This company has secured all the rights and patents of Oliver L. Gardner for the manufacture of Artificial Lumber.

This material has been manufactured for a period of twelve years and is gradually taking the place of lumber for inside decorations on railroad cars and all classes of buildings.

It can be used as a substitute for plaster and lath in building, as it is sound proof and temperature proof, and it is FIRE PROOF.

The economies and savings in the construction of cars and buildings, and many other things heretofore made of wood and plaster, made possible by the use of this lumber, are very large.

It is manufactured from a WASTE material of which there is an unlimited supply, and consequently capable of earning large dividends owing to its low cost of construction.

The engineers of the Guaranty Development Company, 10 Wall Street, New York, have made a full examination of the nature of this artificial lumber and the uses to which it can be put and they report that its value as a commercial article is practically unlimited. A detailed report of this examination can be seen at their office.

PATENTS.

New patents have recently been obtained and applied for covering a process for the manufacture of this material in the United States, Canada, Mexico, Great Britain, France, Germany, Belgium, Austria, Russia, and Australia, which gives to this company an ABSOLUTE MONOPOLY.

Careful consideration of work, which has cost over FOUR HUNDRED THOUSAND DOLLARS to date, has been put into this enterprise to develop it up to its present finished condition, so that, after long usage, it now stands as a recognized commercial commodity by architects, builders, decorators, and manufacturers of railroad cars, steamships, and boxes, and there is positively no question regarding its practicability and future position as a substitute for wood in all its uses and decorations for inside work. The company now has orders which guarantee a continuous demand larger than it is capable of filling with the present plant.

The gradual decrease in the supply of wood in the world and the increase in the demand for same, particularly the grade that is used for interior decorations, is a well known fact, and consequently this substitute for wood is much more valuable as a commercial commodity under these conditions than any new commercial proposition has been for the past twenty years.

PLANTS.

A plant is now erected (fully equipped with machinery) at Barberton, Ohio, for the manufacturing of this material.

A plant will be erected within the vicinity of New York, one in the West and one in Canada, each with an earning capacity equal to the one at Barberton, Ohio.

FINANCIAL.

The earnings from the Barberton plant will, after paying six per cent. interest on the \$1,500,000 of prepared stock issued, pay five per cent. on the common stock issued, and after the erection of the plant in the vicinity of New York city in the West and in Canada the earnings of this company will be \$1,800,000 annually.

Applications are now in hand from prominent European bankers to organize corporations to manufacture and sell this artificial lumber in England, France and Germany, and as the United States company own all the foreign patents a large percentage of the profits of the foreign companies will revert to the Artificial Lumber Company of America.

The books for subscriptions will open on the 18th day of December, and will close on the 23rd day of December, 1899, at 3 p. m.

Twenty-five per cent. of subscriptions are payable on application and the balance on allotment on or before January 5th, 1900.

COMMERCIAL MATTERS.

What is Going on in The Business World

—The Market News.

Some 1,183 boxes of cheese were offered in the Montreal cheese market on Saturday. It ranges in price from 11 1/2 to 12 1/2 a pound. It will be shipped to Liverpool.

The statisticians of the department of agriculture reports the wheat crop of the United States for 1899 at 547,300,000 bushels, or 12 3/4 bushels per acre. The production of winter wheat is placed at 291,700,000 bushels and that of spring wheat at 255,600,000 bushels. The newly seeded area of winter wheat is estimated at 30,150,000 acres, about 200,000 acres greater than that of 1898.

Another Break in Stocks.

MONTREAL, Dec. 19.—On the stock market this morning there was a still further break in price, but towards the noon hour there were indications that with a few more, the demand giving prices an upward turn. After the close of yesterday's board brokers worked late into last night figuring out the standing of their speculative clients after the big drop and as the result there was a wholesale calling for additional margins. In a good many cases these were not forthcoming this morning with the result that a good deal of unfilled liquidation took place. Canadian Pacific dropped to 84; Royal Electric to 180; Toronto Rails to 97; Galt to 133; Twin City to 33; Richelieu to 100; Montreal Street to 279; Dominion Cotton to 95; Cable to 133; Republic to 96, and Payne to 84. At the close of the morning board prices had recovered as much as five per cent. in some cases.

The local wholesale grocery trade is very quiet at present, as is generally the case about Christmas.

The demand locally for dried apples is great. Wholesalers find it hard to tell evaporated apples.

Live Stock Market.

