# Cuticura Resolvent Greatest of Blood Purifiers and Humor Cures.

That is to say, it purifies the blood and efrenlating fluidsof Homon Genns, and thus removes the course while warm baths with Cornouna BOAP, and gentle anointings with CUTICURA (ointment), greatest of emollient skin cures, cleanse the skin and scalp of crusts and scales, allay itching, burning, and inflammation, and soothe and heal. Thus are speedily, permanently, and economically cured the most torturing, disfiguring, and humiliating humors of the skin, scalp, and blood, with loss of hair, when the best physicians and all other remedies fail.

I had been troubled with tetter for several years. At times my hands would be sore all over. so that I could not use them at all, and were so tender that clear water, even, smarted like fire. and it spread over arms, neck, and face. I had been treated by physicians, but without benefit, when I began the CUTICURA remedies. I found relief before I had taken the first bottle. I used three or four bottles of CUTICURA RESOLVERT. one cake of Curicuna Soap, and one box of CUTIOURA (cintment), and it has never troubled me since. ELLA CURZON,

One of my children ran a rusty nail into his foot, which was most painful. His blood got order, and sores broke out on his hands and feet. I gave him one bottle of QUTICURAL RESOLVENT and used one cake of OUTIQUEA nd the child recovered.

I have been troubled with an everlasting itching and burning of the skin on my face, I was prevalled upon to try Curicusa remedies. The result was simply wonderful. In one week after using the Curicuna Soap and Curicuna Resolvent I was extircty rid of it, and my skin is in a healthy condition: D. H. VAN GLAHN, 121 Stockton St., San Francisco, Cal.

Miner Guided by Folkiore Discovered

Valuable Ore in England. Liverpool, Aug. 24.--Quite a romance encircles a mining discovery which has recently been made on the Cumberland hills.

For the past quarter of a century an elderly gentleman named Bird has paid periodic visits to these We have some great snaps 2 hills. His relatives evinced some surprise at the persistency of his visits. and were inclined to laugh at the suggestion that the country contained rich mineral mines which

merely wanted exploiting. Mr. Bird was originally largely in fluenced in his researches by the folklore of the district, but on examination of the mountainous region in and about Penrith, he graduelly satisfied himself that the trace of minerals was sufficient to warrant him in pursuing his investigations more

In the meantime he was written down as a mining maniac by those most closely connected with him. but in spite of it all he persevered. and some time ago he took into his confidence Prof. Grev. 'he wellknown anglyst, and a mining engineer named William Hastings.

The discovery has not unnaturally created a good deal of stir among mining experts and big metal men. In the opinion of those who have surveyed the district Cumberland and Westmoreland are considered to be in their infancy in regard to min-
