

THE FEAR OF HUMBLED.

Stomach troubles are so common and in most cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, Bismuth, Hydrastis and Nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half digested is poison as it creates gas, acidity, headaches, indigestion of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.

They are sold by druggists everywhere at 50 cents per package. Address: F. A. Stuart Co., Marshall, Mich. For little book on stomach diseases, sent free.

Hosts of good things for the evening preceding all halloos, lay, when every body must merry.

HALLOW-EEN ENJOYABLES

Bananas, apples, grapes, oranges, figs, assorted nuts, hickory and chestnuts, a comforted nut, etc. We sell nothing but the best.

TOY'S, King Street.

TUCKETT'S New MYRTLE NAVY 4'S 20 Cents. See T. & B. in Gilt on Each Plug.

Large Hickory Nuts, New Brazil Nuts, Satins, Only 20c Per lb. at A. J. REES', 78 Queen Street.

BOOTH & CO. Foot of West Street.

Enjoyed as a common beverage in drinking the Magi Caledonia Springs Waters, improvement to health is received with every drop. Sold by best Hotels, Clubs and grocers everywhere.

APOL & STEEL'S NEW DIETETIC PILLS. A REMEDY FOR INDIGESTION, BILIOUSNESS, HEADACHE, COLIC, CONSTIPATION, AND ALL AFFECTIONS OF THE BOWELS.

QUEEN'S AGAIN DEFEATED.

R.M.C. WINS THE INTERMEDIATE MATCH.

'Varsity Gives Queen's a Whitewash—The Queen's girls were a whitewash—The Queen's girls were a whitewash—The Queen's girls were a whitewash.

The intercollegiate match in Toronto on Saturday afternoon between Queen's and 'Varsity resulted in a victory for 'Varsity, the score being ten to nothing.

The match was a remarkable one for the penalty kicks awarded; Queen's got three-quarters of them. 'Varsity were the better team in the scrimmage, and their wings broke through better than Queen's, consequently the result. A good deal of scrapping was participated in by both sides.

The second half Mullen and Carr-Harris were sent to the side for scrapping. Shortly after three o'clock the teams lined out. 'Varsity won the toss, Elliott kicked off for Queen's and there followed a series of scrimmages and close play, when Queen's were awarded a free kick and Elliott sent the ball well up the field, but the wings were well in following up and 'Varsity gained nearly twenty yards on a run kick by Darling. On a pass out from scrimmage Elliott got the ball, and ran around the end, but was tackled by Biddy Barr, who, in going down with his mtn, had his hand broken. This caused some delay, until Barr had the hand fixed, and went on playing. From a scrimmage at half way Fleck passed out to Brown.

He made a pretty run, passing the Queen's men, and getting over for the first touch. Darling missed the try, and the score stood four to nothing. This finished the half, time being called shortly after the kick.

In the second half for the first few minutes it looked as if Queen's might even up. From a number of free kicks awarded them they worked the play to 'Varsity's advantage, and getting over for the first touch. Darling missed the try, and the score stood four to nothing. This finished the half, time being called shortly after the kick.

Queen's Back, McDonald; halves, Wallace, Kingston, Elliott; quarter, McDowell; scrumming, Young, Carr-Harris, Russell; wings, Branscombe, McCarris, David, Sheriff, Eberington, McDonald. Referee, J. L. Todd, Montreal. Umpire, W. Irvington, Toronto.

R.M.C. 14; 'Varsity 11, 6. The first match in the intermediate final of the intercollegiate union was played on Saturday morning on the 'Varsity grounds between 'Varsity and R.M.C. The latter winning handsily by fourteen to six. A fairly good crowd witnessed the game, which was a first-class exhibition of rugby. It was entirely free from rough play and was fast and clean. The odds were the better team at almost every point. The work done by their halves was splendid, while their scrumming was the best seen in Toronto this season. The wings played a snappy game, and followed up well, breaking through and stopping many a pass from 'Varsity's quarter to his halves.