MONTREAL, Dec. 11.—There were about 1,100 head of butchers' cattle, sixty calves and 1,500 sheep and lambs offered for sale at the stock and slaughter to day. The butchers were out in full force, and the trade was not brisk, as the supplies are excessive for besides the cattle offered on the market, there were several hundred more held over in the stables at the stock yards, waiting until there were better prospects for making sales. Extra Christmas beef sold at from 5c to 5 1/2 per lb. prices ranged at from 4 1/2 to 4 3/4, and the common cattle at from 3c to 3 1/2 per lb., while the lesser beasts would bring considerably less than 3c per lb.

George Nicholson paid 5 1/2 per lb. for four superior cattle, and Mr. Girard bought an extra pair at the same rate. Mr. Levesque paid 4 1/2 per lb. for five choice cattle and 4 1/2 per lb. for 141 good lambs;

Effects of Fast Driving.
Fast driving on the streets should be strictly prohibited. The parents of children should be sufficiently interested to agitate for better regulation of the evil. The law fixing the rate of speed is broken scores of times each day and no attention paid to the infractions. Children must have some place in which to play and to many of them the street is the only available place. This would be perfectly safe if the by-law was enforced and serious driving forever put a stop to. Nearly every day some child is injured, and every yesterday a little boy was seriously hurt.

BOUND FOR SOUTH AFRICA.

Three Batteries Will Likely Be Sent—The Balance Wanted Infantry.

OTTAWA, Dec. 19.—The cabinet is in session this afternoon and the composition of the contingent will be made known after it is over.

It is generally understood now that three batteries will be sent and not two as at first intimated. The balance, of course, will be mounted infantry.

The department will be busy with the arrangements and there will be no delay in getting the contingent off.

Leut. Col. Pinaulu has communicated with the firm of H. & A. Allan, the Dumfries line, and Elder, Dempster & Co., in regard to securing two transports to carry the troops.

The twelve field guns, eight waggons and 940 horses, with 1,000 men, would make it necessary to charter two troop ships. The cost would be about \$240,000, as the Allan's bill for the Saridanian was \$118,680.

Antions To Go To The Front.
WINDSOR, Dec. 19.—Capt. Williams, Royal Canadian waggons, said with regard to the possibility of his command going to South Africa that, of course, no official advice had been received by him yet, but that he would welcome an opportunity to see service in the Transvaal, and his troops were delighted at the prospect, and would be disappointed if their hopes were not realized.

Since the cable from the war office announcing that they would accept and give preference to a mounted contingent, Capt. Williams said he had been besieged with applications from aspirants for military glory. Most of these applications came from Winnipeg and South Manitoba. Over twenty five were received yesterday.

Make Good South Riders.
EDMONTON, N.W.T., Dec. 19.—There is a strong feeling here in favor of a North-west contingent for Africa made up of mounted plainmen and mountaineers. A first class corps could be mustered. Col. Steele, who is a man of wide experience, is spoken of as a proper leader. He has had years of experience on the plains and in the Yukon and has but to call for men and he would get thousands of Royal Riders, not only Canada but also from the neighboring states of Montana and Washington who, as riders, riflemen, packers and frontiersmen, could not be surpassed. Inured to exposure and vered in the ways of the savage, able to scout, to do outpost duty, to pack stores, they should prove an effective adjunct of the intelligence department of the army in Africa.

MAY NOW BE FREE.
Manila Bears That Ultimo And His Men Have Been Captured.

Manila, Dec. 19.—It is officially announced that Gen. Young reports that he believes the American prisoners, including Lieut. Gilmore, are now in the hands of the United States troops.

Lieut. Col. Howze and major Hunter have been operating with small commands in North Borneo province, and it is supposed that one of these has effected the release of the Americans. The report has not yet been verified.

Maj. General Killed.
Manila, Dec. 19.—Major Gen. Henry W. Lawton has been shot and killed. Gen. Lawton was killed at San Mateo. He was standing in front of his troops, when he was shot in the breast and died immediately.

New York, Dec. 19.—A despatch sent from Manila last night said: "Gen. Lawton will start to-night from Manila with the 11th cavalry under Col. Lockett, and battalions of 27th and 29th infantry, under Lieut. Col. Sargent, to capture San Mateo, where Geromamo has 300 insurgents."

The aldermen of St. Lawrence ward have agreed not to canvass this year. But the prospective aldermen have not so agreed, and they are out with votes with the courage of a Gordon Highlander storming a South African kopje.

Three privates of the 15th battalion, Belleville, and an officer of the 42nd battalion, Carleton Place, have sent their names to Lieut. Col. Montsambert, D. O. C., applying for a place on the second Canadian contingent for the Transvaal, should one be formed.

The Toronto canoe club has elected these officers: Commodore, J. H. Wallington; vice commodore, Henry A. Sherrard; rear commodore, Walter F. Hayes; secretary, Charles Lobb; treasurer, A. F. Sprout. Receipts for the past year were \$4,024 90, and expenditure \$2 457 71. The club has a membership of 318.

