Clothing To Suit All Occasions.

When choosing your clothing it's important to have some guarantee of worth beyond what meets your eye. Everyone is not a judge of materials or finish and can hardly tell in advance what kind of service a certain suit may give. In this store you have our word for it every time. We don't pretend that a \$5 suit will give as big value as a \$10 one, but we tell you exactly just what you may expect for the prices asked. It's a satisfactory way of buying —doubly so because our prices are always rock bottom, value considered.
