MANY YEARS AGO.

A Mystery of Long Standing That Was Finally Cleared Up by a Deathbed Confession-An Ingestous and Effective Murder Trap.

One of my best friends and one of the . Hitherto it has existed as one of the and has been handed down from generation to generation. My friend relates the tale as follows:

My maternal grandmother, who died years ago, was a little more than 90 years of age at the time of her death. She was born and reared in what is now a thriving town in the southern part of Piscataquis county. But at that time settlers in that section were few and far between.

The country was almost an unbroken wilderness. Bears and wolves were fre quent visitors to the clearings, and the scream of the panther was not infrequently heard. There were no roads except the rough ways cut through the forest from one little settlement to another.

In my boyhood days I frequently visited my grandmother's home, and occasion mily when her work was finished the good old dame would seat herself by the big open fire and relate to me incidents which took place in her girlhood days in and around her wilderness home.

She told me how more than once during Fifth Annual Sale. One spring, after Brown had been married about two years, he was engaged in felling trees on a low ridge about a half mile from his log house and getting ready for a "burn." One morning before going to his work he told his wife that he should not be back to dinner, as he was in a great hurry and it was most too far to walk and asked her to send it to him by Ellen at the proper time. Just before the midday hour Mrs.

Brown filled a small pail with feed for her husband's dinner, gave it to Ellen. who then started for the choppings where Brown was at work and soon disappeared among the intervening trees.