For the first few minutes the play was all at midfield. From a long punt from Aylesworth, L.W. lumbled, and Armstrong got the ball, and went over for the first and only try that 'Varsity got. Gibson converted the goal, and the score was six to nothing. From then on R.M.C. had the best of the game, and shortly before half-time Baker broke through and went over, Wilson converting the goal and making a tie of the score—six to six.

On changing ends in the second half, R.M.C. had matters all their own way, and tallied eight more points, while 'Varsity never got nearer than the quarter line. From a scrimmage Baker passed out to Caldwell, who punted over the line, and Gibson was forced to rouse. Score, seven to six. From the kick off 'Varsity again lost ground, Caldwell getting the ball, and making a pretty run of about twenty yards, going over for R.M.C.'s second touch. Wilson again kicked the goal, and the score stood thirteen to six. 'Varsity worked the play to the soldiers' end, but were weak in the scrimmage, and lost on that point. R.M.C. again secured possession of the ball, and again punted over the line, and Gibson was forced to rouse. Score, fourteen to six. This left four minutes to play, and when time was called the ball was at centre field.

The teams were: R.M.C. (14)—Back, McLaren; halves, L.W. Caldwell, Harty; quarter, Baker; scrumming, Ridout, Kirkland, Lindsey; wings, Gibbons, Robertson, Keith, Wilcox, Clark, Murphy, McConkey. 'Varsity 11 (6)—Back, McDonald; halves, McArthur, Aylesworth, Gibson; quarter, Gander; scrumming, Telford, Douglas, Ratter, Wilson, McLennan, McInnes, Arthur; wings, McSparran, Preston, Matheson, Gander, McDonald.

Queen's—Goal, Ferguson; back, Simpson, Henderson; halves, Baker, Barron, Arthur; wings, McSparran, Preston, Matheson, Gander, McDonald.

The Other Matches: Argonauts 12; Hamilton 0. Ottawa College 14; St. Michaels 0. Montreal 3; Brockville 3. Irish team 9; Ottawa 6. Peterboro 8; Ottawa II, 4. London 28; Varsity III, 0.

Union Common Sense Views. A Kingston follower of the Granites, writing to the Toronto Globe, has this to say about Queen's chance of winning: 'Varsity shortly before "time" was called. The wet ground made it hard to play, and the game was not a good exhibition of association. The teams were: 'Varsity—Goal, Soole; backs, Dymont, Campbell; halves, Jackson, Smiley, Trooper; wings, Barton, McParson, McQueen, Champ, 2 vits.

Queen's—Goal, Ferguson; back, Simpson, Henderson; halves, Baker, Barron, Arthur; wings, McSparran, Preston, Matheson, Gander, McDonald.

The paper has declared himself concerned for the future of France and Brazil and sincerely sides with the Latin race, and who incidentally he ascribes to the spread of Protestantism, Freemasonry and Jewism. Hearty wishes a vigorous campaign against Anglo-Saxon influences, which he regards as prime mover of the three hostile principles.

Shortly Arriving. Stephen Tugwell, Anshar Island, who underwent an operation in the general hospital for appendicitis, is improving slowly. He was feared at first that he would not rally, but yesterday the motion was put to the better and he was expected quite bright.

Death of Samuel Anderson. Samuel Anderson, Gananoque, died suddenly on Friday. Deceased was seventy years of age, and leaves a wife and large family. He was a pioneer in the town for many years employed by the W.P.A. The funeral took place on Saturday.

INCIDENTS OF THE DAY

PARAGRAPHS PICKED UP BY OUR SUBY REPORTERS

The Spice of Every Day Life—What the People are Talking About—Following are the Attention of Those who are Interested.

A driver of "A" battery is so carried this evening. Miller's Compound Iron Pills have such virtue that every one should try them. Man impress on woman, but she always thinks he doesn't mean it. Somehow people think a woman must be really very good if other women like her.

Miller's Worm Powders the best laxative medicine for children; pleasant to take. A wise rule in conversation is never to say anything that you know somebody else wants to say. The woman who worries generally has a husband and a lot of daughters who won't worry at all.

