Wood's Hair Restorative' is entitled to a proud pre-eminence. This article has had its early story to contend with instances of genuineness, gray and bald heads, and the reverse. In regard to its increasing efficacy have been some instances, unsolicited, and emphatic. When Senators of the United States and others of the highest standing certify and personally attest to the virtues of 'Wood's Hair Restorative,' we are not aware that we, in justice to it, can more than say, it is presumable that the observing Public have known them. ANTIDOTE FOR POISON.

THE PAIN KILLER.—Rev. T. Allen, writing from Tavoy, Burmah, Jan. 3th, 1857, says: 'within the past four years I have used and disposed of above five hundred bottles, but am now out. Please send me a fresh supply (through the Mission Rooms) as soon as you can, say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Burmans and Karens. I always take it with me into the jungles, and have frequent occasions to use it, both on myself and others. One night, while sleeping in an open Zayats, I was awoke by a most excruciating pain in my foot. On my examination, I found I had been bitten by a Centipede. I immediately applied the Pain Killer, and found instant relief. In less than one hour I was again asleep.

Rev. Mr. Hibbard, writing from Burmah to his father, says: I have used Perry Davis' Pain Killer for coughs, colds, summer complaints, burns, and for the sting of scorpions, with uniform success. We always keep it where we can put our hand on it in the dark, if need be.

Dalley's Magical Pain Extractor.

In all diseases inflammation strikes at the root of disease—hence an immediate cure.

DALLEY'S MAGICAL PAIN EXTRACTOR,

and nothing else, will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR

will cure the following among a great catalogue of diseases: burns, scalds, cuts, chafes, sore nipples, corns, bunions, bruises, strains, bites, poison, chilblains, boils, scrofula, ulcers, fever sores, felons, ear-ache, piles, sore eyes, gout, swellings, rheumatism, scald head, salt rheum baldness, erysipelas, ringworm, barber's itch, small pox, measles, rash, &c., &c.

To some it may appear incredible that so many diseases should be reached by one article; such an idea will vanish when reflection dies of ingredients, each and every one applying a perfect antidote to its opposite disorder.

DALLEY'S MAGICAL PAIN EXTRACTOR.

In its effects is magical, because the time is so short between diseases and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, workshop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

Cory's Stomachic Bitters.

THE CELEBRATED CANADIAN REMEDY, for the Speedy and Permanent cure of DYSPEPSIA, LIVER COMPLAINT, JAUNDICE, SICK HEADACHE, COSTIVENESS, LOSS OF APPETITE, HABITUAL CHOLIC, CHRONIC DIARRHŒA, GENERAL DEBILTY, ACIDITY OF THE STOMACH, DIZZINESS, DISGUST FOR FOOD, FEMALE WEAKNESS AND COMPLAINTS, and all diseases and indispositions arising from or growing out of an unhealthy state of the Stomach and Liver.

These Bitters are compounded from Gums, long known to the profession as possessing peculiar curative powers in cases of Dyspepsia, Liver Complaint, &c., which operate powerfully upon the Stomach, Bowels, and the Digestive Organs, restoring them to a healthy and vigorous action, and thus by the simple process of nature, enable the system to triumph over Disease.

Its adaptation to the cure of all affections of the Billiary or Digestive Organs is peculiar to itself.

Dyspepsia, a disease which is probably more prevalent, when taken in all its various forms, than any other; the cause of which may always be attributed to derangements of the Digestive Organs, can be cured without fail by the timely use of CORY'S STOMACHIC BITTERS, taken as per directions on the bottle, and in addition, take a glass of cold water after rising in the morning, which will facilitate the cure. For this disease every physician will recommend Bitters of some kind, then why not use an article known to be infallible? Every country have their Bitters as a preventive of disease and strengthening of the system in general, and among them all there is not to be found a more healthy people than the Canadians, from whom this preparation emanated, based upon scientific experiment, which has attended to advance the destiny of this great preparation in the great medical realm of science. Further, any of the above stated diseases cannot be contracted when exposed to any ordinary conditions pertaining them. If the Bitters are used as per directions, a long experience has proved that it will effectually cure any case or symptom which can be produced. This desirable result is obtained in a brief space of time. And as it neither creates nausea nor offends the palate, and rendering unnecessary any change of diet or interruption of the usual pursuits of life, but promotes moral sleep and healthy digestion, the complaint in this removed as speedily as is consistent with the production of a thorough and permanent cure.

In short, CORY'S STOMACHIC BITTERS are only to be tried for the numerous diseases for which they are intended, and which we heretofore referred, and our word for it, they will be appreciated.

We would refer our readers for further particulars to our Pamphlet, which gives a description of all their diseases, their remedies, effects and cure. This pamphlet is entitled 'A Treatise on Dyspepsia and the Indispositions arising out of the Same,' and can be had of our Agents gratis.

NEWLY INVENTED,
PLUMB AND LEVEL.

A. N. COLE has lately invented and obtained Letters Patent for an Instrument, named

COLE'S GRAVITATING PLUMB AND LEVEL,

which is far superior to Spirit and all other Levels. The advantages the Inventor claims over all other Levels are these, viz:

1st. It can be settled sooner than all other instruments for plumbing and leveling.

2nd. It indicates where any piece or part is out of plumb or out of level, and how much.

3rd. It gives correct angles and grades both v
