FOOTBALL SEASON CLOSING.

OTTAWA COLLEGE ABSOLUTELY REFUSE TO PLAY.

The Granites Ready for To-morrow's Struggle—Trial of Burnside's Rules Not Satisfactory—Some Football Truisms—Follow the old Football.

"Jigger" Robinson has been invited to go to Pittsburg, Pa., to play hockey. He has the matter under consideration.

The gymnastic exhibition to be given this evening at the military college by the cadets for the major-general will be a star performance.

The game forever, rush her up,
Tackle him low or anywhere at all;
Pass her back or kick her ahead,
And follow the old football.

If Granites become the Ontario football champions to morrow there will be a great jubilation in Kingston. If they do not, business will proceed here the same as usual.

There will be a regular shaking up in hockey matters in this city this winter. If affairs turn out as at present expected, Frontenac hockey team will be equally as strong as the team of last year.

Owing to bad weather at their football matches this year Queen's college athletic association has gone behind several hundred dollars. The receipts at the two senior matches here were only $144.

Ottawa college football men have refused to alter their decision not to continue in training after 25th November. The Quebec union executive meets Monday to discuss the situation for Ottawa college.

The football at Queen's yesterday afternoon between Divinity hall and Science hall resulted in a victory for the science team by 13 to 0. During the game one divinity player was ruled off for a violation of the rules.

To-morrow's match will be the last in which Rayner will appear with the Granite football team. On Sunday he will leave Toronto for Pittsburg, Pa., where he has received a good position. His absence from Kingston will be a serious loss to Kingston's athletic teams. Rayner is counted the peer full back of Ontario, while on the ice he has few, if any, superiors as a hockeyist.

Every member of the Granite team who went to Toronto to day was in the acme of condition and bubbling over with assurance of winning the game to morrow. Manager Elliott is very reticent as to what players will be chosen to win the championship, but he says it will be the strongest outfit Granites ever put on the field. The personnel of the team will not be known until they line up on Rosedale grounds.

The Ottawa Journal says: The Rough Riders anticipate a harder match than they had here against the Granites, as the latter team will be strengthened on several points, and they are playing an old style of game with twelve men on the line, which will be a dangerous one for themselves if the Ottawa halves can kick quickly, as bringing two outside halves up on the line leaves their field uncovered. However, those who play that style of game count on demoralizing their opponents' back division. It is reported that the Granites will play several Queen's men, but this would be a violation of the Ontario union rules.

The Burnside rugby rules were given an exemplification at Toronto on Tuesday on Varsity campus by teams selected from Varsity and the ranks of Bishop Ridley college, St Catharines. Both teams had been subjected to some schooling in the new rules which reports intimate are not altogether a success. The snap-back system instead of the heel out of scrimmage is a noticeable improvement, but the rule of keeping wings apart allow the forward line to break through and tackle the quarter or halves, thus preventing the team having the ball making the requisite ten yards in the limited three downs. The new rules afford many opportunities for brilliant tackling. Possession of the ball plays an important feature in the new rules, as a good, heavy back division could tear any forward line to pieces. It is felt that the new rules would result in more fractures and strains from heaving, charging and tackling, than under the present system. Throwing in from touch is not practised, the ball being scrimmaged fifteen yards in. The new rules verge closely on the American game. Halves catching the ball are protected from interference under penalty of ten yards and a free kick. The style of play followed in Tuesday's trial was to give the quarters or halves two chances to gain ground by backing the line. When the requisite ten yards was not thus gained the ball was snapped directly back to the centre half, who kicked. The new rules require the field to be marked off in five yard lines, the same as the American football field.

Some Football Truisms.

Fighting players meet their match.

The only perfect footballist is a dead one.

It is a long football match that has no ending.

The ball always comes to the full back who waits.

A full treasury often makes a professional team.

An outside footballist is not without honor, save in Toronto.

It is a wise father who knows his own son in a football match.

It is more blessed to give than to receive —punches on the solar plexus.

Some people are more afraid of a football match than they are of sin.

If a player is an all sharp, the other fellow never sits on him more than once.

Victory is not the only reward; there are the wise suppers of a grateful people.