A woman with a headache can show a haughty demeanor, but she has to limp when her shoes hurt. Belleville council has voted \$4 to each of the citizens who have joined the South African contingent. The pimples have disappeared. Miller's Compound Iron Pills did it.

A local architect took measurements of the City hotel and property and now citizens are wondering if someone is going to spring on them another hotel or opera house scheme. Rain interfered with Saturday's contemplated trip of Queen's geology and mineralogy students to the Foxton iron mines, to the rear of Sydenham. They will probably go the coming Saturday, returning on Sunday.

There is not a Sunday that passes that from six to a dozen commercial travellers do not leave their trunks in Kingston while they go off to some other town or city to spend the day, returning Monday. If Kingston had attractive hotel accommodation these travellers would remain here. After being out to the lower depot yesterday bidding farewell to Lieut. Col. Drury, the band and members of "A" field battery disembarked from the suburban train at the lower depot, leaving for the parade outside the barracks to the strains of "The Cock of the North", the clarionets imitating the bawpipes.

Br. Black, who returned to barracks last Friday after having been absent for several days, has been reduced to the ranks. Although the 14th band had only half an hour's notice to turn out yesterday to play Lieut. Col. Drury off, the organization was not less than thirty three men. The officers of the corps felt proud of the good showing made by the band.

VOICE OF THE STUDENTS.

They Uphold The Action of Burning Tartie's Emery. The students of Queen's were out in force at the alma mater society meeting on Saturday night to discuss the burning of the Hon. Mr. Tartie's emery.

The discussion was very lively, and lasted for two hours. After attacking the matter from all points of view, the result was that no action was taken. The motion introduced was: "That this society regrets the erroneous statements made in some newspapers that the Hon. Mr. Tartie, as a body, burned the emery of the student." The motion was carried by a large majority.

MARINE INTELLIGENCE.

What is Transpiring in Kingston Harbor and Other Ports. The tug Thomson arrived this morning with four light barges from Montreal.

The schooner Acadia arrived from Sodus this morning with coal for Crawford & Co. After November 1st the Kingston Cape Vincent ferry will make only one trip daily.

The schooner Jamieson from Darlington discharged 10,000 bushels of barley at the M. T. company's elevator. The steamer Valeria, the ferry boat between Gananoque and Clayton, has been placed in winter quarters in Anglin's bay.

After October 31st the Thousand Islands steamboat company will discontinue its service between Clayton and Alexandria Bay. The SS. Rosemont and consort, from Fort William, are discharging 170,000 bushels of wheat at the M. T. company's elevator.

Arrivals at Richardson's elevator: Schooners Mianie, Katie Eccles, Ballou. Monitor and sloop Dandy, from bay ports with cargoes of grain. Caps. Joseph Dix brought his steamer Valeria up from Gananoque Saturday and put her into winter quarters. Cap. Dix reports having enjoyed a successful season.

The scow Alice C. sank at the Cleveland coal company dock, Cape Vincent, N. Y., with a load of baked hay. It was found that a muskrat had eaten a hole through her centre board. The government tug DuSable and dredge Queen are again here. Soundings are being taken between Crawford's and the M. T. company's wharves. Some work is to be done there.

CIRCLE OF THE CHURCHES.

What is Going On In The Various Places Of Worship. It was just five minutes to nine o'clock last night when the benediction in St. Andrew's church was pronounced. The Rev. Mr. Campbell was pronounced. The service was a "long suffering" congregation.

It has been decided to build a palace for his lordship bishop Macdonell, at Alexandria. The new building will be a handsome one and will be commenced at once. Rev. I. Campbell, Ottawa, preached probationary sermons in Cooke's Presbyterian church yesterday. His discourses were attentively listened to and found favor with the congregation, a number of which stated that Mr. Campbell was the best speaker who had ever occupied the pulpit.

There was a large attendance at the Free Methodist church, Sunday afternoon. Rev. Mr. Cunningham conducted the service and delivered an earnest address on "Holiness." Mr. Bridger, Cataract, also spoke on the same subject. Some interesting testimonies were given. Rev. Mr. Sims preached at Malabar.

