"GIVE THE BOY A CHANCE."

MEACHAM WILL MEET HIS FINISH NEXT WEEK.

'If Aylesworth Proves As Useless As Mencham," said Mr. Ross, "Turu Him Out" - What The Ontario Government this Against Measures That Made For The Progress Of The Province - The System Of Education Nearly Perfect.

NAPANEE, Nov. 9 - Yesterday afternoon saw as intelligent a class of farmers and citizens as old Lennox and Napanee can produce wending their way to the opera house to hear the two ministers from the west, Hon G. W. Ross, minister of educa tion, and Hon. John Dryden, minister of agriculture. The stage was filled with prominent ladies of the town and on the intelligence and he is worthy of that platform beside the speakers were: W. Allison, ex.M.P., the old Lennox war horse; H. M. Deroche, ex M P.; Bowen E. Aylesworth, the popular candidate; F. Wartman, and others. Thomas Syming. ton acted as chairman and in his usual affable and business like style intro-

duced the speakers. D. W. Allieon, ex.M P., arose and although suffering from bronchical trouble, demonstrated to the audience very clearly ome of the merits of the government that the gentlemen beside him were advocating, and that no mistake could be made by the electors in returning this same government. Mr. Allison led his hears a through the years since the government had come into power, some twenty nine yearsago, to the present time, and showed that at every election the same old cry of bankruptcy had been used, but that the government were still solvent, and that if there had been any truth in this bankruptcy cry the smash would have taken place years Bawen E Aylesworth made a short, pithy speech after which he was loudly cheered by the audience.

Hon. John Dryden then arcse and was greeted with rousing cheers. He preficed his remarks with a compliment to Napa. nee's successful horticultural society and paid a neat compliment to the lady president of the society, Mrs. (Judge) Wilkison, for her untiring efforts in connection with the society. He stated he was here principally to discuss the subjects at issue from the standpoint of a sensible citizen. not from the standpoint of a reformer or s conservative. The conservatives great cry was that this government was extravagant and must go, but they do not, he said, believe what they say. After they gos in they would say, "Oh, we only wanted to get into power." He cited the parliament buildings at Toronto and the Brockville asylum and said they coul. be inspected from cellar to attic and tound pertect. It could not be proved MANAGER | that the cost was exorbitant. It was no argument to say that because we had increased the expenditure this the government was extravagent. Was it not true also that the receipts had been increased, but the conservatives book good care not | mention this. Their way of putting the question was most misleuting. He metanced the timelph agricultural college of which the conservative- made so much All thinking people collect capital, and Mr. St. John's statement about paying \$2,000 for a well. This Mr. Dryden clearly explained by showing why they had to suck the we'l; that it was a year of the country's money. They were obliged to pay the erty of Guelph a stated eum each year for a supply of water, and which the city was not willing to continue

at the contracted price at the expiration of the old contract. The noted ram "Dan," that the papers have been full of, was only another fabrication gotten up to make a sensation. His Algama experimen tal farm was also another sweet theme for argument for the conservatives, but this also was explained to the entire satisfaction of the audience. Mr. Dryden pake of the onward move of Outano, and showed that Dr. Meacham, while in power, voted for a measure which would retard this progress. Dr. Meacham voted for the cutting off of the poultry appropriation, and he was also against the appointing by the government of a man to inspect the broke of the county trea-urers, and reducing the number of county councillore, which they themselves could see the wiedem of now. His wish for the removal of the licence inspectors was another specimen of the ideas I'r. Meacham held, and this was the man who was seeking re-

During his criticism of Dr. Meacham's acts white in the legislature there were numerous expressions of approval from the audience. In upholding the acts of the government he mentioned the prompt stamp out rible peet, the San Jose scale and the very great benefit to the people to have an honest, trustworthy government at the head of affairs. The government had developed mining, forestry and agriculture and foetered the dairying interests would help the people to see what the park | be paid. packers wanted. The removal of the quarantine was another good thing for the tarmers. For evidence of the wisdom of

Hon. G. W. Ross was tendered an evation in arising to address the meeting. He spoke of the time he spent here some years ago. G D. Hawley was in the field. but he said the people had fallen from grace. He was glad they had returned. He thought the late member should be given a chance. "Give the boy a chance," said Mr. Ross, "and if he proves as useless as Dr. Meacham make a change." Take all the big questions of the day and where do you find Whitney : "Why, in the minorof a bottle of pickles and the Humber piggery question they had great minds.

he hoped to have it down to eight before long. He remarked that Meacham was plucked at his examination last March, and that if he was not up in his examinations any better be would be plucked on the 18th again. As far as he could see Meacham would stand a little cramming.

How is it if our system of education is as bad as they claim it to be, that in Chicago Done-Meacham In The House Voted in 1893 our system was awarded the first prize and the examiners reported to be almost perfect in its embodiment. Take it from kindergarten to university it is pronounced the most perfect in the world In concluding Mr Ross remarked that M' Whitney had the impertinence to say should be turned out. "We have," evid the Mr. Ross, "no divine right to the peri bual inheritance of this government.

> The meeting concluded by cheers for the queen, the speakers, the candidate and the

Michael Lynch Out-Rowed. HALLEAL, N.S., Nov. 9 -- Michael Lynch, Halifax, and Harry Vail, St. John, rowed their second sculi race on Bedford basin this morning, where their first contest took place last week. Lynch, the favorite, upset his boat and Vail rowed home alone. The distance to day was three miles and the stakes \$150 a side. It was one of the must keenly contested aquatic events ever witnessed hereabouts. The men rowed neck until nearly the entire distance had been covered, each putting forth all his energy to push ahead of the other. Less than half a mile from the finish Lynch made a final effort to gain the lead. the most information came that he had opponent responded and proved the better the two, forging slowly but surely ahead, until as they crossed the line he was half a length in the lead.

To Be Recruited In Canada. OTTAWA, Ont., Nov. 9 - Information has been received that the British war Hores. was elected and did not care to make a office has ordered that the 100th regiment (Royal Canadiane) to be recruited Canada, and that recruiting offices will shortly be opened in Ottawa, Toronto, Montreal, Halifax and other cities. The recruits will be sent down to Halifax at the

expense of the British government. The railway committee of the privy council met this forenoon to consider the application of the Canada Atlantic rail.
