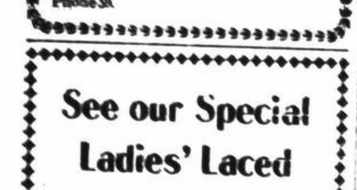
Wood's Phosphodine is sold in Kingston by W. H. Medley and Henry Wade, druggists.



RULING of all descriptions at C. H. OTTO'S Bookbindery, Cor. Brock and Bagot Streets.

TO FILL THE BREAKWATER.

A SUGGESTION IS OFFERED BY ALDERMAN TOYE.

The Board Will Adopt It When Further Particulars Are Obtained—Increasing the Wages of Employees of the Water Works Department—Petitioning for the Removal of a House.

A regular meeting of the board of works was held in the office of the city engineer yesterday afternoon, these members being in attendance: Chairman Carson, aldermen Robinson, Stewart, Toye and Mooers.

John McLeod, Colborne street, complained that he was assessed for two feet frontage more than he owned, for local improvements. The two feet in question was struck off his assessment.

W. J. Gates asked the board for an old house standing on Aberdeen avenue, formerly the Mills estate. He would remove it if given him. The engineer was empowered to consult the solicitor of the Mills estate to see if he desired to keep the house. Otherwise it goes to the petitioner.

Upon the communication of J. C. Swaine, requesting the city to replace a fence removed from his property, the city engineer informed the board that the fence was removed from across Sixth street; it was not Swaine's property. As there is a deal between the city and Mr. Swaine, and as the city solicitor is conducting negotiations, the communication was referred to the last named official.

The board passed an account for $3 60 for tree pruning which the chairman of parks refused to pass. Chairman Carson remarked, "I am not afraid of having that bill charged to the account of the board of works. These men should not be kept out of their pay."

The petition for a drain on Barrie street north was allowed to stand over, as it lacked the signature of one property owner, who is at present out of the city.

Alderman Toye called the attention of the board to the fact that as the contracts for the new drill hall had been awarded, and as there would be considerable excavating to be done, he thought it would be a good idea to obtain material from this place to fill in the King street breakwater. Both filling material and top dressing could be obtained.

The chairman pointed out that very little filling would be required, as by next spring the breakwater would be pretty well filled up with ashes and such like material. But a considerable quantity of top dressing would be required. He thought the suggestion offered by alderman Toye a good one. The balance of the committee were of the same opinion.

The city engineer said that a quantity of heavy filling was required for the breakwater proper, and this could be obtained at the place suggested by alderman Toye.

Finally, at alderman Toye's suggestion, the matter was referred to the city engineer to obtain an estimate of the quantity of material required, the cost, etc., and to report to the board at its next meeting.

The chairman pointed out that this year's committee could not go very far in the matter as the work of excavating would not be begun until about the middle of the current month.

Water Works Committee.

Chairman McKelvey, aldermen Wright, Behan, Donnelly, Stewart and Bell comprised the attendance at a meeting of the committee on water works held last night. Routine business alone occupied the attention of the members. A communication from the vehicle works asked for a fixed water rate against the company, the water in the factory being now used only for drinking purposes. The rate was placed at two dollars per quarter.

During the month of September the water service pipe leading into the Tete du Pont barracks opened and allowed a heavy leakage underneath the battery warehouse. The extra flow of water ran the quarter's bill up to $219, whereas $96 has been the highest charge for any previous quarter. The barrack officials submitted a communication detailing the facts, together with a letter from the militia department asking the committee to accept the sum one hundred dollars in full discharge of the quarter's account. It was agreed on motion by Ald. Behan to accept $125 as full payment.

A motion to pay John Hazlett at the rate of $2 25 a day for the forty seven days on which he acted as engineer at the power house, during the illness of the regular engineer, was passed. Superintendent J. Hewitt submitted an application from J. Blomely, of the water works staff, for an increase in wages from $1 40 to $1.50 a day. As Mr. Blomely has been a steady and faithful employee it was agreed to recommend the extra ten cents a day. Frederick Milo, plumber for the department, also received the committee's recommendation for an increase in wages from $1 75 to $2 a day, both increased salaries to date from the first of December. A number of accounts and the pay lists were signed for payment.

AN ENJOYABLE AFFAIR.

A Social Evening At the Y M C A.—To Be Continued.

The members of the Y.M.C.A. enjoyed the first of the winter's monthly social evenings last night. An energetic committee, with T. C. Allen as its chairman, arranged the programme, and the hearty appreciation with which it was received must have been gratifying to the association and its board of workers.

The numbers contributed consisted of Piano solos by F. R. Anglin and J. Aselstine; vocal solos by Messrs Low, Forrester, Malcolm, Savage and Barton; readings by Misses Murray and A. Milne. During the evening several selections from the gramophone were given under the management of Harvey Milne.