When you punch a player on the jaw be sure the blow will be returned with interest.

To err is human, but with some players every match is a bargain sale in this respect.

The mountain would not come to Mohammed; neither will the goal posts come to a player.

One touch of nature may make the whole world kin, but one converted touch makes a whole football team rejoice.

Never consent to be a second class player. Such a player has a poor chance of catching a place on the team.

The tallest peaks catch the first and last glints of sunshine, but the tallest man does not always get the ball on the throw in.

An upstart is a fellow who stands on the touchline and thinks how much better he would play the game than the men on the field.

If some players could see themselves as others see them they would never go near a football field and would shudder at the sight of a football.

O. R. A. Amendments.

There are just three amendments to be discussed at the Ontario hockey association annual meeting on November 25th, at the Queen's hotel, they being as follows: 1. To raise the junior age limit from twenty to twenty-two; 2. a player must reside in a town or city for thirty days before he is eligible to play on any team; 3. to combine the office of secretary and treasurer.

Applied For A Commission.

A meeting of officers of the 5th Kingston field battery was held yesterday afternoon for the purpose of discussing regimental matters. Many details of importance to the welfare of the corps were brought forward. An application for a commission was received from Dr Ashland Oronhyatekha, Deseronto, was read, approved and forwarded to the militia department for confirmation. Dr Oronhyatekha's application is unique in its way. If accepted by the militia department he will be the first full-blooded Indian in Canada to receive a commission in the Royal Canadian militia. He is a graduate of the medical department of Queen's university.

Guaranteed Cure for Catarrh.

Catarrhozone, catarrh air cure, is guaranteed to cure chronic catarrh, asthma, bronchitis and hay fever. It cures by inhalation. The medicated air is carried directly to the diseased parts, where it kills the germ life that causes catarrh, and at the same time heals up all sore places, and a permanent cure is effected. Catarrhozone when inhaled is volatile enough to impregnate the minutest cells of the lungs and bronchial tubes, where it attacks the disease at its foundation. It cures because it is sure to reach the right spot. Sold by all druggists. Price $1; trial outfit ten cents.

Capt. Clyde Was Successful.

Capt. Clyde, of Wilton, has returned home after taking a course at the school of cavalry, Toronto. He bears back with him a first class certificate. He will now get his promotion and be given the command of that magnificent body, the gallant 4th Hussars, as successor to Lieut.-Col. Duff, retired. Capt. Clyde is a sturdy son of Mars and a genial gentleman whose latest success gives pleasure to a large host of friends. May he continue to climb the ladder of success and fame.

A Wonderful Medicine.

BEECHAM'S PILLS

For Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fulness and Swelling after meals, Dizziness and Drowsiness, Cold Chills, Flushings of Heat, Loss of Appetite, Shortness of Breath, Costiveness, Blotches on the Skin, Disturbed Sleep, Frightful Dreams, and all Nervous and Trembling Sensations, etc. These ailments will arise from a disordered or abused condition of the stomach and bowels.

Beecham's Pills will quickly restore Females to complete health. They promptly remove any obstruction or irregularity of the system. For a

Weak Stomach, Impaired Digestion, Sick Headache, Disordered Liver, etc.,

they act like magic—a few doses will work wonders upon the Vital Organs; Strengthening the Muscular System, restoring the long-lost Complexion, bringing back the watch-fires of beauty to the cheek, imparting vigor and energy to every function of the body. This is a fact admitted by thousands in all classes of society, and one of the best guarantees to the Nervous and Debilitated is that Beecham's Pills have the largest Sale of any Patent Medicine in the World.

Without the publication of testimonials.

Beecham's Pills have for many years been the popular family medicine wherever the English language is spoken, and they are used without a rival.

25 Cents at all Druggists.

SOME HOT WORDS SPOKEN.

THE COUNTY COUNCIL IS NOW AT WORK.

Report of Property Committee—Mr. Reynolds Defends Himself—Mr. Hughson Goes for Mr. Toner—A Calm At Last Prevails.

A session of the county council was held on Thursday afternoon at half past two, all the members being present.

A letter from Dr. Third, superintendent of the general hospital, stated that he would gladly receive the members at the hospital if they desired to make a tour of inspection.

