MARYSVILLE, Wolfe Island, Sept. 7 .jeveral from the seland are at the Toronto hir. This week's rain is very welcome, as many wells were dry and land too hard to plough easily. Some of the farmers have threshed and report grain turning out well. Hay is very abundant and cheap. Some late grain and root crops injured by drought. Apples seem to be quite plentiful. Our cheese factories are doing good work, considering the limited patronage. Most of our summer visitors have taken their departure. The village school is prospering under the efficient labors of Mr. Pardy, principal, and Miss Kilpatrick. Labor day was observed here by a union Sunday school picnic. But few cases of sickness have been reported on the island this summer.

# Che Dominion Official Analyst's Statement with Regard to the Value of

Abbey's Effervescent Salt has received the highest endorsations from the Medical Journals and from the Physicians of Canada since its introduction here. It has sustained its European reputation.

It is a highly palatable and efficacious tonic. As a refreshing and invigorating beverage it is unequalled. Its use has prevented and cured innumerable cases of Sick Headache, Indigestion, Biliousness, Constipation, Neuralgia, Sleeplessness, Loss of Appetite, Flatulency, Gout, Rheumatism, Fever, and all Febrile states of the system. In Spleen Affections and as a regulator of the Liver and Kidneys, its value is unquestioned. Its use purifies the blood in a natural manner, leading to good health and a clear, bright complexion.

LABORATORY OF INLAND REVENUE,

Office of Official Analyst, Montreal, July 28, 1898. I, JOHN BAKER EDWARDS, do hereby certify that I have duly analyzed and tested several samples of "Abbey's Effervescent Salt," some being furnished by the manufacturers in Montreal and others purchased from retail druggists in this city. I find these to be of very uniform character and composition, and sold in packages well adapted to the preservation of the Salt. This compound contains saline bases which form "Fruit Salts" when water is added-and is then a very delightful aperient beverage, highly palatable and effective.

Abbey's Effervescent Salt contains no ingredient of an injurious or unwholesome character, and may be taken freely as a beverage.

JOHN BAKER EDWARDS, Ph.D., D.C.L., F.C.S., Emeritus Professor Chemistry, University Rishop's College, and Dominion Official Analyst, Montreal.

A Teaspoonful of Abbey's Effervescent Salt, taken every morning before Breakfast, will keep you in good health.
