WASHINGTON. ALL ABOUT A SUPPOSED EENIAN PRIG

Washington, Jan. 25. One of the first cases of the Alabama Freaty, as now proposed, was brought to the attention of the State Department. In. August, 1866, Owen Thorn, of this city, then owner of several steamers in New York, sold one of his vessels to Congress, the agreement stating that the boat was to be used in the grain trade between Chicago and Buffalo. Mr. Thorn's agreement compelled the delivery of the boat at Buffalo, but while passing Montreal, the steampipe bursting caused the vessel to put into that port. While engaged in repairs, the Canadian authorities seized the vessel on suspicion as a Fenian privateer. Evidence was brought to show that the charge was unjust, and after a long detentio and an expenditure of about \$8,000 in gold, the steamer was released, the Canadian authorities ucknowledging their mistake in the meantime. The owner then filed with the State Department claim, giving evidence of the forcible seizuse and to a occasioned thereby. The State Department acknowledged the reccipt, and informed the claimant the claim could not be considered until the Alabama cases were brought up. A few days ago the claimant visited the department and asked the case to be brought up, but he was gruffly informed that Mr Seward did not wish to see him, as the clerk who who had charge of the clarm reports the papers lost. The real trouble is supposed, that Secretary Seward Messis, T. Robinson, Henderson, Torb. was committed to the Fenians in the early part of their operations in such a way that he did not desire any investigation of any alleged Fenian move-/

In the Senate to-day Mr. Robinson moved a resolution, declaring that the people of the United States will not approve of the ratification of the treaty for the settlement of the Alabama claims, nor of any other treaty with England while American citizens are held in prisons in Great Britain for acts done under the American flag. General Grant is strongly opposed to

the pending Alabama claims treaty. The ollowing is his position in his own words: The Mayor and Aldermen, J. OlReilly, The treaty is unjust to the United States, because it assumes to measure whereas the chief damage to our com the seas by Anglo rebel pirates. In addition to this the sympathy extended by the English Government to the South prolonged the war at least a year, and for all lives lost and money expended for this time England is directly responsible. The treaty proposes to settle all these things by the payment of a paltry value