For next Thursday the committee has arranged for a talk from Prof. Neel on the subject of "Asphalt and Its Relation to Good Roads in Kingston." The present is a very fitting time for the discussion of such a subject and the association hopes that not only the members but a large number of ratepayers will avail themselves of the privilege of hearing such an important subject discussed in such a scientific manner as the professor's knowledge of the topic warrants.

Canada's Greatest Liniment.

Griffiths' Menthol Liniment is the greatest curative discovery of the age. Penetrates muscle, membrane and tissue to the very bone, banishes pains and aches with a power impossible with any other remedy. Use it for rheumatism, neuralgia, headaches and all soreness, swelling and inflammation. All druggists, 25c.

A Great Bargain For Ten Days.

Provost, of the New York clothing store, will make to order a pair of pants of Scotch and English tweed pantings, 20 patterns to choose from, price $4 50 and $5, your choice of them for $3 50; made to order and guaranteed a first class fit.

Blue and black beaver overcoats, smooth cloth. Oak Hall.

ONTARIO SYNOD MEETING.

Conclusion of Half Year's Session Of The Executive Committee.

Rev. J. Lewin reported for finance committee, recommending payment of accounts. It was explained that the expenses of the bishop of Ottawa on confirmation tours would be paid out of the fund voted to the archbishop for such duties, $200 a year. Arrangements were made for printing reports for synod information in discussions in connection with the journal tenders.

The audit committee, through Rev. S. Tighe, reported the finances of synod most satisfactory. The report of the investment committee also reported that interest on loans and investments had come in freely, although the rate of interest earned was steadily declining.

Dr. Smythe for sec house committee reported an increase of $109 in overdraft to $2,168, and the receiving back from the archbishop the house, which had been offered for sale or lease.

For domestic and foreign missions committee reported receipts for half year of $674, including $486 from the woman's auxiliary. The latter board was, in sympathy with a wish at provincial synod, asked to meet the committee prior to next synod and to the half yearly session of D and F. M. board.

The reports of the diocesan mission board and of the committee on stipends of clergy were presented in the lines already reported in connection with their meetings.

For rectory lands Rev. W. B. Carey reported receipts of $5 321 for the half year and a temporary increase of overdraft from $56 to $939.

For widows and orphans' fund, reported payment of $1,430 in pensions during the half year and the decrease of overdraft from $782 to $633, the generosity of the woman's auxiliary having reduced the debt as well as assisting the payments. Mrs. Moore and four children and Mrs. Stanton were added to the annuitants. The normal income is now about two-thirds of the necessary expenditure.

For the clergy superannuation fund the receipts were: From last year, $546; collections, $263; interest, $90. To capital $250 was added and $223 was paid to annuitants, leaving $426 on hand. The case of Rev. F. Codd was referred to the executive committee. The lack of interest by the clergy in this fund was deplored. Before adoption of the report arrangements were made to pay Mr. Codd $200 a year through the mission board.

The clergy trust fund reported receipts of $3,057 for six months, with payments to clergymen of $2 712; the overdraft was reduced from $667 to $348. The Episcopal fund reported normal receipts, and a recent impairment of capital on the Campbell farm was ordered to be assessed and written off.

Adieu, gentlemen, for six months.

PERSONAL MENTION.

Pithy Paragraphs About Persons At Home And Abroad.

J. L. Whiting is at Napanee attending the Ponton trial.

Mrs. I. Lawrenson, Vine street, ill for some time, has fully recovered.

Miss Mabel Landeryou left to day to visit intimate friends in Montreal.

Lieut. Col. S. Hughes, Lindsay, commanding the 45th battalion, is in the city.

Miss Nettie Dreteur, Wolfe Island, is the guest of Miss Bryson, University avenue.

Rev. Mr. Tweedie, Lansdowne, guest of George Brady, Division street, left for England yesterday on an extended tour.

Mrs. Robinson left on Thursday afternoon to resume her duties at the military academy hospital, Huntsville, Alabama.

A. H. Smythe arrived from Montreal this morning to replace J. B. Larkin, of the bank of British North America, transferred to Montreal.

The Brock street Methodist church choir presented Miss Hersey with a dozen silver teaspoons on the occasion of her recent marriage to Mr. Finlay.

Miss Sarah Walker, Pittsfield, Mass., is spending a vacation with her mother in the city. On her return she will assume the duties of matron of the Westfield hospital.

MARINE INTELLIGENCE.

The Latest News About Vessels and the Port of Kingston.

The sloop Idlewild sailed for Wolfe Island this morning with a deck load of lumber.

The steamer Chieftain was engaged today in conveying withee from the mutual dock to Garden Island.

The tugs David G. Thompson and Jessie Hall arrived this afternoon with nine light barges from Montreal, the last of the M. T. company's river fleet in service.

