The Trick in Omelet Making.

The omelet is the supposed "impossible" in the average kitchen, when in reality it is but a moments' work which any ordinary cook can accomplish. And once a simple omelet is achieved there is no end to the pretty and toothsome variations easily within one's skill. In the first place, omelets need not be "tossed," but just handled calmly and practically, and, in the second place, the puffy omelet is the "souffle," by the "true omelet," which is not puffy

at all nor subject to falling. The one point in omelet making which must be imperatively observed regards the pan. It is not at all necessary to buy a regular omelet pan, as a smooth, rather heavy, medium sized against Ripley were withdrawn as evi- | Sergt.
