THE OLD DETECTIVE.

HE TELLS OF A COUPLE OF HIS PECULIAR EXPERIENCES.

The Man Who Was Found Robbing a...
Trunk and the Man Who Was Evidently a...
Suicide—Stories Showing How...
Appearances May Deceive.

"When I was considerably younger and...
greener in this business," said an old...
detective who had been asked to tell a...
story of his experience, "I lived at a...
certain hotel, which it is not in the least...
necessary to name. One rainy, sleety...
night in early winter I came in very late,

and going directly to my room was...
surprised to find the door ajar. I had on a...
pair of old rubbers, so my approach had...
made no noise, and my opening in I saw a...
man bending over my open trunk. I did...
not stop to meditate, but was on his back...
in a couple of jumps, and who should it...
turn out to be but the porter, a young...
white man, much liked by everybody in...
the house. He was so startled that he...
couldn't say a word, and there was the...
evidence plain as day. The trunk had been...
forced with a chisel, which lay on the...
floor. The contents were tumbled about,

and sticking in the lock of the door...
was a skeleton key made out of a...
piece of copper wire. "When the porter...
found his tongue he begged me not to...
tell him over to the police. He said that...
his mother, who was dependent on him for...
support, was sick and in destitute...
circumstances; that he was unable to...
earn enough to provide her with...
necessaries, and his desperate need of...
money had tempted him to the act. It was...
his first offense, he pleaded, and if I...
would let him off it would be his last—...
in short, he gave me the usual story, he...
told it so well and begged so piteously...
that at last I weakened and told him to...
get out. Next day he quietly left town,

and later on I discovered that the mother...
story was a fake. Then I cursed myself...
for being a fool. "Nearly a year afterward,"...
continued the detective, "I arrested a...
professional thief, and found him...
crook for car breaking, and found him...
wearing a pair of my own cut buttons...
which I had missed for a long time and...
didn't know what had become of them. Under...
pressure he confessed that he had...
stolen them from a room in such a...
such a house, naming the hotel where I...
lived. He said he had opened the door...
with a false key, broken into a trunk and...
was just rising when he heard some...
body coming and darted out, dodging a...
young man in the hall. I pulled out the...
copper skeleton key, which I still had on...
my ring, and he identified it immediately...
as the one he had used. "You may well...
believe I was considerably agitated, and...
I went to work immediately to locate the...
ex-protector. After a good deal of...
difficulty I finally found him in...
Memphis, where he was in a grocery...
store. I got the tip, by the way, from a...
letter he had written to a friend. Well, I...
cornered him and insisted on an...
explanation, and he told me a story I will...
never forget as long as I live.

"He said he was coming down the hall...
that night, when he saw a man run out...
of my room. The fellow got away before...
he could grab him, and naturally...
enough, he went in to see what was up. He...
noticed the trunk open and had just...
stepped down to see whether it had been...
forced when I rushed in. The surprise of...
it bewildered him for a moment, and...
then he realized that he had been caught...
inadvertently in a position that would...
certainly convict him of burglary. "I...
knew you wouldn't believe me if I...
told you the truth," he said, "and would...
be dead sure to have me arrested, but I...
did think there was some chance of...
working on your feelings by pretending to...
confess. I remembered hearing you...
remark, 'that you always felt sorry for...
a man that owned up.' So he tried that...
plan, and, as you already know, it...
worked. I was satisfied that what he...
told me was absolutely true, and, taken...
together, I believe that was the...
quickest case I ever had anything to do...
with. The last I heard of the young man...
he was living in Atlanta and doing...
well. The car thief got seven years."