Also Brandy Drops.
NEW YORK, Dec. 19.—James Broderick, a six-year-old boy of Kearney, N. J., just beginning school, was found wandering in the main street of the town late on Friday night in a state of deep intoxication. He was carried home, where a physician said that it was a case of alcoholism, and that the boy's condition was serious.

Mr. and Mrs. Broderick were amazed, for a long time refused to believe that the liquor had been under the influence of liquor; but the child has now told how he bought a lot of candy, "that were full of sweet juice that made him feel funny all over," and it has become apparent that the child was intoxicated by eating brandy drops. An investigation disclosed the fact that many of the local children have been spending their money for the intoxicating candies.

ALL READY FOR THE CALL.

'A' FIELD BATTERY WILL WELCOME ORDERS.

The Battery is Up to Peace Footing—A Couple of Hours Will Put the Corps on War Footing—The Battery a Good One—List of Officers, Non-Coms. and Men.

"When the call comes we'll be ready, rest assured," remarked a non-com. of "A" field battery this morning. He merely voiced the sentiment which pervades the whole corps, from commanding officer down to the latest joined bugler. All are anxious for the word to arrive to prepare for departure to South Africa. The command will be well-combed, and every man will respond with the alacrity ever characteristic of Tommy Atkins when danger is scented. Tommy a "peculiar beggar," but a good hearted soul, whose whole ambition lies in his eagerness to bowl over enemies of the British empire.

Canada is a young country, and perhaps the Tommy Atkins who form the home guard of the mother country may look upon his colonial brother-in-arms with diffidence, but in this campaign the "old head" will have to present arms to the young colonial and acknowledge him his equal if not superior. If "A" field battery ever sets foot on South African soil, the imperial soldier will have his eyes opened, as he will see a corps that is second to none in the wide empire over which reigns the British majesty. That Canada will be represented by the "A" field battery as well as the infantrymen now there is a matter already looked upon as settled. If the local artillery are not called out for such service it will be a matter of great surprise. In this corps Canada has soldiers who might well be proud of; they would be a credit to any nation. When Gen. Hutton says there is nothing in the imperial service to surpass the local corps, he only admitted a truth which was forced upon him and made admission of a fact of which Canadians were already aware.

To put "A" field battery on war footing will necessitate the enlistment of thirty five men, making the total 138. But to gather in these men would be a matter of only a few hours. At present the battery has only fifty-three horses—all allowable—but on a war footing the number would have to be seventy-eight. These are available, but it would take a couple of days to gather them in. The battery is short of officers, but no doubt if ordered out for active service the officers on special service in South Africa would be recalled to serve with their corps, and not one of them but would be proud to do so.

A list of the officers, non-coms. and men at present enrolled is as here given. Those marked "SS" are on special service:

Lieut. Col. G. W. Drury, S.S.; major Hudson; Capt. Eaton, Barstall, S.S.; Lieut. Ogilvie (long course, England); Leslie, Murray, attached from 9th field battery; surgeon-major Duff; veterinary major Macleod.

Master gunner Stroud, Sergej-Major Long, quartermaster-Sergej, Harris, Hurgill, ordnance artificer Worth, Sergej-instructors G. Mblett, McIntyre.

Sergej. Wanless, Henderson, Bramah, McCauley, Shipton, Graham, Simons, Halloy, Somers.

Hospital Sergej. O'Hagan, McIntosh. Sergej. quartermaster McKinnon.

Corporals Kelly, Haxallton, Slater, Wherry.

Acting bombardiers, Hamilton, Johnston Keenally, Aldcroft.

Trumpeters Robert, Marshall. Artificers sergeant farrier Frapce; Dr. wheelwright Gray; collar maker Turner; shoe smith Cummings, Corry.

A Victim's Damages.
PARRY SOUND, Ont. Dec. 19.—The steamer Arthur Orr, from Chicago, which was reported on the rocks near Cove Island, arrived at Depot Harbor yesterday in low of two wrecking tags in a disabled condition. During the gale the vessel's rudder got loose and broke the flanges of her wheel, and it was with greatest difficulty that she was saved. The hull of the vessel is not much injured and the cargo is all right. The after cabin, with kitchen, was swept away, and considerable damage was done to the upper works.

A Ten Per Cent. Raise.
CORNWALL, Ont. Dec. 19.—The operations of the Canadian colored cotton mill company here, some two thousand in number, have been advised of a ten per cent. raise in their wages, to take effect January 1st. As the present scale of wages is in advance of those paid by most cotton companies in Canada, the increase will be a big addition to the present pay roll.