Mr. Hughson stated that in the late treasurer Vanluven's examination before committee, he stated that on his leaving the office there was $69 there belonging to the Waterloo and Sydenham road. The speaker thought that as the application had been made for this money by the townships of Storrington, Kingston, Loborough, Portland, it should be handed over to the various treasurers.

Mr. Toner held that the council would not be justified in taking Mr. Vanluven's statement, which was not reliable in other points. Mr. Hughson, however, pointed out that the amount mentioned had been found in a box in the treasurer's office. Mr. Avery thought it would be better for the townships to give a statement due them for their roads. If there was a record it would be better that it be found.

R J Spoor presented the report of the county property committee. It was as follows:

That the matter of insurance of the county buildings be left with the chairman and that he call the committee together on arrival of the policies. That tenders for jail supplies be awarded thus: Bread, E. Culcheth, Portsmouth, at 2½c. per pound; meat, Waddington Bros., at 6c. per pound; groceries, J. S Henderson. That these accounts be paid: Simmons Bros., $71.41; Oram & Carter $18 20; board of education, damages to gymnasium, $35; Free & Lipton, $14 40; Joseph Dauser, Toronto, $25; P. Walsh, $2 35; Carnovsky manufacturing company, $3 50; Smith Bros., 50c; F Nisbet, $4 65; T McAuley, $7 50; C. H. O to, $1 50; Joseph Frankhu, 90c; R Waldron, $2; T McAuley, $4 50; Canadian Freeman, $6 50; Elliott Bros., $39 64; John Smith, $1; Municipal World, 83c; Kingston light, heat and power company, $100; J B McLeod, $3 60; James Reid, $36.35; county treasurer, $6 25; county clerk $6.44; J A. Skinner, $6 15; A H. Millar, $3 10; R Uglow & Co., $4 65; A. Chown, $2; T McMahon, $1 25; J. B McLeod, 90c; J Gilbert, $5 45; W A. Mitchell, $29 11; A. McMahon, $1 50; T. McMahon, $141 40.

A discussion arose, led by W. H. Reynolds, as to whether or not the Times printing contract should not have covered the printing of billheads and of notices for various sales. J. N. Hughson held that neither of these came under the regular printing contract. The printing for sales was an advertising affair.

R H. Fair asked if tenders had been asked for the putting in of lighting apparatus in the jail. Mr Spoor stated that there were no tenders advertised for, but estimates were got from the various concerns in the city, and the lowest estimate was accepted. Mr. Toner said that one party in the city was kicking because he had not been asked to give a tender. The warden said he doubted if the work could have been done any cheaper than it had been by Mr. Brock.

The clerk had been reading all the bills item by item, and in one of them the amounts were very trifling. Mr. Toner thought it was a waste of time to have such amounts read out. Messrs. Reynolds and Fair held that the small amounts should be considered as well as the larger ones. They were guardians of the people's money and it was a matter of principle to watch large and small, and this should be done.

Mr Reynolds referred to the article in the Times on Wednesday about an account presented to the council on Tuesday for fixtures and furniture to the sheriff's office. Mr. Reynolds described the paper as one which had no standing whatever in the community. He denied the charge made that when the account was presented on Tuesday, he suggested that the clerk skip the details of the account. There was no necessity for reading the items, as the account had to come before the property committee. Then the council could examine it when it came before them. He had nothing whatever to hide from the council on this matter. Mr. Reynolds proceeded to score the Times for its actions during the past year, and referred to Mr Fair's action in forcing on an investigation into the ex-treasurer's doings as a waste of the county's money.

The discussion then drifted into the proposed appointment of a royal commission. Mr. Toner stated that he did not favor a commission because he thought no good would come of it. Mr Hughson sailed into Mr Toner for agreeing to become a member of the investigation committee which looked into the Vanluven mystery, and drawing money for sitting. Mr Hughson thought that action of Mr Toner was dishonorable when he did not agree with forcing the matter on. Mr. Toner answered very sharply and stated that Mr. Hughson had put him on the investigating committee just as a farce, and he had sat upon it because he had a perfect right to do so, whether he was in favor of it or not. At this juncture Mr. Fair discovered that the members were all out of order, and called the attention of the good-humored warden to this. Mr. Fair thought that as the sun had gone down, and the calm of evening had fallen, the angry feelings of some members would subside.

