For the first week in December the earnings of the Grand Trunk were \$518 381 Compared with the earnings for the same period of the previous year there is an increase of \$94,085.

The final crop bulletin for 1899 has been iseued by the Manitoba department of agriculture The total wheat yield for the year is estimated at 27 922 230 bushels, an average of 17 13 bushels per acre. In the August bulletin the estimated wheat yield was 33 504,766 bushels. This was considered at the time a conservative estimate, as a greater yield than 20 55 bushels per acre (as reported) was generally expected.
