HE SAYS THE SOUL EXISTS.

DECLARES HE WILL DEMON STRATE IMMORTALITY.

and He Talked a bout What He Anows.

Now York, July 25 .-- I have just paid a second visit to Camille Flamlumarion, the distinguished scientist, who has done so much to popularize astronomy, says the Paris correspondent of he Journal. The object lived of this visit as to ascertain what make history. The story of her message he bout to give to huforthcoming book. which will sum his studies of the invisible world for the past thirtyeight years.

I found Flammarion in his library, which contains 6,000 volumes, most of them treating of the stars. Pefore him was the enormous roll of manuscript, which, when published two months hence, may revolutionize metaphysics. Taking my notebook, he began by writing the title to his chef-d'oeuvre, thus: ;'L'Inconnu et les Preblems Psychiques."

Then, in reply to my questions. which he asked me to put at once, he poured forth the following tide of

My studies have led me to the discovery of a new proof of immortality. This proof is based upon my For convenience sake, let us call it an experimental demonstration of the immortality of the soul. Man dies. Years pass. then talk to his spirit under circun: stances which admit of no deception. Am I not right in concluding there is a spirit world and that the spirit lives after its separation from the

"I have had direct communications with hundreds of departed spirits. and the same is true of many of my trustworthy correspondents. If we were deceived, then the deception would be still more wonderful than the discovery.

"Hitherto all proofs of a future life have been based upon logic, justice and the spirit of humanity, but there was no positive demonstration. The arguments of the school men are losing their hold upon the more scientific mind of to-day. Now have something positive in the way of proof, which even the severest science cannot reject. "I also prove positively the exist-

ence of a God. "Men like the deceased cannot scoff ct my positive demonstrations in argument. Founded my experience of the invisible world. ROYAL MAIL STEAMSHIPS. am absolutely certain an invisible world exists, and that it has many Californiau, from Montreal July 20th, 9 a.m. unknown forces.

FROM TWO SIDES.

The Militia Department Becoming Auxious -The City Holding Out. The militia department, through

Lieut.-Col. McGill, is endeavoring to and out what the civic tire and light committee is going to do about providing tre protection for the donal Military college, since chair man Toye, of the fire and iicht committee, ordered the fire department not to answer an alarm from the college without obtaining a signed order from either the mayor or the chairman. Chairman love is asking the militia department the same question as he received. As matters hitherto stood, the city was entirely responsible for any damage or loss which might occur through the fire apparatus going over Cataraqui bridge. Everybody knows the bridge is not the most substantial structure in the world, and notices posted on it warn drivers not to proceed across at a gait faster than is walk li the fire apparatus went across t Yet O' how dear it is to us-this ta fire the chances are these warnings would be ignored.

Should the bridge give way, the ed ones and blessed is the city would be responsible for dansages. Should any of the firemen beinjured, the city would also be look we may show you ed to for damages, and at the same time the chances are that if the fire We may not to the quick reveal the apparatus went through the bridge i would be rendered worthless, and the city would also be out so much money. What the fire and light committee desires is that the government will assume all responsibility. The only monetury consideration the city at present receives from the government for fire protection for the college is a rental of \$12 per andepartment to learn what action it drews & Donaldson. She was fitted is intended to take in the matter. Meanwhile the order issued by
