2100 PRINCESS STREET. R. V. SMITH, ROGERS, 1835 DUNDAS ST. W. TORONTO, ONT.

THE body of the late E. J. O'Reilly, who died in St. Boniface hospital, Winnipeg, on Wednesday, October 15th, arrived at his father's home at Railton on Monday last and was buried the following morning.

E. J. O'Reilly was a son of James O'Reilly, Railton, and was engaged as bookkeeper for the firm of James Richardson & Sons of this city.

He was 58 years of age. He had been ill for some time with typhoid fever, which caused his death. On the day of his death his father left home to visit him. The deceased was very popular in Winnipeg, and a number of wreaths, the last tributes from friends, accompanied the remains.

Troubles In Bedford Township.

Joseph Hastings and Charles Fitzgerald, township of Bedford, apparently do not live at peace with each other. On October 15th the former assaulted the latter, and he is also accused of doing bodily injury to Mr. Fitzgerald on September 7th by throwing a bucket of water on him.

Warrant has been issued for his arrest. James Ha Hoag and John Connor, of the same township, will also figure in a court case, the former having inflicted a severe wound on John Connor, using, it is alleged, steel knuckles to do the deed.

In The Long Long Ago.

J. D. Thompson, in scanning old records, finds that on the 23rd of October, forty-seven years ago he married, now full to the brim, his wife, who had been in the city for some time.

He was 21 years of age and she was 17. They were married in the parsonage of St. John's church, and the ceremony was performed by the Rev. Father Ryan, who was then pastor of the church.

The bride was Miss Ethel Fallar, and the groom was J. D. Thompson.

At A Stomachous Board.

Capt. Dunlop has on view at the Dominion express office the head of a mackerel which his son caught last summer near Gananoque. The fish weighed thirty pounds. The head is a monstrous size. The mouth is armed with hundreds of cruel teeth. Capt. Dunlop will have the head mounted.

To Open Up The Eyes.

E. H. Smythe has engaged an expert usher to open up his mica property in the township of Bedford. The property adjoins that on which Kent & Stomachous mica is located, and indications point to an abundance of fine mica.

FRONTENAC CHEESE BOARD.

Lot of Cheese Received To-day But the Price Not Satisfactory.

At today's session of the Frontenac cheese board there were 1,604 boxes registered. Of this number 1,491 were colored and 113 white. There was a full attendance both on the part of buyers and salesman. The top price bid was 82 cents.

Colored—Arigan, 12; Bear Creek, 14; Cold Springs, 70; Excelior, 60; Farmers' Friend, 100; Glenvale, 50; Granite Hill, 75; Maple Leaf, 40; Pine Hill, 62; Pine Grove, 66; Rose Hill, 50; Sanbury, 80; St. Lawrence, 30; Silver Springs, 100; Thousand Islands, 50; Wolfe Island, 125; Iron and Lumber, 50; Callina Bay, 30; Duff's, Inventory, 150; Gilt Edge, 50; Sand Hill, 40; Union, 100; Keanan & Son, 60.

White—Arigan, 28; Union, 100; Railton, 75.

The buyers were: R. Thompson—Cold Springs, Silver Springs. E. P. Brentnall—Iron Junction, Maple Leaf.

W. J. McGrath—Wolfe Island. O. B. Bissett—St. Lawrence, Glenvale.

Many sessions of the board have been held since the board adjourned for two weeks and the meeting then held be the final meeting of the season. This suggestion was not received favorably on account of so few a number of boxes of cheese selling to day and the fact that no contracts have so far been made. The board, therefore, will continue to meet until the factories cease making cheese.

Side Tracked.

Theatre goes at large will no doubt be glad to hear that our old friend, the funny tramp, Horatio Irving Booth, will stop in his peregrinations, and lay over for a rest, the first car in which he travels being "Side Tracked" at Kingston.

The play is well known as a good, rattling, and side-tracked comedy, chockfull of fun, fire and ginger, and, having been entirely rewritten and strengthened, played with a ripe cast, composed of well known and fully proficient professionals, is making more of a hit this season than ever.

Among the well known members of the company are our old favorites: E. H. O'Connor, Billy Bowers, Gertrude Barnes, Ouelis Lorraine, Josephine Roberts, John Hobbs, Margaret Mayfield, Edgar R. Vance and J. J. Brophy.

Also L. C. Yeoman and Harry Leslie. For a good evening the evening's entertainment witness "Side Tracked" at the Grand to-morrow evening. Plan now open at Sawyer's.

