NEW RAILWAY ENTERPRIZE .- Montreal is becoming enthusiastic on the wooden railway question. An influential meeting was held there on Tuesday last, to hear a report from the carriage of firewood. This report, after, setting forth, at great length, the benefits which such a railway would confer, concludes by recommending an application for a charter for the "Northern Colonization Railway;" for a grant of 500,000 acres of land to mid its construction; for further aid to bridge the two branches of the Ottawa; for assistance from the Montreal Corporation, &c., &c. Steps were, immediately taken for the opening c stock books, and the meeting, which was a very influential one, appeared anxious to push forward the enterprise to a successful issue.
