CRAZY WITH ITCHING

Extreme on Head. Got into the Eyes. Doctor & Institute Could Not Cure. Cured in 2 Months by CUTICURA.

I have been troubled over two years with eczema on the top of my head. It first started to itch, and became sore. My doctor said it was eczema, and treated me for six months, with failure. I tried a New York Institute, which treated me for four months, but could not reach any further than the rest. I had it worse than the start, as it commenced to get in my eyes, and nearly got me crazy with itching. I noticed your advertisement in the N. Y. Herald, and thought I would try CUTICURA. I received the medicine, and I did not know that I had any trouble at all, and I feel like a new man now. ALFRED REBEL, Oct. 12, 1898. 625 W. 45th St., N. Y. City.

OVER THE TEA CUPS.

In a letter to the London (Eng.) Mail, George Lacey furnished the following most interesting information regarding the standing and history of the Boers in South Africa. He says:

I first went to South Africa in 1862, and I knew it as not half a dozen others had known it prior to the railroad era. I know the Boers root and branch—stocks, lock and barrel. I have hunted with them in almost every hunting ground in South Africa. I have fought for them throughout the Transvaal and Free State. I have their diamonds with them in their hand and consultations and surveys have lived in their houses, and been a guest in hundreds of their farms. I have written the biographies of all their explorers and the history of many of their most famous deeds. And with all this knowledge of them, my estimation is that they are the craftiest, most untruthful, cruelest, most ignorant, most voracious, most unscrupulous and stupidest race of white people in the world. A heavy indictment, but a true one.

He then goes on to point out some of the misapprehensions and errors which are common among the British public as regards the Boers. One is as regards the first occupation of the Cape. The British flag was planted there in 1652, years before the Dutch advent. The Boers are not the original occupants of the original Cape Boers, but the Dutch, being in a majority, ruthlessly forbade the use of the French language. The Boers are not the original occupants of the original Cape Boers, but the Dutch, being in a majority, ruthlessly forbade the use of the French language.