Mr. Reynolds moved and Mr. Avery seconded a motion that the clerk do not read any further items of the accounts.

Mr. Spoor stated that he would give information on any account a member desired.

Mr. Mosier, in speaking of the defalcation investigation, held that it was necessary. The people of the county demanded it, and it had been promised to them at the time of the last election. He was sorry to see so many hard words spoken at the session. "One would think," he said, "that the Boers had come over, so much sharpshooting was there." The other members applauded the words of their colleague, who sat down looking very wise.

The council then adjourned to meet at ten o'clock this morning, having sat for two hours and a half without doing anything whatever.

This Morning's Session.

At ten o'clock this morning the council again met. Two deputations were present to be heard. One consisted of J. McKelvey, R Crawford, Dr. Gardnris and G. Y. Chown from the school of mines, and the other of Dr. Smythe, Dr. Third, R M. Britton, M P., and Rev. S. Tighe on behalf of the Kingston general hospital.

R J. Spoor submitted the report of county engineer Smith who reported the Kingston-Napanee road to be in a thorough state of repair. He called the attention of the council to the stone bridge east of Cataraqui which was in need of some repairs. The report was received.

Dr. Smythe was the chief speaker on behalf of the hospital, and pointed out the great necessity of the hospital's revenue being increased. Last year there was a deficit. Referring to the patients from the county treated at the hospital, 195 out 257 were unable to pay anything, and the expense to the hospital in treating these 195 amounted to $1,776. Last year the county council gave a grant of $400, which the speaker thought very liberal, but as the need of the hospital was continually increasing the municipal grant must be raised. He asked the council to think over the matter and give a larger grant this year than ever before. B. M. Britton showed how local assistance is more needed. The government grant to hospital has now to be divided among a great many institutions, as new hospitals are springing up in the towns, and the government grants to the larger hospitals have therefore been decreased. Dr. Third also made a few remarks.

The school of mining and agriculture deputation also asked for an increased grant. Mr McKelvey stated that this year the board of governors was called upon to spend $6,000 for additions to the mining school. The county derived much benefit from these schools. Dr. Goodwin showed the financial benefit derived by the county from the students. He also mentioned the mining industry which was being developed in the county through the result of the mining school being placed in Kingston. G. Y. Chown and R. Crawford also spoke for an increased grant.

W. F. Nickle put before the council the needs of the house of industry. There is a deficit this year of $250. Mr Nickle asked that a committee from the council be appointed to confer with the directors and see if some arrangement could not be made for county inmates for the coming year, i.e., make it a city and county affair. He asked for a grant for the county work done by the house of industry during the past year. Over 1,600 days' board was furnished free to county poor, this costing about $500.

The clerk then proceeded with the accounts of the property committees. The warden thought that too much time was being wasted by reading over the items, and he suggested that the report be received, and then that any member who doubted an account, could ask questions about it. Mr Spoor objected to this as he did not want to attend to a lot of newspaper correspondence asking for explanations on the matter after he went home.

Moved by M. Trousdale, seconded by William Mills, that the report of the property committee be received and adopted. R H Fair wanted to know if all the changes in the sheriff's office were ordered by the committee or did that officer discard old furniture, buy new things and charge them to the county on his own account. The bill Mr. Fair referred to was one of James Reid & Co. for $56 20 for furniture. Mr. Spoor, chairman of the property committee, said he had been instructed by his committee to expend about $133 on the sheriff's office. This amount he allowed the sheriff to spend, but did not specify how it was to be spent. The only question which could be raised was whether the expenditure was judiciously applied. Some of the old furniture in the sheriff's office belonged to the late sheriff Ferguson's estate, and it had to be replaced. Mr. Spoor further said that it was about time that furniture was put into the offices of the court house which would be in keeping with the place and compare more favorably with the institution. In support of the statement that the money spent last year on the court house had been judiciously applied. The clerk, at the request of Mr. Spoor, read the last report of the grand jury.