The schooner Annandale is at present at Gananoque unloading coal. She is under contract to carry two more loads from Charlotte, one for Deseronto and the last for this port.

The schooner Fleetwing, Capt. Shaw, has gone into winter quarters at the spile dock. During the past summer the schooner made thirty trips between Coaticoke and Oswego and this port, carrying coal.

Capts. James Paul and Peter Ely, Ottawa, will add another large steamer to their fleet plying between Montreal and Oswego. She will be 110 feet over all and have an average speed of ten miles an hour.

The schooner Fabiola is at present discharging coal at Clarke's malt house. Capt. Bates has covered the lake agents four times this summer with the Fabiola, making forty two round trips. He has one more load to carry before laying up.

St. John's New School House.

A sale and entertainment was held in St. John's new school house, Portsmouth, yesterday afternoon and evening in honor of the opening of the new building. During the afternoon the ladies of the congregation were active around several tables of fancy work, sweetmeats, etc., every article with few exceptions, being disposed of to the numerous buyers. Tea was also served, the tables being well patronized.

In the evening the school room was taxed to its full capacity when a pleasing musical programme was rendered, including solos by Mrs. Berts, Miss Bates, A. Craig, J. R. Walkem and Mr. Kelso; piano duets, Misses Halliday; cornet solo, Kerr Walkem; trio, piano, violin and cornet, Miss Halliday, J. B. Walkem and Kerr Walkem; selections on phonograph, J. C. R. Dobbs. The sum of $165 was realized by the undertaking which goes towards wiping off a small debt on the new building.

Jury May Resent The Course.

A prominent lawyer, speaking on the Ponton case this morning, said that it appeared to him to be quite evident that the crown was conducting the affair of two noted scoundrels for the purpose of securing a conviction against them on trial. The course pursued by the crown was repugnant to one's ideas of right, justice and morality. It is quite clear that if Ponton were guilty it will be had been the tool of two or three unscrupulous men. It is not at all unlikely that the jury will resent the course.

Blue and black beaver, smooth cloth overcoat, $10 and $12. Oak Hall.

This morning the horse driven by J. Kidd ran away on King street east, finding its way to A. McIquham's livery, where it spent four or five years of its life. There was no injury to either itself or rig.

Wild strawberry jam in 2 lb. tins just arrived. Have you seen it? James Redden & Co.

Three dealers in rags, bones, iron, etc., will be summoned before the police magistrate for persisting in using spring scales contrary to the statutes. Inspector Johnston, Belleville, will prosecute.

Smoked faced beaver overcoat, $10 and $12; equal to any custom made at $18 to $20. Prove our statement. Oak Hall.

E. MILLER & Co., chemists. Gentlemen,—My child was much troubled with fits. I was advised to try Miller's Worm Powders. I did so and am pleased to say my child has not had a fit since.—W. J. SMITH, Dawn Mills. Sold by all druggists.

Direct from the window we sell any tie. Oak Hall.

Something new and nice. Wild strawberry jam in 2 lb. tins. James Redden & Co.

J. C. Hardy & Co. have given up the coupon system. The reason given is that the company and customer obtain too much from the labor of the employees of the firm for the small return the firm receives.

From now until the first of the year we will show new neckwear; a window full every Saturday. Oak Hall.

On Saturday the polling booth in Ontario hall for the alma mater society election will be open between the hours of 2 and 5 p.m. Hitherto the booth has been kept open until nine o'clock. The system of issuing hourly returns of the condition of the vote will be discontinued.

Off For Portland.

Lieuts. E. Skinner and Musgrave have received orders from the imperial war office to report at once for duty, that they had been appointed to the regiment as for orders for service in foreign parts. Both officers spent three years in the military college, after words taking courses in the various Canadian militia schools of instruction to qualify for commissions. They successfully passed the examinations necessary for entry to the imperial service, and their appointment to commissions are hailed with delight. They will sail next week for England to report for duty.

If your children are well but not robust, they need Scott's Emulsion of Cod-liver Oil.

We are constantly in receipt of reports from parents who give their children the emulsion every fall for a month or two. It keeps them well and strong all winter. It prevents their taking cold.

Your doctor will confirm this.

The oil combined with the hypophosphites is a splendid food tonic.

50c. and $1.00, all druggists.

Cardigan overshoes. See them at Abernethy's shoe store.

Excise Returns.

Collections of the inland revenue division of Kingston for the month of November, 1898: Spirits, $3,033 39; malt, $1,365 90; tobacco and cigars, $3,465 45; bonded factory, $65 60; inspection fees, $241 50; other collections, $51 25; total collections, $11,223 09.

Pratt's Iron Pills With Arsenic, For Blood and Complexion.