Arrived All Right at Dawson.

A day or two ago Mrs. T. J. Donoghue received a letter from her husband, a member of the latter's Hamilton Donoghue party at present at Dawson City. The party arrived at Dawson on September 23rd.

The writer got there a week before hand, having gone ahead by special steamer. The transports bearing the party and their goods had a difficult passage up the Yukon, but arrived safely. The goods were in splendid condition. Mr. Donoghue had time to look around and make preparation for the reception of the balance of the party and for the storage of the goods.

An Enjoyable Oyster Supper.

Black Leg Among Cattle.

Yesterday a veterinary surgeon performed a post mortem examination of three young cows, dead on the farm of D. Moran, Wolfe Island. He discovered in each a form of anthrax, known as black leg. This disease appears to be growing in this district, and the symptoms are drowsiness in the cattle and a loss of appetite. Farmers noticing these in any of their cattle should on once separate the afflicted ones from the herd, as the disease is contagious.

MANOEUVRES AT HALIFAX.

MOBILIZATION OF REGULARS AND MILITIA.

Defending the City Against an Expected Attack—a Hot Engagement Reported—Naval Demonstration Very Tame—Sighted a Wreck at Sea—Returned With Damaged Machinery.

HALIFAX, N.S., Oct. 27.—The mobilization of the British regulars and local militia was the event of today in Halifax, but, like most naval and military manoeuvres which take place here, it had to see. The officers of her majesty's forces who manage these things do it so badly that there is little for spectators to witness unless they can be in at least a dozen places at the one time.

The naval part of today's programme was a very tame one, as the vessels engaged consisted of one torpedo boat and two miniature steam craft whose ordinary use is the conveyance of soldiers and provisions from the city to harbor forts. Troops gathered at an early hour to march to the defence of the city, an attack being expected during the forenoon. At the harbor forts were manned and a detachment of men held in readiness at a central point. At 11:30 o'clock the battle began, the place selected for attack and the landing of a naval force being near Horse Cove. At noon a hot engagement was reported to be in progress to the westward of the city.

The Furness line steamer St. John City, which sailed last evening for St. John, N.B., returned to port to day with her machinery deranged.

The steamer Ravensdale, which arrived here to-day from Santiago, passed on Monday the site of a small vessel which had apparently been wrecked recently. The piece of wreckage was about 120 feet long and was passed 1,100 miles north of the Bermuda's.

THE YUKON CONTINGENT.

Have Been Their Worst Hardships—Building of Barracks.

QUEBEC, Oct. 27.—The latest communication received here from a member of the Yukon contingent by his family at the citadel, stated that the men had seen what they believed to be their worst hardships. The letter was dated from Selkirk. The officers' quarters had been completed, but owing to want of nails they had to suspend the construction of the barracks on the men at which they are now working. Considerable time was taken up in cutting wood for the construction of the barracks. Their quarters are not far distant from an Indian reserve, and they can thus procure fish and game. The members of the R.C.A., who form a portion of the contingent, took a baker out with them. It makes them a sort of yeast bread which they describe as being far ahead of hard tack.

In all about \$125,000 was realized by the sale of the crown timber limits yesterday, of which H. A. Melville alone contributed \$50,000 for limits in the St. Maurice agency.

Millions Involved.

VANCOUVER, B.C., Oct. 27.—A case to involve millions came before justice today today. Samuel Liechtenster and Robert Anderson had signed together in Australia and South Africa, and came to Vancouver, on their way to the Yukon in 1927, signing an agreement as partners to share equally in anything they might strike. They then went into the Yukon country by different routes. Anderson struck it rich on Hunter creek, while his partner apparently did nothing at Fort Yukon. Anderson, it is now stated, has shared a company in England, with a capital of \$2,000,000. T. A. action commenced by Liechtenster is to enforce the original partnership agreement and to restrain Anderson from receiving any money on his property. Anderson's net being within the limits of the jurisdiction of the court, the application was dismissed, with permission to renew when Anderson was in the neighborhood. The defendant in the case is in London, England.

First Act of Aggression.

ST. JOHN'S, N.B., February 1917.—While a war between Great Britain and France would be in every way deplorable, we would find some compensations in it in the settlement of questions which apparently cannot be disposed of in any other way. One of these is the claim of France to occupy the west coast of Newfoundland for the purpose of drying the fish caught by French fishermen on that coast, a right which prevents the settlement of what is known as the French shore, and hinders the proper development of an island in which Canada has a great interest.