"At our business it doesn't do to jump...
at conclusions," said the detective. "I...
had that fact impressed on my mind long...
ago, when I was young and green, by...
something that occurred at a certain city...
—never mind exactly where. I can tell...
you the story just as well without the...
name. A man of some prominence was...
staying at the principal hotel of the...
place, and one morning he was found...
dead in his bed, with the door locked...
on the inside, windows fastened and the...
turned on full tilt. Nobody doubted that...
he had committed suicide, and as he had...
been handling some trust funds I was...
engaged to make a private investigation. As...
far as I could discover, his affairs were...
straight, but a vague suspicion...
nevertheless attached to his memory. People...
don't kill themselves for nothing, and it...
was generally believed that some hidden...
irregularity in his life had driven him...
to the act. "Fully two years later I was...
in the same city with a very shrewd officer...
and told him about the case. He thought a...
while and then surprised me by asking...
whether I had examined the door key. "No,"...
I replied, "the door was locked on the...
inside, and I didn't think it worth...
while. "Let's look at it now," he said, and...
when we secured it at the hotel he...
pointed out a little hole at each side of...
the end of the shaft. "That is where the...
key was gripped by pliers and turned...
from the outside," he explained. His...
theory was that the room had been...
entered by some one, probably a thief, who...
ripped the man's clothing, turned on the...
gas, either accidentally or purposely, and...
locked the door again from the outside by...
thrusting a pair of pliers into the key-...
hole. "I then remembered that no money...
had been found in the pockets. The...
discovery of the marks on the key was most...
suggestive, and starting on a new tack...
I soon knocked the suicide theory higher...
than a kite. The thief was never located,

but his victim's name was completely...
cleared of stain."—New Orleans Times-Democrat.

ORCHARD AND GARDEN. When possible, put the new orchard...
on new soil. Dwarf apples are more...
ornamental than profitable. Whatever tends...
to promote the general health and...
thrill of the trees will also aid in...
keeping them free from disease. There are...
a few things more injurious to fruit...
trees than stagnant water. The way to...
avoid it is to supply good drainage.

Apples will bear without injury a very...
much lower temperature than potatoes. The...
cooler they are kept without freezing...
the better. If a plant is suffering for...
water the leaves first look dull in color...
and shortly afterward the plant begins to...
wilt. It needs looking after then. When...
the tree or plants are received, take...
pains to keep the roots moist. A little...
exposure to the sun or hard wind will...
often impair their vitality. The objection...
to storing fruits and vegetables in cellars...
is that they are generally too warm and...
there is too much variation in the...
temperature. In packing apples in barrels...

THE NIGHT 'FORE CHRISTMAS.

BY JOE LINGGILL.

Most generally 't'ight o'clock I go up...

An shut my eyes up good 'n tight an...
to sleep, an then First thing I know...
it's mornin' an time to get up again. Some...
nights, er course, don't seem so short...
like 'fore the Fourth, yer know. Or 'fore...
a feller's birthday, or the night jes'...
'fore yer go. To visit gran'pa—oh, my...
yes! they're kinder long, but see! The...
night that comes 'fore Christmas is a...
million years to me.

Seems 's if December, anyway, 's the...
longest month they is! The months that's...
in the summer, why, they go so fast...
they white. But old December crawls...
along, so kinder slow and late. That...
Christmas keeps so far away seems 's...
if yer couldn't wait. An when yer've...
marked off all the days but one, an...
that's most through, An yer've hanged...
up yer stockings right longside the...
chimney flue, An said "Good night" an...
gone up stairs, ay, don't the minutes...
creep! Cause when he knows it's...
Christmas eve no boy can go to sleep.

Yer bear the old hall clock "tick...
tock" an hear the wind 's how An kinder...
soft an lonesome like, jes' 's if 'twas...
goin' to snow! An then yer wonder if...
it will, so 's yer can slide next day. An...
then yer think 'bout Sooty an his...
reindeer an his sleigh. Yer wonder what...
he'll bring yer, an yer wonder how he...
guesses. Yer wanted skates 's Christmas...
on a bowgin on the rest. An then yer...
try to get to sleep, an then, er course...
yer don't. An then yer say, "Well, yer...
jes' will" an then, er course, yer want.

