Dr. Chase's Kidney-Liver Pills Cure All Uric Acid Troubles.

The most painful, the most fatal and consequently the most dreaded diseases of the human body are caused by presence of uric acid in the blood. Uric acid is the name given to the foul poisonous impurities which are left in the blood when the kidneys are deranged and unable to perform their duty

of filtering the blood. So long as the kidneys are in perfect health, the uric acid is passed out of the body by way of the bladder and the blood is kept pure and clean.
