COMMERCIAL MATTERS.

What is Going on in The Business World -The Market News

Broomcorn in Illinois has reached the coveted price of \$100 per ton. It has advanced \$30 in ten days, and is expected to

still go up. Nebraska's corn crop this year, now sale, will be 300,000,000 bushels. Corn is now selling there at thirty cents, making the crop worth \$90,000,000.

The Merchante' cotton company has increased its capital from \$1,000 000 to \$2,-000,000. A fine new four-storey mill 250x110 feet, will also be built.

A scarcity of care and vessel room for the carrying of grain is severely felt at all American western, interior and lake ports. Shippers were not willing to pay advanced

rates, but now they have to. The prices of meat have suddenly drop-

ped in Chicago, and the public is greatly astonished. It was expected that the beef trust would continue to have everything its own way for the winter at least. Cattle men say that there was no corner at all. In the present drop spring lambs led the tumble about 40c. per hundred lower than ten days ago. Dressed beef dropped 25c. a hundred and pork 15c. to 25c.

comparison of recent statistics with those of ten years ago shows that the demand for all cereal crops has increased in volume. This is due partly to the constant growth in the world's population and partto the increased use of some of the grains. Preparations of oats for human food, for example, have been popularized and have added considerably to the consumption of cats. The world on an aver- past. age calls for about 500,000,000 more bushdian corn than it called for ten years ago. | the island of Orleans. The estimate of this year's crop points to a deficit in all these grains, which cannot be wholly supplied by the stocks on hand.
