PERMANENT PAVEMENTS. The cost of road-making in Kingston, under present conditions, suggests some departure which will secure to the city permanent pavements. Asphalt is the outstart, and expensive to keep in reof which Hamilton has made a specialty stituency whose people will consent demand, and the following from Mr. The conservatives cannot agree upon After years of experiment, this city is an empty chair. laying a pavement that for excellence, durability and cheapness is commended for examination to those in charge possibility of making good roads at reasonable cost has been demonstrated smooth and solid roadway, but one that can be kept in perfect repair at nominal traffic streets at less than one cent per yard per year, while asphalt costs over three cents. The addition of tar renders Brantford Expositor. the rondway impervious to water, frost | With the elections seemingly many proof in winter, and prevents mud and weeks ahead, the conservatives are busy dust in summer. It is easily repaired firing off all their ammunition. When and does not require scraping, thus av- the contest is really on, they will find coiding much wearing of the surface. One themselves with nothing but empty block of tar macadam laid more than a shells. year ago on a business street, where there is heavy teaming, shows no perceptible wear to-day.