The paper has declared himself concerned for the future of France and Brazil and sincerely sides with the Latin race, and who incidentally he ascribes to the spread of Protestantism, Freemasonry and Jewism. Hearty wishes a vigorous campaign against Anglo-Saxon influences, which he regards as prime mover of the three hostile principles.

CITY AND VICINITY.

Had His Fingers Hurt.

Saturday last A. E. Dean lost the tips of two fingers of his left hand at the school of mines. A large glass beaker broke in his hands, the falling glass slicing the tips of the first and fourth fingers. The wounds were dressed at the general hospital.

Great Value in Ready-Made Clothing. Provost, of the New York clothing store, Brock street, has a great assortment of boys' youths' and men's clothing of his own manufacture, guaranteed to give good satisfaction at prices that defy competition. Also great bargains in gent's furnishings.

What Koiné Do They Take? A good many enquiries are being made by citizens as to the exact route both the English and Canadian forces are taking to reach South Africa, and as to the points at which they will disembark. They say the newspapers have failed to enlighten them on this question.

Dry Goods Business Concentrating. A noticeable feature of the dry goods business in Kingston is its concentration. A few years ago there were a great many stores scattered over a wide area. Now there are only five or six, and they are all pretty much confined to that portion of Princess street between Wellington and Bagot streets—one block. Though several of these do a big business there are some who are not making a fortune for their proprietors. It is very evident that Kingstonians do not patronize home establishments as they should.

Gave Him a Send Off. On Saturday afternoon gunner Hewgill, of "A" battery, who accompanies Lieut. Col. Drury to the Transvaal, left for Quebec. He was carried from Tote du Port barracks to the Johnston street station by his fellow soldiers, who gave him a rousing send off. Before his departure they presented him with a purse containing \$35.50 raised in a short time among the men of the battery. A special car, containing the colonel's war horse, left at the same time and Hewgill was in charge of it. His loyal comrades wished him every success and a safe return as they bade him a last farewell.

Its Value Made Plain. To know that over 700 children visited Hamee & Lockett's boot and shoe store on Friday last plainly demonstrates one fact—the unlimited value of an advertisement in the Whig. A good advertisement is read and it has its result. If a newspaper goes into over 600 homes and brings forth such unmistakable evidence that it is read, what must the result be in thousands of homes where the Whig is a daily visitor, but where the readers do not have such a plain chance to show its value as their children did on Friday. The latter was an exceptional case, but it shows what a hold an ad in the Whig has on the minds of Kingston's reading public.

He Witnessed The Wreck. Frederick G. Dunlop, of the Grand Union, returned from Toronto Saturday morning, arriving here at 7:20 a.m. on the first train that passed the wreck near Port Hope. The train stopped at Newtonville, a station a few miles to the west, for over two hours, and after reaching the scene of the wreck another short delay occurred. Workmen were at work cleaning away the debris, guided by the light of huge bonfires. There were several carloads of flour in the wrecked train and the white material was scattered over everything round about. The wreck presented a fearful sight. Cars lay piled up, splintered and broken, while wheels and other portions were strewn about in the ditches on either side of the road.

Convention At Newburgh. The convention of the young people's societies of the Methodist church, Napanee district, representing twenty Ep. youth leagues, met at Newburgh on Tuesday, 24th inst. The following officers were elected: President, G. E. Deacon; Secretary, D. B. Wilcox; Treasurer, D. B. Wilcox; Napanee; second vice president, missionary department, Miss Mand Garrison, Napanee; third vice president, literary department, E. W. Brown, Newburgh; fourth vice president, social department, Miss M. G. Soley; fifth vice president, junior department, Mrs. W. Hartman, Wesley; secretary, Miss Annie Brown, Deacon; treasurer, E. L. Hooper, Napanee; G. E. Deacon was elected as representative to the conference executive. Additional members of the executive committee were: C. W. Glen, Newburgh; Miss Gray, Yarker; Miss Charters, Sillsville; Miss Storm, Violet; and Mr. Dawson, Switzville.

