GRAND TRUNK SAYS "NO." The management of the Grand Trunk has been understood to say that it will not agreement which the controversy has sup braffic manager is about right when he says that it is to advantage of the Intercolonial railway to get into Montreal, posed that it would. The Grand Trunk colonial railway to get into Montreal, and to carry ite freight as far west as it has rails. But the traffic arrangement should stand on its merits and as circumstances

leuggest from time to time. As a matter of fact the arrangement bebween railway companies as to tariffe and other matters, purely routine, is not a sub jest for legislation, and should not become the sport of the upper chamber. Traffic changes, and the agreements in regard to handling of freight, must change. Could these not be left to the managers? The representatives of the government on the Intercolonial ought to be able to watch the Grand Trunk staff in an ordinary business cause it is not operated by a paternal government, but it is giving the people the twenty-five years old, had a pecudeal, and this traffic matter is such and tache, and the meaning of them, and if liarly weak feeling about the lower