The capture of the islands of Saint Pierre and Miquelon would also follow the declaration of war and might be undertaken by Canada, which is mainly interested in securing them under the British flag. At present these islands are nothing but a nest of smugglers whose principal business it is to defraud the revenue of Canada. They are all that is left of the once mighty French possessions in North America, and their capture would be one of the first duties of the governments of Great Britain and Canada.

Wave a Narrow Escape From Being Shot.

Two young ladies from Flinton, Misses Blanche and Sella Matthews, had a very narrow escape from being shot while travelling on the K. & P. railway on Wednesday last week. Shortly after the train had left Bedford, Mills station a bullet whizzed through one of the windows of the coach alongside of which the two young ladies were sitting, the broken glass falling in Miss Blanche's lap. It is supposed by the train hands that the shot was fired by a tramp who they put off the train at about that place the evening before.

WANT RIBOT TO TAKE IT.

The French Cabinet is in Course Of Construction.

PARIS, Oct. 27.—A rumour circulated in London that President Faure has been assassinated is false. No definite has yet been settled in connection with the formation of a new French cabinet. The arduous task of ministerial lists in which the name of M. Ribot figures prominently.

He is said to be the favorite candidate believed by the public. It is generally believed that President Faure will appeal to him to form a cabinet of republicans concentrating in the foreign office. Such a cabinet would not oppose a revision of the trial of Dreyfus. M. Ribot has always been regarded as being favorable to a reopening of the case.

PARIS, Oct. 27.—The Evènement publishes an interview with Gen. Kitchener during the course of which the British officer is quoted as saying: "I am only a soldier and ignorant of diplomacy, which is not my business. I hope the diplomats will succeed in settling amicably the difficulty. I can only praise the French, particularly Major Marchand, who received his death at Fashoda with charming cordiality. I shall always retain a pleasant souvenir of that reception. The situation is rightly regarded as most critical, but I cannot approve of those who say war is the only solution. A calm courteous discussion will give a solution acceptable to both nations. I have entire confidence in his diplomacy, and perhaps my opinion on the subject should be put forward to contribute to the result which we all desire."

PARIS, Oct. 27.—The court of cassation tomorrow to-day to consider the application for a revision of the Dreyfus case.

In the event of decision of revision there is no appeal. The court of cassation is France's supreme court.

Direct from the growers to consumers. Direct from the growers, Monsoon Tea at 25 cents is a purer and choicer tea than the packings of tea brokers offered at 30 and 40 cents. Monsoon Tea graded at 25 cents, 30 cents and 40 cents proves a surpassing excellence not attained in other teas ten cents higher in price. But the exclusive perfection of Monsoon, packed by the growers to sell at 50 and 60 cents, is incomparable.

IMPORT FREIGHT TARIFF

Announced To-Day By the G. P. R.—The Unchangeable Rates.

MONTECAL, Oct. 27.—The G. P. R. railway to-day announced its unchangeable rates on freight from West St. John, taking effect on November 15th. This is in view of the approaching season of navigation and only applies to cargoes from ocean vessels. No change will be made on any one commodity for one hundred pounds at first class rates, subject to a minimum of forty five cents or fifty five cents if carried at destination. The minimum charge on a similar commodity to a point on a connecting line, not reached directly by G. P. R., to be fifty five cents exclusive of cartage, or sixty five cents if carried at destination.

In addition there is a tariff which applies to points on the direct route between West St. John and Windsor, Ont., which is on the same basis as the rate from Boston to Detroit. Its maximum rates are in cents per one hundred pounds, as follows: First, thirty-nine; second, twenty-nine; third, twenty-seven; fourth, twenty-three; fifth, twenty; sixth, sixteen; seventh, twelve cents per hundred; cartage, twelve cents per hundred; dry goods, less cartage, thirty cents per hundred. Should the Boston rate, on which the last figures are based, be removed, the G. P. R. tariff would also lapse and the rates would be the same as in the free tariff applying to all points.

The statement of the Montreal street railway for the past year, issued to day, shows the net profits to have been \$601,794.18 against \$507,453.60 for last year. After paying a ten per cent dividend of \$188,000 was carried over to the next account.

The burglars secured only \$1,500, though it contained over \$1,500 for the blast made so much noise that all the neighbors were aroused and they had to decamp. They had opened a score of letters only one of which contained money.
