A Kingston Injured.

On Friday last Alexander Floody while employed in the work of constructing C. R. Remington & Son company's new mill at Glen Park, Watertown, N.Y., stepped on a loose board while carrying a heavy stone, and a rusty nail in the board penetrated his foot, piercing the flesh deeply. He was removed to his boarding house, No. 22 Franklin street. Blood poisoning developed and he now lies in a very low condition, threatened with lock jaw and heart failure. Floody is a member of Kingston lodge, No. 59, I. O. O. F., and Watertown Oddfellows are caring for him.

Had A Good Show

A well filled house greeted the Town Topics company last evening. Every member of the company is a star, and the combination is one of pure merit making. The plot is a mere thread, but around it is built up nearly three hours of humorous and clever specialties. All the jokes were fresh and snappy and the new features were skillfully brought out.

THE DAWSON POST OFFICE.

MR. OGILVIE INTRODUCES METHOD AND DESPATCH.

The Hours of Opening Lengthened—Archbishop Langevin Speaks on The Schools—Will Increase The Catholic Population in Manitoba by Immigration of Settlers.

OTTAWA, Oct. 20.—H. H. Norwood, of Nova Scotia, government inspector of mines in the Yukon, in the city, left yesterday for the maritime provinces. In the course of some remarks on the Yukon question he affirmed that a good deal has been said about the post office at Dawson City, and it is admitted on all hands that the facilities for obtaining mail matter were not such as would accommodate a population of 25,000 people. This was a matter which Mr. Ogilvie at once looked into. He changed the hours of opening from 9 a.m. to 7 a.m., and the closing hours from 4 to 6 p.m., no intermission being allowed for noon. All the old fittings were cleared out and new ones, with 1,500 letter boxes, introduced, having general deliveries, and John McGowan, Vancouver, was installed as acting postmaster. The public are enabled to get their mail matter a few hours after its arrival, without having to wait in line two or three days as was formerly the case. Another much appreciated change made was that of giving mail to messengers for parties at distant camps.

Archbishop Langevin, of St. Boniface, Manitoba, being interviewed on the school question, stated that the Catholic schools of the province, which have depended through want of financial assistance from the government, were making fair progress. "We are making no agitation," continued his grace, "but being the wish of his holiness the sovereign pontiff that the question be dealt with calmly and with as little ado as possible. We have strong hopes that the sober sense of justice of the majority will eventually assert itself and our demands be conceded. We ask for nothing to which we are not entitled by the constitution, and our demands are based on equity, justice and common sense." His grace laid particular stress on the fact that he wished to say nothing that would tend to aggravate the question. "If the Protestant majority can only understand that we have no desire to overrule or in any way interfere with their educational affairs, their attitude would be entirely different." Questioned as to whether the matter would be brought up at the next session of parliament, Mr. Langevin stated that there was little probability of such being the case. If the provincial government of Manitoba continues to refuse to grant any concessions to the minority, then their only hope would be to increase of Catholic population by immigration of settlers.

"Why doesn't some woman start a bible club one of these days," says the woman who does not usually believe in clubs, "and do the world a great service?" The Boston Christian Register said recently: "A large part of the literature of this world is becoming unintelligible to this generation through the lack of ability to understand quotations from the bible. Allusions to sayings and events which our fathers would understand at a glance now signify nothing to many readers."

A GLOOMY OUTLOOK.

Rainy Weather Has Led to Disastrous Consequences.

WINNIPEG, Man., Oct. 20.—The weather which has prevailed throughout the province during the last few weeks has given the farmers a very gloomy outlook. Early in the autumn the prospects of gathering a large crop of No. 1 hard were very bright but before the grain was all out shovery weather set in and with short intervals has continued ever since, causing interruption to the work of harvesting that has led to disastrous consequences. The exact extent of the damage done so far cannot be estimated until the weather becomes settled.

The Free Press in a carefully written article this morning states that, calculating on a basis of 26,000,000 bushels as this season's wheat yield, nearly 8,000,000 bushels have been safely stored, leaving 18,000,000 bushels seriously damaged or totally ruined. Nearly all the oat and barley crops are still standing in stacks in the fields, and will probably suffer equally with the wheat. Several of the elevators are arranging to put in grain dryers to dry the grain, if practicable, by artificial means. The millers are making a strong bid and are crowding the exporters to reduce the dry wheat, and prices on local market are advancing rapidly, sixty two cents being paid yesterday. The traders here throughout the province are already feeling the reaction, having laid in big stocks in expectation of a brisk business this morning brings reports of snow and sleet in many parts of the province, while cold, wet weather is general.

NOT TO PAYS

Does Mrs. Dietrich Owe Her Handsome Figure?

INDIANAPOLIS, Ind., Oct. 20.—By the action of a jury in the Kosciusko county circuit court Mrs. James Dietrich, of Mt. Pleasant, has cleared herself of the charge that her pretty figure is due to the use of sawdust, but-ites and rubber.

The charge was made by Mrs. Anna Mengel early last spring in a social gathering attended by all the well to do women in the town. Mrs. Mengel, it was alleged, related how Mrs. Dietrich "kept in form" by "padding," and went on to tell in detail just how it was done. Mrs. Dietrich was absent from the social function, but friends lost no time carrying to her the remarks of Mrs. Mengel.

