Often the mayor is engaged in a private consultation and does not desire to be disturbed, and at other times the clerk is obliged to level thee in charge of stranger while he goes to the telephone. If there is need of a telephone in the mayor's office, there certainly are a hundred more resears why the clerk should be supplied with one; either an additional one or that the one in the miyor a office should be removed to the clerk's office.

Last week while the court of revision was sitting a number of citizens, some of them lawyers, tried to reach the clerk by telephone but were unable to do so. C'm sequently they were put to a great deal of inconvenience. Kingston is probably the only city of its size in Canada where the clerk of the municipality is deprived of the use of this modern convenience.
