Whole Body a Mass of Sores. Doctor Could Not Cure. Tried CUTICURA.

Speedily Cured. Now Fine Hair And Clear Skin.

Our baby at the age of four months was sickly, and broke out with Eczema on his face and body. He was a mass of scabs. The doctor could not gure him. One day I saw your advertisement in the newspaper, and I got CUTICURA REMEDIES at once. I used one box of Cutroura (ointment), one bottle of Cuti-CURA RESOLVENT, and three cakes of CUTI-CURA SOAP, and he was cured. He is now seventeen months cld, weighs 46 pounds, and has the finest head of hair and clearest skin you would want to see. LOUIS BENZINGER. Feb. 3, 1898. 2750 8th Ave., New York City.

### ECZEMA ON LEG CURED BY CUTICURA

I had a sore on the upper part of my leg that three doctors called Eczema. Such pain I never experienced in all my life. I read in the papers of CUTICURA REMEDIES, and J bought the CUTICURA RESOLVENT, CUTICURA SOAP, and CUTICURA (ointment).

The first time I used them was before I went to bed, and I slept more that night than I had for two weeks before, and from that time on it got better, and to-day it is entirely gone. Feb. 3, 1898. C. BUNKEL, Mount Joy, Penn.

### SPEEDY CURB TREATMENT FOR ALL SEIN AND BLOOD HUMORS. - Warm baths with CUTICURA SOAP,

### SCUTT ACT AND MAINE LAW

THEIR ENFORCEMENT HAS BEEN BENEFICIAL.

Some of "Cataraqui's" Statements Correct- than there was fifty years ago. It is Residents Mefore the Commissioners.

You do well to open your columns now to a discussion of the prohibition plebi- cities the bishop thinks the law poorly scite. In its results it is the most important question ever submitted to the electors of Canada at any election. My object just now is to correct some of the statemen's made by your correspondent "Cataraqui" of the 7t inst. His premises are incorrect and so are his conclusions.

He writes: "The Scott act was extensively tried in Ontario, Nova Scotia and New Brunswick, and the testimony of all disinterested witnesses shows a uniform series of failures. Under the Scott act drunkenness increased. Although the saloons were closed drink-

ing became more prevalent," etc.

Where are the facts to substantiate hese sweeping assertions? On t 24th of Japuary last the "Whig" published a carefully prepared statement of the number of commitments to the fifteen county jails in this province where the Scott act was in force in their entire jurisdiction at one time. The figures show (1) that during the three years preceding the act the yearly average number of commitments for drunkenness in all of them was 448 then, (2) during the three years the act was in operation, and but very preachers of Portland and vicinity by poorly enforced, largely because of technical difficulties, since removed he average number fell to 202, or less than one half; then, (3) during the next three years, following the repeal the act, the average rose again to 331, or an increase of over fifty per cent These are the facts as given in the Ontario license report of last year and were prepared without any view the Scott act or probibition question. The figures tell their own story, how-

Rev. Henry Blanchard, D.D., pastor of the First Universalist church, eleven years pastor of one of the largest churches in the city, said: "I think on the whole the law is beneficial to the state; young men are shielded and educated. I cannot help thinking, after all my criticism of a prohibitory liquor law that it has done a great deal to educate these young men to abhor liquor, though if I had my way should have government superintendence of the liquor traffic."

Rev. D. B. Randall, D.D., of the Me thodist Episcopal church, sixty-five years a resident of the state, said. "Intemperance prevailed to a great extent before the enactment of the prohibitory law; very soon after change took place. The enforcement of the law stopped the sale in the country towns, and to a large extent in cities. We had, I think, three distilleries in Portland. These were soon obliged to shut up, and the enforcement of the law made a great change in the habits and morals of the people." He presented the following resolutions adopted by the Methodist

unanimous vote: 'Whereas the Canadian royal commission on the liquor traffic is now in Portland, we, being familiar with the Maine law, wish to add our testimonial as to its value and efficiency. We wish to give our unqualified endorsement to the principle of the prohibition of the liquor raffic. thoroughly believe that the law, properly enforced, is sufficient in suppressing the liquor traffic. We would emphasize the educational such a law which closes all openly conducted drinking places, and drives numbers those who carry it on among the dangerous and criminal classes. the dangerous and criminal classes. - Dr. Randall, president, A. You can't be healthy if your blood is impure or watery, -if poison is circulating through your arteries instead of rich, pure, lifegiving blood.

If you feel drowsy, languid,are constipated, have pimples or blotches breaking out on your body; Blood Bitters.

"I have been using B.B.B., also my brother and sister-in-law, and we find it a most reliable and efficacious blood purifier, and most cordially recommend We purchased it from J. R. Ault Sons of this town." MISS C. M. WA'S. SON, Aultsville, Ont.

B. B. B. is a highly concentrated blood purifying vegetable remedy, -only I teaspoonful at a dose,

nothing like it for an evening's entertainment. Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are

Graphophones are sold for \$10 and Manufactured under the patents of Bell Tainter. Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue. Columbia Phonograph Co., Dept. 30,
