Death of A Pioneer.

Lanark, Ont. One of the oldest and most prominent landmarks of the township of Darling was removed on Friday evening by the death of John Caldwell, sr. For the past year and a half deceased had been living with his son in law, Peter Duncan, of Dalhousie, and had been a sufferer from Bright's disease for a considerable time.

Body Washed Ashore At Point Peter.

Manly Burlington, Point Peter, notified coroner Platt early in the afternoon of Tuesday that a body supposed to be that of young Leduc, drowned recently at Hays's point, had been washed ashore near Point Peter lighthouse in the forenoon of that day, and that the body had been conveyed into the lighthouse.

An Enthusiastic Meeting in the Town Hall—All Could Not Gain Admission—The Speakers of the Evening—Tory Healers in Town—Aylsworth Receives Congratulations From Political Notables.

NAPANEE, Nov. 18.—The liberals of Lennox are in force in Napanee to-night. The early returns indicated decided gains for Mr. Aylsworth, so that it appeared to be a foregone conclusion from one of the subdivisions in Napanee that the stream was running in favor of the liberal candidate.

The supporters of Aylsworth, as they came from the county, gathered in the town hall, and as return after return was read showing the majority rolling up, when it became evident that it would almost reach the century mark, the enthusiastic crowd knew no bounds.

DOES NOT COVER THE POINT.

The Contention of The Whig As To Off-Side Play.

The Toronto Star thinks the Whig's knowledge of football is limited. Referring to an article which appeared in the Whig a night or two ago, the Star makes this statement in connection therewith: "A captain of a team who knows his business, with a good kick behind him, is sure to be of a trying from a possibly kick close on goal than in the scrimmage which precedes the off-side."

PEACE IS IN SIGHT.

The Spanish Will Accept The Best Terms Available.

PARIS, Nov. 19.—The situation justifies the assertion that peace is at last in sight. The execution of the treaty may be delayed by a possible change in the person of the Spanish commissioner, but the best terms available.

Instructions to the effect have been received by senator Montero Rios, president of the Spanish commission, and his associates from prime minister Sagasta and although senator Montero Rios does not withdraw his declaration that he will never yield to the American demands, there can be no doubt of the final result.

A majority of the Spanish representatives in Paris are deeply chagrined by the sudden decision of the home government to deal with the American as a diplomatic demand of all knowledge of such action, but the authority of your correspondent for making the announcement is beyond question.

The decision is doubtless based upon the exigencies of the domestic political situation. The Madrid government find it expedient to meet at the present moment, rather than later, the crisis which is expected to arise when the treaty of peace is signed.

It is doubtful if a session of the joint commission will be held to-day. The American commissioners are expecting advice from Washington, but they have not yet been received, and it is feared that they will not arrive in time to allow the completion of the memorandum which is to be delivered at the next meeting. This is unfortunate, for the moment is propitious for the prompt completion of the conference, which might easily be finished within a week.

Drowned At Frequent.

FREQUENT, Nov. 19.—Simon Strader, bank number here, was drowned early Thursday morning. He was missed for breakfast, and later on his cap was found in the mill-race against the will rack.

A searching party, with grappling hooks and pike-poles, very soon recovered the body. It was found on the bottom of the flume, directly under the cross-way leading from his house, over the flume to the locks. It is supposed that while crossing to attend to a locking of barges he slipped, fell in and was drowned.

Will Have Work Done.

LONDON, Nov. 19.—The Evening News says the government has sent an engineer to Wei-Hai-Wai to construct a break-water and powerful forts and dredge the harbor so as to permit warships to be inside. These works will obviate the necessity which would otherwise exist in case of hostilities of warships putting to sea each night in order to avoid torpedo attacks.

THE STAFF NAMED.

Railway Lines Projected in the Yukon District—Very Encouraging.

OTTAWA, Nov. 19.—The appointment of Earl Minto's staff was greeted to-day. It is composed of major L. G. Drummond, Scots guards, military secretary and governor-general's secretary; Lieut. W. F. Lucelles, Scots guards, and Lieut. J. H. C. Graham, Coldstream guards, A.D.C.'s to governor-general; and Arthur Guise, controller of household.

The British Yukon mining, trading and transportation company will apply to parliament next session for an act authorizing the company to construct a line of railway from a point near Fort Belkirk to a point near Dawson City, thence westerly to the one hundred and forty first meridian; also to construct lines of railway from a point near Caribou Crossing, or from Tagish Houses to Toelin lake or river and to Atlin, and with the consent of the governor in council, to construct and operate branch lines in the Yukon district not exceeding fifty miles in length, to change the name of the company to "The British Yukon railway company," and to divide the undertaking of the company into sections.

Advice has reached the department of marine and fisheries that the Brazil market for Canadian fish has never looked so favorable as at present. It is stated that the shipments to date are several thousand quintals ahead of last year. So that if the market in Cuba and Porto Rico is closed to our people there is every prospect of an excellent opening in South America.

Collingwood Schreiber, deputy minister of railways and canals, is in Toronto to-day.

EQUAL RIGHTS.

Co-Operation is Only Possible on These Terms.

BERLIN, Nov. 19.—The aspirations of Joseph Chamberlain for an Anglo-German alliance, which he gave utterance to in his speech at Manchester, are well received by the press here, which, however, contends that the relations between the two countries would never have been otherwise than friendly but for Great Britain's determined opposition to the German colonial developments.

The National Zeitung says that the settlement of the difference would be welcome, but a change in England's attitude is necessary. The Tagelblatt says that an entente would be extremely advantageous to both countries.

The Cologne Gazette declares that it sees no ground for retaining the hand that Mr. Chamberlain extends, but it adds that co-operation is only possible on the basis of equal rights.

PARIS, Nov. 19.—The Figaro says that the English are hastening to follow the path pointed out by Mr. Chamberlain. "In their eyes," the paper says, "an American alliance is sufficient to justify everything. It is what the Russian alliance was to us at the beginning of the poor parlers which determined its conclusion."
