LIKELY TO BE SHELVED

This Will Be End Of Czar's Message.

CONCURRENCE IN VIEWS AND RESOLUTIONS ADOPTED IN THEIR FAVOR.

There is Irritation in Paris On The Subject—The Czar and Emperor Had Conferred Together In Regard To The Message—The Proposal Said To Be Inconsistent With The Franco-Russian Alliance.

LONDON, Aug. 31.—The newspapers here continue to devote a large amount of their space to commenting upon and criticizing the czar's peace note. While naturally differing in regard to the reasons actuating the appeal, they generally agree that the outcome will be a conference of the premiers, if not of the sovereigns themselves, probably at Copenhagen, which will be followed by an expression of concurrence in the resolutions and the respective governments, when the whole thing will be shelved indefinitely.

The latest comments from Paris show there is intense irritation there on the subject. The czar's proposal is regarded as unfriendly and inconsistent with the Franco-Russian alliance.

Curiously enough, in support of this view, the official Hamburg correspondent publishes a telegram from St. Petersburg, confirming the report that the czar exchanged a letter of Germany and the czar exchanged views in regard to the establishment of a lasting state of peace, "which was fully demonstrated by the identity of the monarchs' wishes."

LONDON, Aug. 31.—Gen. Booth, the head of the salvation army, has sent a telegraphic message to the czar saying: "I received with profound thankfulness to God your imperial, wise, beneficent and Christ-like proposal."

"I cannot refrain from assuring you of the admiration of multitudes of salvationists in all parts of the world, whose prayers will ascend to Almighty God for your majesty, and the triumph of these principles of peace and righteousness for which they are striving, and which are moving you to seek the true welfare of all nations."

"This great act of good must forever add honor to your majesty's name, reign and country."

BIRMINGHAM, Aug. 31.—The trades union congress has unanimously passed a resolution expressing its satisfaction at the czar's peace note, and calling on the British government to give effect thereto, "as militarism is the great foe of liberty and a crushing burden to the toiling millions."

LEWIS WASHINGTON KNEW GEORGE. OMAHA, Aug. 31.—One hundred and thirty years of age is what Lewis Washington, a colored man, who died at his residence, at 4328 Emmett street, claimed to be. Washington had been a resident of Omaha for a great many years. There is no question that he was far advanced in years, for his whitened head and beard were proof of that, although he had few of the infirmities of old age. He claimed to have seen and known George Washington, and there was a report that he was one of Washington's slaves. His wife died in February, 1890, at the age of 104 years.

A SHOOTING AFFRAY.

Protecting Public Lands With A Shot Gun—One Badly Hurt.

BUFFALO, N.Y., Aug. 31.—News of a shooting affray, which occurred at Port Maitland, Ont., yesterday reached here today. Port Maitland is a little summer resort on the Canadian side of Lake Erie and is much frequented by Buffalo people.

The story as told is that yesterday two young men named James and Henry Sidel were putting up a wire fence about a piece of the beach, which they were reclaiming from the lake front. They said they had a perfect right to fence in the property. This, however, was disputed by a man named Thompson, who took upon himself the duty of protecting public lands. Thompson appeared on the scene with a shot gun and ordered the Sidel boys to stop work on the fence. The young men retreated, but James Sidel returned to the beach with a revolver. As they approached, Thompson brought his gun to his shoulder and fired. Part of the charge from the gun struck James Sidel in the right wrist and badly lacerated it. Henry, who was some distance in the rear, was struck in the chest by a number of spent shot, but was not seriously hurt. A constable arrived on the scene from Dunnville in the afternoon and placed Thompson under arrest.

The Minister of Public Works at St. John, N.B.—Has Left For Quebec.

ST. JOHN, N.B., Aug. 31.—The tug Eureka, having on board the minister of public works, arrived in port at an early hour yesterday morning. Soon after breakfast Mr. Tarte went to the wharf and a look-out on the works there. The tug was boarded in the stream by Dr. Ellis, M.P., who with the minister and Mr. McCorkle, went over the long wharf property. Then they drove to the post office at the north end, and went thoroughly through that building. The minister, after looking over his correspondence and sending off a lot of messages, went to his office in the customs. At one o'clock he and his engineer, Mr. Lafleur, lunched at the Union club with Mr. Ellis. In the afternoon a committee from the board of trade had a conference with the minister. Mr. Tarte expressed himself as delighted with his trip. Since he left Montreal the Eureka has steamed 2,556 miles and touched at 106 places. The minister also took a drive around the city with Mr. and Mrs. Ellis, and after lunch at the latter's residence he left for Quebec by train.

The derwish scouts, the despatch continues, are now frequently sighted, and the whole Egyptian army has reacted. About thirty miles from Omdurman, it will move into a new camp ten miles farther south, to-day. The gunboat Melik has been wrecked, while reconnoitering two miles up the river, in a terrific and storm.

Miss Shaw's Tons.

VICTORIA, B.C., Aug. 31.—Miss Flora L. Shaw, of the Lower House, returned from Dawson last night, having left there August 11th. She finds the prospects more encouraging than she had anticipated. The vexatious mining regulations are a matter of detail, the satisfactory adjustment of which is already promised. As to the food situation, Miss Shaw says it was materially improved while she was there by the arrival of two or three laden steamboats daily, while since others were reported within 900 miles from here on Shaw's return, writing up Manitoba's wheat resources, and then taking canoe or other craft from Fort Churchill to Labrador to study the forest and fishery resources of that unknown area.
