#### A Fine Truck.

The new fire ladder truck, or, to be more correct, the old truck remodelled, is a thing of beauty and may it be a joy to the brigade and citizens alike as long as it lasts It is handsomely painted and provided with running boards on either side for the accommodation of firemen. These running boards also form shields over the wheels to prevent them throwing mud over the men. The truck is so constructed that any particular ladder required may be removed and replaced without the necessity of handling the others. Hitherto the only ladder which could be lifted with expediency was the one riding on top, but now any one ladder may be taken from the tail board. It is quite a monument to the pany laid. executive ability of the enterprising chair. man of the fire and light committee, alderman Toye.

#### Wants The Balance

The law firm of Gormully & Orde, Ottawa, at the request of T. S. Kirby, liquidator of the defunct Canada granite company, have demanded from the corporation of the city of Kingston payment of a balance of \$92.80 which the city retained from the company at the time granolithic walks were laid. The city is not likely to pay over the amount, notwithstanding the statement that Mr. Kirby is anxious to wind up the truck and replaced without the need of company's affairs, because the company, touching the others. The truck is a strong, by the terms of contract between the city substantial looking affair with "business" and the company, is bound to make good bustling from all parts of it, from shaft to certain defects in the walks which the com-