Mr Toner held that the money spent on the sheriff's office should have been more evenly divided. The clerk of the high court deserved to have some improvements made in his office. He did not believe in giving one office chairs which would cost fifty cents each and another office ones which would cost $10. Mr. Avery also spoke on behalf of the offices which did not press their claims. He favored the continual spending of money on the building and in the offices.

The report of the county property committee was adopted, and the council adjourned to meet this afternoon at half past one o'clock.

CITY AND VICINITY

The Best Value in the City.

Provost has a great variety of overcoating to beaver, melton and Irish frieze, in all shades. His English chevriot for suitings or overcoatings at $13.00, made to order, cannot be beaten.

Sale Of Harness & Mitts.

Goods will continue all day to morrow at Laidlaws. They promise some very tempting bargains in ladies' wool underwear, cashmere hosiery and ribbons, in order to sell the entire lot before Tuesday night.

Is Your Wife Ill-Tempered?

Examine her feet, and if she has corns buy her Putnam's Painless Corn Extractor. Home will then become an Eden. Much of the misery of married life is due to corns. Putnam's Extractor is sure, painless and prompt.

Big Sales of Stoves.

A local hardware merchant stated this morning that he had sold more stoves this year than during any previous year he had been in business. He is unable to account for the rush. Stoves, like all other ironware, have advanced in price.

Applying For Commissions.

Chief Keeper W. S. Hughes, Kingston penitentiary, Dr. Daly and Arthur D. Cotter have applied for commissions in the 14th P.W.O. rifles. Their applications have been forwarded to the militia department for confirmation. Capt. John Redmond has also applied to be again given command of a company.

Hard On the Back Business.

That great discovery made by a Brantford druggist and known as Four T's does away with backing and coughing in two days. As a lung tonic and lung tissue reconstructor it has no equal. Children take Four T's and it cures whooping cough and croup. Price 25c per bottle. Sold by J. B. McLeod, druggist.

More Would Be Acceptable.

At present there are twenty four nurses at the general hospital, but the increased work of the institution demands a greater number. Six or eight more are required, but until a new building is provided, there is no accommodation for a larger number than already there.

Are Kidneys Fit To Eat?

Many people enjoy stewed kidneys. Did they know that it is the kidney that absorbs all the soluble impurities from the blood they would not eat them. Morrill's System Tonic reconstructs kidney tissue, tones the kidney, and by abstenting on the bowels, makes a complete cure of all kidney complaints. 50 pleasure to take dose for 50c. Sold at J. B. McLeod's pharmacy.

THE BEAUTIES OF CANADA.

AS PICTURED BY W. H. WILSON'S CAMERA.

A Splendid Entertainment at the Y. M. C. A. Building Last Evening — Magnificent Views of the Lovely scenes Along the Rideau, Ottawa, Gatineau and Madawaska Rivers—An Englishman's Good Opinion of Us.

One of the first of the Thursday evening entertainments at the Y. M. C. A. was given last night to an audience, which, if not large, was enthusiastic and appreciative. "The Backwoods of Canada" was the title of an illustrated talk by W. H. Wilson, of the city. This gentleman is well known as a traveller, a hunter, an amateur photographer, but there are perhaps few who are aware of his wonderful skill in transforming his pictures into stereopticon views. All of the pictures shown last evening were taken by Mr. Wilson's own camera during different incursions and excursions into the country surrounding the Rideau lakes and river, the Ottawa river, the Gatineau, etc. Then, when leisure offered the opportunity, he made his own slides from the negatives, and he made them well. Without a single exception the various views far surpass any shown in Kingston during the past two years. Those now being presented at Victoria theatre by the "war-graph" company have not the nicety of finish and the clearness and trueness of detail as are found in each of Mr. Wilson's pictures. Alfred Dean, janitor of Queen's science hall, ably managed the electrical part of the outfit.

Mr Wilson opened the entertainment with a finely-worded exordium, in which he referred to the unexcelled natural beauties of the Rideau, the Ottawa and the Gatineau. As a Canadian, he said, he was proud of his country, unequalled as it was in all the world. As Kingstonians we should congratulate ourselves that we are so near to Nature's heart. The opportunity is ours to see the glorious rapid—that emblem of gigantic power—to gaze upon the placid lake, to view the winding stream and to behold the beauty of green fields and rocky mountain heights. Among all these the speaker had often travelled, and he had attempted to perpetuate the fascinating scenes.