Mrs. Dietrich sought redress by filing a suit for \$3,000 damages for slander. The trial was brief. Mrs. Mengel was unable to substantiate her statements, and the jury gave Mrs. Dietrich a verdict for \$125.

Mrs. Dietrich says she is perfectly satisfied with the verdict.

NAVAL EXPERIMENTS

Made by France—War Preparations Continue.

PARIS, Oct. 20.—The alleged war preparations of France are the absorbing subject of discussion here at present.

According to the French papers there were important naval experiments at Toulon yesterday evening. A flotilla of torpedo boats was detailed to make an end-on-force the entrance of the harbor, and the whole garrison was called to arms and the forts and batteries were manned, ready for instant action. The result of the experiments has not been made public.

Admiral Barre presided at a secret council of war at Brest, in which the chiefs of the maritime forces took part.

Confidential orders were subsequently issued to the garrison.

The Arcos asserts that five classes of the naval reserves around Brest have been ordered to hold themselves in readiness for active service.

TROUBLE AT ANTICOSTI.

MR. MENIER DEMANDS SETTLERS BE EXPELLED.

Their Buildings Must Be Demolished And Removed—The Settlers Have Sent Delegates to Quebec And Will Defend Themselves—An Action For \$150,000 Taken Against a Contractor by the Loken Bank.

QUEBEC, Oct. 20.—The millionaire proprietor of the island of Anticosti, Mr. Menier, of chocolate fame, has taken action through his attorney, George E. Gibson, against the settlers at Fox Bay, Anticosti, in the superior court at Murray Bay, to have them expelled from the island and their buildings demolished and removed. The settlers have sent two delegates to Quebec, where they have given their cases into the hands of W. H. Davidson, advocate. He has put in an appearance for them and will plead in the actions in due course. A fund has been organized for the purpose of enabling the settlers to obtain a fair hearing and the Rev. E. J. Stobo has been requested to act as treasurer.

An action for \$150,000 taken by the Union Bank of Canada against Alphonse Charlebois, the well-known contractor, an important motion was made by Liniers Tachereau, Q.C., representing the defendant, yesterday. The defence moved that the proceedings in the case be suspended until after the execution of the judgment rendered by the jury council last May in the case of Hubert Charlebois. The bank is represented by W. C. Ok, Q.C., and G. G. Stairs, Q.C. After having heard the parties in the case judge Andrews took the motion on consideration.

Enquiry in Private.

LONDON, Oct. 20.—Madie Brown, the alleged murderer of constable Toohy, was arraigned before police magistrate this morning. Evidence is still being taken and is not expected to conclude until late this afternoon. None but those having connection with the case are being admitted to the court room. There is a large crowd of curious on-lookers standing in front of the police court waiting for an opportunity to get a glimpse of the notorious "peg leg."

Up to two o'clock a number of witnesses had been examined, but none able to identify Madie Brown as the man seen in the vicinity of the shooting.

The prisoner is watching the proceedings very closely and keeps a steady eye upon the witnesses, while in the box. He plainly shows his pleasure at the failure of the witnesses to identify him.

Is After The Divorce "TRADE."

WICHITA, Kan., Oct. 20.—Kansas divorce laws are to be "reformed." The law now requires a residence of one year in the state before a divorce can be secured. It is to be changed to three months.

Senator Bentley of Wichita has prepared a bill repealing the present divorce law, which he will introduce in the next legislature. As there is a two thirds majority of attorneys in both houses, senator Bentley feels confident his bill will pass unanimously. Speaking of the new bill he said: "The securing of divorces has gotten to be a matter of business, not sentiment, and those who deserve to be separated will go with a divorce which will be secured quicker. Oklahoma used to be a Mecca for all unhappily married people, and South Dakota now is one. Kansas is a much newer state in which to reside than either of these places, and I believe if we can secure a three months divorce law, Kansas it will boom business immensely. I have talked with many members of the legislature, and everybody favors it. The bill will be introduced at the next session, and we expect to make Kansas the headquarters for all divorce wanters by next summer."

A Fair Story.

HANNOVER, N.H., Oct. 20.—A good story is told of the judges who made the awards on butter and honey at Walkerton show this year. It appears they had little trouble deciding as to the butter, but the honey was a tickler. One bottle looked clear and nice—too clear one judge said—and a jar was a little darker but looked beautiful. It was finally decided to toss a copper, which was done and the bottle won. A large table spoon was produced and filled with the first prize article, which was handed to the senior judge, who placed it to his lips and downed it—a close observer might have noticed a look of agony, but the victim said nothing. Again the spoon was filled and the junior swallowed about half of it when he gasped for breath, the fluid running down his beard, his shirt front, and the tears down his cheek. Finally he exclaimed: "Oh! my God, 'tis castor oil."

The Question is Often Asked:

How do you account for the ascendancy of

DEWAR'S WHISKY?

The answer is simple enough, viz: Because there is none equal to it for intrinsic merit, Softness, Elegance and Utility of Flavor, combined with Fullness of Body and the Fragrance that only Fine Old Malt Whisky imparts.
