HOW NEW, ORDER BEG AN

SOURCE OF BRITISH POWER

hug mad's Great uess. Arch street. Phila. | before, and before the civil war hanging under water. It was surwhich destroyed the old condition rounded by myriads of birds, which these dangerous disclass, and the head of it determined lar monster having eight arms, thirish power by visiting London. He girth; and many other writers, too evere furnished with letters of credit to its actual existence. But I did on English bankers. They went to not believe that anything similar to Nagasaki and took passage from the terrible "devil fish" described by that port. In the April number of Victor Huro was really in existence the Windsor Magazine, Mr. Frazer, until I had ocular demonstration of who has recently heard the story the fact on this passage. from marquis Ito, repeats it. The marquis said:

ouve and myself should go to Eng- nine degrees thirty seconds north. land to learn navigation, so that longitude 136 degrees forty seconds on our return our knowledge would west. Light breeze from north by from Japan. We two young fellows accordingly went to Nagasaki for the purpose of getting a passage to England. The only word of English we knew was 'navigation.' We west into the office of the company, and which the runn in charge eaked what we wanted, all we could say was maxigation. Everything seemed all prise on finding that instead being passengers we had been ship ped as common sailors. All through the voyage we had to scrub decks and work just the same as the others. The English sailors found out we had money, and it was soon gambled away from us. Not all, for we kept two dollars carefully stowed away in an old stocking for emergenefes. Well, at last we got as we knew no English, we did not
