Netting On The St. Lawrence.

(lananeque Journal. The large amount of netting practiced in the St. Lawrence in the early part of the reason has materially affected the fishing. If Gananoque is to maintain its unquestionable pre-eminence as a summer recort, strenuous efforts should be made to etamp it out. The quantity of fieh said to been shipped would amount to many tons. If those whose duty it is to look after illegal fishing do not do so our citizens should form themselves into an association to enforce the law. One way would be to prohibit the sale of nets having a certain meeh.