I 'spose it must be right, but, oh!...
sometimes it does seem wrong That that...
one night boys wants so short should be...
so extra long I've tried to think out...
why it is, but all the 'scuse I've found...

it to get around. But I know this, I'm...
mighty glad I ain't a Eskymow An has...

they do, the boys, I mean—oh, dear! Jes'...

The Basuto Chief Lerethodi. Poisoning by Canned Meats. Instances...
of poisoning from the eating of canned...
meats have become quite common. Although...
it may be possible that in some instances...
the ill effects result from metallic...
poisoning, in a great majority of cases...
the poisonous substances are formed by...
putrefactive changes. In many cases it...
is probable that decomposition begins...
after the can has been opened by the...
consumer, in others the canning is...
imperfectly done, and putrefaction is...
far advanced before the food reaches...
the consumer. In still other instances...
the meat may have been taken from...
diseased animals, or it may have...
undergone putrefactive changes before...
the canning. It should always be...
remembered that canned meat is...
especially liable to putrefactive changes...
after the can has been opened, and when...
the contents of the open can are not...
consumed at once the remainder should...
be kept in a cold place or should be...
thrown away.—Victor C. Vaughan in...

that he would like to be refused. "No, no,"...
said he, "I dussent stoop after such a...
meal. I've filled myself for rolling!"—London Answers.

A LA MODE.

The white cloth and white flannel...
waists, with a colored dot or stripe, are...
just now in marked favor. Crapes...
searful for neckwear are increasing...
in beauty and in softness of coloring. They...
are pretty and becoming. Tentative...
efforts are again being made in favor...
of somewhat shorter skirts, but no one...
can make an absolute prophecy concerning...
them. Some women and girls are wearing...
around their necks a bit of white flannel...
like a deep fringe around the neck and...
that gives a line of white around the...
neck and ties in a jaunty little bow at...
the back. Short, pretty and convenient...
neckers are merely broad bands of fur...
fastened with clusters of short tails at...
the front and with a high ruff of some...
rich shade of velvet, often of a brilliant...
hue, at the back. Fashionable for...
trimmings are still of sable, mink, marten...
or other tails, hanging like a deep fringe...
around the neck, yokes, square sailor...
shaped collars and peloring points or...
stole shaped fronts of velvet, trimmed...
with chenille and fur en applique. There...
are new graceful models in both five...
and seven gored skirts, the backs cut...
to conform to the latest manner of...
adjusting a certain amount of fullness at...
the back in one very deep box plait, in...
two narrower ones, or in a number of...
long tucks or French shirrings very...
closely massed. Apple green, a rich...
shade of reddish plum color, rose color...

ORCHARD AND GARDEN. Soil and location will change the...
appearance of fruit and also the quality. Mixed...
husbandry in gardening and fruit growing...
is necessary to the best success. Whenever...
water is given to house plants, enough...
should be given to wet the soil thoroughly. In...
pruning trees of any kind it is better to...
have one strong branch than two or three...
weak ones. A small, vigorous tree with...
copious roots when first set out will be a...
good bearing tree sooner than a large one...
with mutilated roots. Manure should never...
be placed in close contact with the tree...
when setting it out. If used, the better...
plan is to mix the manure thoroughly with...
the soil. If when trees are received they...
are dried and shriveled, they may be...
made plump again by covering them...
completely with moist earth for several...
days. One advantage in keeping a young...
tree staked is that it leads to the...
formation of clean, straight stems, these...
in their turn being conducive to the...
growth of good, open heads.—Exchange.

DEWEY'S EPIGRAMS. Great crises make...
great men. The men who succeed are...
generally ahead of time. Artistic...
diplomacy is to say nothing and say it...
well. Politics should be less a matter...
of party than principle. The plaudits and...
love of a child are greater than the...
praise of a statesman. The state of...
matrimony, like the state of Vermont, is...
very pleasant to enter into. It is very...
pleasant to be a hero, but a continuous...
performance is hard on the nerves. A...
naval officer should be content with the...
honors that come to him in his profession. We...