The first two views shown were of scenes at Kingston Mills, and the familiar places were as true as life. Among the many pictures shown were the following: Parliament buildings at Ottawa, lakes Opinicon, Cranberry, Indian, Big Rideau and others along the Rideau route, Ottawa river rapids, party of lady hunters, Madawaska river falls, Ottawa river falls, scenes along the Gatineau rapid and Ottawa rivers, silly time at sugar making in the back settlements, and scores of others too numerous to mention individually. Mr Wilson kindly described each scene, and interspersed the programme with many a bright story told in his genial way. The audience much appreciated several excellent pictures of the steamers Hero, Sovereign and James Swift, and of our own Dr. Black bearing proudly along a rabbit and thirteen fine partridges.

The pictures were all taken within a radius of forty-five miles of Ottawa. The falls shown in this vicinity represent a total of 3,347,630 horsepower, according to the government's report. At low water the power would be 917,103 horse. And yet this gigantic power is allowed to go to waste! The following list will give the reader some idea of the heights of these numerous and remarkable waterfalls: Dawson falls and Eaton chute, in the Gatineau river, 60 and 20 feet respectively. Portage du Fort, on the Ottawa, 13 feet. High falls, on the Madawaska, 50 feet. Calumet falls, on the Ottawa, 35 feet. Coloance, on the river of the same name, near the Ottawa river, 128 feet. Black river falls, near the mouth of the Ottawa, 120 feet.

T. F. Harrison moved a vote of thanks to Mr Wilson for his kindness in gratuitously giving his services to the Y.M.C.A. Arthur Ellis, in seconding the motion, said he had seen exhibited many scenes in England, mounted by experts, but those stood second to none he had ever beheld. Dr Anglin, chairman of the evening, tendered the thanks to Mr Wilson, who briefly replied, concluding with the patriotic words: "If those views teach us to love our country better, then I am well repaid."

Before the meeting was brought to a close Mr. Fitzgerald, of Cardiff, Wales, who is visiting friends in the city, took occasion to say a few words which were warmly received. "I am very much gratified," he declared, at the splendid exhibits of pictures of your country. I wish to express to Mr Wilson my thanks for his kindness. I had no idea there were in Canada such beautiful spots. Those views exhibited with good lectures in Great Britain would stimulate many young men to come across and settle here. You have something of everything that is beautiful. It is the desire of Englishmen to do all the business they can with Canadians. If Canada would only place her produce on the English market in better condition as overseas trade would result. Your chief grievance would assist her to do this. It has brought Canadian butter to the second place it occupies to-day among Englishmen."

The speaker was warmly applauded for his noble sentiments, and the meeting broke up.

Tenders for the rolls receivable at gates Nos. 1, 2 and 3 on Kingston and Portland road will be received by R. V. Rogers, agent, Kingston, up to noon of Saturday, Dec 2nd.

There are three conditions:
When the blood is poor;
When more flesh is needed;
When there is weakness of the throat or lungs.
There is one cure: that is Scott's Emulsion.

It contains the best cod-liver oil emulsified, or digested, and combined with the hypophosphites and glycerine. It promises more prompt relief and more lasting benefit in these cases than can be obtained from the use of any other remedy.

50c. and $1.00, all druggists.
SCOTT & BOWNE, Chemists, Toronto.

Pointer No. 34. The sure road to success lies, not in correcting others, but in learning to be perfect yourself.

ON TIME.

We make it a point to deliver coal on time—not five minutes after it is promised, not an hour after it is promised, but on time.

We want your coal trade. If you will give us a trial, we will treat you so that we will keep it. The first order is all we are anxious about. After that, you'll come here, anyway.

Foot of West Street.

A Good Wife is she who makes her husband's income cover the most good things. Proper spending is more than earning. If she saves on the grocery bills she has more with which to buy Carpets and Furniture. If she is wise she comes to us, for nowhere else can she get so much for so little.
