The most recent news from Kimberley comes by way of Pretoria and almost seems to show that Kimberley and Mafeking are work ling in concert with Gen. Sensible Table Knives.

Eirks' catalogue is not only a compendium of current art in jewellery, it contains much of interest to the practical house-wife. For instance it tells of hand forged Sheffield steel blade Table knives and Carvers with Xylonite handles. The common-sense of these knives is that they are made to cut, an appreciable distinction between them and the average "silver" article which is often anything but a practical cutting utensil. The Xylonite handle is better than ivory because neither hot wafer nor the Canadian climate will cause it to crack, yet it so accurately resembles mellowed ivory that none but an expert can say it is not ivory.

These knives are good enough to be put into sterling silver company. They cost from \$4.00 to \$9.00 per dozen, according to shape, the quality being the same in all.

Hutchinthe Rossin House Drug Store

Thanks to the very high standard our Canadian Government demands in pharmacy, the druggists who practise in this country are an exceptionally gifted set of men and have anatomy, matera medica, etc., at their finger tips. Toronto is especially fortunate in this respect, and among those whose name is a synonym for rigid purity, and only the best in drugs, is George Harbottle, the proprietor of the Rossin House Drug Store. Mr. Harbottle was chatting with several friends the other night, and expressed some pretty outspoken views on Hutch. "Hutch," said he, in his terse, vigorous style, " is to my mind a perfect treatment for dyspepsia. It is quick, you don't have to wait an hour to be relieved from pain, and it is ultimately beneficial. We have several people who claim to be cured by Hutch after every other treatment has been tried by them. Everybody is taking Hutch, and some of our high civic notabilities are among its warmest friends. Hutch cures. When I have an efficaceous remedy I recommend it. I recommend Hutch every time."