Free Medicines. The T. A. Slocum chemical company, of Toronto, never does things by halves. What they do is always on a generous scale, so it is with pleasure we inform our readers that, commencing on Saturday morning, the company will begin the free distribution of a large sample bottle of the well known cold cure, "Coldsfoot Expectorant." A free sample bottle of this famous remedy will be placed in every home in Kingston. It will be to the interests of our citizens to be on the lookout and not fail in securing this famous remedy for coughs, colds, etc. The T. A. Slocum Co. have such implicit faith in their remedies that they have no hesitation in placing them before the public in this way and without a cent to pay.

Why is it that nearly all aged persons are thin? And yet, when you think of it, what could you expect? Three score years of wear and tear are enough to make the digestion weak. Yet the body must be fed. In Scott's Emulsion, the work is all done; that is, the oil in it is digested, all ready to be taken into the blood. The body rests, while the oil feeds and nourishes, and the hypophosphites makes the nerves steady and strong.

Had A Slow Trip. The New Island Wanderer was three or four hours late in arriving at this port from Cape Vincent on Saturday night. When in the vicinity of Mile point the steamer came to a stop and was obliged to use her searchlight in order to distinguish her position and course. She was greatly delayed by darkness and winds and did not reach her destination until after midnight. She had a number of passengers on board.

Didn't Know His Wife. When T. Coleman, a Bramford traveller, left on a three weeks' trip his wife was a yellow faced lagged out looking woman. When he returned he didn't know her. Her eyes were bright and her skin clear, and he walked differently. Merrill's System 1. See J. H. 50c. For 50 doses. Sold at J. J. McLeod's drug store.

Death Of Samuel Anderson. Samuel Anderson, Gananoque, died suddenly on Friday. Deceased was seventy years of age, and leaves a wife and large family. He was a pioneer in the town for many years employed by the W.P.A. The funeral took place on Saturday.

D. Bridger, Cataract, died on Friday, aged sixty. Deceased was a merchant. He leaves a widow and one son.

Shortly Arriving. Stephen Tugwell, Anshar Island, who underwent an operation in the general hospital for appendicitis, is improving slowly. He was feared at first that he would not rally, but yesterday the motion was put to the better and he was expected quite bright.

MOVING OFF TO THE WAR.

GIVE LIEUT.-COL. DRURY A FITTING SEND-OFF.

Golden Gates were Tendered the Officer to Whom Kingston's Member Aided a Fine Team—The Farewell Given on Sunday Afternoon was Enthusiastic.

Since it is decreed that "We cannot all be heroes and thrill a hemisphere," as the poet sings, it is left for the ninety and nine to show appreciation of courage and deeds on the part of the one chosen to manifest and demonstrate the same. There is many a gem in the path of life that is richer far than a jeweled crown, and undoubtedly one of the choicest of these is courage.

"All the world loves a lover" but reverses a courageous man, and humanity would lack an assuring trait if such were not the case. Since patriots make the sum of human things is not expecting too much to look for a little enthusiasm on the part of an appreciative public towards one of their number who goes forth to face the terrible conditions of an armed strife so forcibly described in three words by Gen. Sherman. Still, as hope leads the child to plant the flower, the man to plant the seed, so also courage leads patriots to look always on the sunny side and into the future when amid the plaudits of the crowd the strains of "Johnny Comes Marching Home Again" are heard from the front and the returned and war-stained hero, fresh from the scene of havoc on Africa's burning strand descends from the train into a circle of the ninety and nine, whom fate decreed should stay at home.

To make use of an axiom dear to the heart of Tommy Atkins, "A man without loyalty is like a pudding without fat," and to judge by events of the past week the old limestone city possesses few such "flats" as referred to in the axiom. To Kingston's representatives in the Transvaal contingent the citizens manifested their loyalty in a singular and enthusiastic manner. When it came to the turn of Lieut. Col. Drury, commandant of "A" field battery, to depart for the front, the people of Kingston showed every material that their stock of patriotism had not been sapped to its depths. Kingston is not a metropolis and has not the wealth of larger cities, but an overflow of earnest kind hearted citizens are not unmindful of their leaders in loyal sentiment and their purse strings are unloosed to their limit. It is not every day that Kingston is privileged to accept a position on the staff of a major-general conducting a huge campaign for the upholding of the honor and sacred traditions of Great Britain.

