June 24th, 1657.

"In October, 1877, my wife, giving birth to a child, left her bed too early and caught a severe cold, which promised to terminate her life. The best physicians in this neighborhood and Kingston were in attendance on her, but all to no avail-the Doctors had given her up to die. For seven consecutive weeks I sat at her bedside, momentarily watching to see her breathe her last. I happened to see a copy of your paper, called the 'Moving World,' and there read of your Medicines. I resolved to test them as a last resort. I gave her the Resolvent with the !