Lieut. Col. Drury, in which he showed the world that we appreciate the honor thus conferred upon one of our number and the historic city founded by Frontenac. To him who went forth yesterday and individually to every one who preceded him a week ago the wish of every Kingstonian is: "Bright be the future which both before thee."

Long and loved mayst thou go on thy way, God in his mercy watch tenderly over thee. Guarding thee ever by night and by day.

With the intention of bidding Lieut. Col. Drury an informal "au revoir," upwards of fifty of his friends civil and military, gathered at Hotel Frontenac Saturday evening. Max Rydell called the assemblage to attention at nine o'clock, and in a patriotic speech, couched in terms of loyalty and eulogistic of the characteristics of Lieut. Col. Drury, in which he said he had always found the gallant colonel true to his calling, a thorough officer and gentleman, his worship, in behalf of the citizens of Kingston, presented a purse containing sixty-five guineas. To this was added later on \$25 from Hon. William Hart, Kingston's enthusiastic and patriotic member of the House of Commons. Lieut. Col. Drury found some difficulty in framing a suitable reply, but he assured those present that their kindness had touched him deeply and would try to do his best under the folds of the flag they all loved so well and in the field of battle would be spurred on against the enemy by the thoughts of winning for the limestone city and its patriotic citizens.

The popular colonel was loudly applauded and the assemblage sang "For He's a Jolly Good Fellow." Lieut. Col. Drury, in reply, D. O. C., Prof. Garrison and others, delivered short addresses during the evening. The mayor's health was proposed by Lieut. Col. Drury.

Lieut. Col. Drury was surprised at the treatment accorded him in Hotel Frontenac Saturday night. He must have been astonished at the amount given him Sunday at noon. He expected to slip out quietly but he was not to be so easily deceived. The train which he arrived at the Johnston street station of the Grand Trunk railway he found thousands assembled there. All the battery officers, non-coms and men 14th battalion accompanied him to the depot and bidding citizens in countless numbers cheered him as he drove up, accompanied by Mrs. Drury. The 14th battalion band was in attendance and received him with "For He's a Jolly Good Fellow." Later on the band played "Auld Lang Syne," "God Save the Queen" and other appropriate selections. The crowd will remember the color of the outer depot filled two coaches and a baggage car. At the outer depot there was more music by the band and a short address by the departing officer, who was received by Gen. F. N. McGilgan, general superintendent of the Grand Trunk, to accept the use of his private car. St. Lawrence, to his journey end at Ottawa. Mrs. Drury and Capt. Oeslyne accompanied Lieut. Col. Drury. Before entraining the train named bid good-bye to each handsomely in person. As the train pulled out with Lieut. Col. Drury on the rear platform he was cheered until the sound of the multitude of voices killed the noise of the train. The cheering was led and timed by Hon. William Hart.

Lieut. Col. Drury wore the outfit that he will carry while on duty on the field of battle. There is not much scarlet or gold about it, but it is very serviceable. He will be attached to Gen. Buller's personal staff, so that if there is any "fighting" going on Lieut. Col. Drury will be very much in it.

Can't Help Being Grumpy. It's the effect of dyspepsia on the nerves that make the affected one morose and cranky. They can't help that though until they take Merrill's System Tonic, the only positive cure (not relief) for dyspepsia, nerves and bowels. Pleasant to take and these weeks' treatment for 50c. Sold at J. J. McLeod's pharmacy.

The Brockville men on the Transvaal contingent etc.: Robert J. Hogan, Charles A. Donaldson, Richard Turner, Harry W. Fisher and Harold Ross. The contingent is one of the late Hon. G. F. Fraser.

GOOD COAL.

It is a matter of pride with us to sell good coal—to satisfy every customer. It is a matter of business as well. It is cumulative business—we are after.

The best coal is that on top of the pile, and the early buyers like the proverbial worm, have the advantage. Thrift and convenience say "Buy now."