They increase the appetite, enrich the blood, cure all forms nervous diseases, rheumatism, headache, all female weaknesses and diseases arising from overwork and mental worry. The best for pale complexions and building up the system generally. 50 pills, 25c. box. McLeod's drug store only.

The Vehicle Badly Damaged.

Yesterday afternoon Mr. Kennedy, employed with J. Sowarde, was driving his horse off Swife's wharf at the foot of Johnston street, when he was run into by another horse, frantic with fear. The buggy occupied by Mr Kennedy sustained heavy damages, while he was thrown out, receiving a few bruises about the hands and face.

Another Serious Obstacle.

Members of the Donnelly wrecking company say that though fine weather favors them now they cannot undertake to raise the tug Walker unless Brighton bay opens up. At present it is covered with three inches of ice. It is necessary that the wreckers should have some place of shelter in case of a storm, and Brighton is the only harbor in the vicinity of the wreck.

Another Segregation Offered.

It has been suggested that the earth excavated from the drill hall site be used to fill in the space in the lower portion of artillery park, so as to form a gentle slope from the street level to the flat of the park. This would do away with the old rickety fence and allow of a better view of the drill hall being obtained. There will be enough material to do this, as well as fill in the King street breakwater.

Want Him To Run Again.

The electors of Rideau ward are pressing alderman Elliott to again stand for election. They realize that he has served the city faithfully. He has been in the council for eight consecutive years and, with the exception of one year when he served as mayor, has represented Rideau ward all that time. He has served on all the important committees, and every important measure in which he took a stand he came out "on top."

The Company Organized.

"C" company of the P.W.O. rifles, has been organized for drill and recreation during the winter months. The company has a room at the artillery barracks, which is fitted up in excellent condition for its needs, possessing gymnastic apparatus, reading tables, etc. The officers of the organization, as elected are: President, color Sergt. Murray; treasurer, private Moncrief; secretary, private Franklin; committee, Sergt. White, private Done, private Mann, private Procket, company instructor Sergt. Fitz.

Readily Consented To A Reduction.

When the communication from the Tete du Pont authorities, asking for a reduction in the large water bill against the barracks, was under consideration by the water works committee, alderman Donnelly readily consented to a reduction being made. The city, he thought, could not act arbitrarily in the matter in view of the ready and willing service frequently given by the soldiers in cases of heavy fires in the city. The barrack authorities have always willingly sent out a detachment of soldiers when their assistance was of value.

Blood Poisoning Set In.

On Monday evening Miss Raymond, Young street, while stooping to pick something off the floor, lost her balance, and in throwing out her arm to save herself from falling, her hand pressed against an upturned rusty tack, which penetrated the flesh. She extracted the tack and thought no more of the matter. But on arising next morning she was troubled with acute pains through her arm, and a doctor's examination found that the blood had been poisoned by the rust. The young lady suffered much from the effects, and although all danger has passed, the arm is still being treated.

Harrowsmith Cheese Factory.

The proprietors of this factory make the cheese for one and a-half cents per pound and pay all expenses. A Bradshaw, one of the proprietors, is the maker. The chairman is John Stewart; the treasurer is J. S. Gallagher, M.P.P., and James Cooke is secretary. The factory opened April 25th and closed Nov. 11th, 00. Some 2,208,120 pounds of milk were delivered at the factory, from which 211,848 pounds of cheese were made, that is 10 43 pounds of milk to one of cheese. Then $16,929 65 is the amount received for cheese, so that 7 90 cents was the average price of the cheese per pound. The making cost $3,177 64. The patrons received $13,152 01, that is 62 279 cents per 100 pounds for milk.

Removed to Kingston.

Capt. Francis Sandys Dagmore, second surviving son of William Dagmore, Q.C., Sandham, Norfolk, England, who died at Honduras, British East Africa, November 14th, from the hardships undergone during the Uganda campaign, was born in 1859. He entered the army in 1880 as ensign, by purchase, in the Royal Canadian rifles, became lieutenant in 1884 and captain in 1885 by purchase. When the Royal Canadian rifles was disbanded by lord Cardwell in 1870 he was placed on half pay. He was brought in to the 64th regiment in 1879, and subsequently retired pay by royal warrant in 1881. Capt. Dagmore served in the defence of the Canadian frontier against the Fenian raids and spent several years in Kingston while an officer of the Royal Canadian rifles.

A Liberal Offer.

What could be more appropriate as a Christmas present than a handsomely bound copy of the bible? The publishers of the Westminster, Toronto, with commendable enterprise, are practically presenting each of their subscribers with a copy of the genuine Oxford worker's bible containing helps, maps, etc., and beautifully bound in morocco, linen lined round corners, red under gold edges, extension cover. It is convenient in size five by seven and one-fourth inches. The book is said to be good value at $2 50 and they agree to send it to any present subscriber for only seventy-five cents and one new subscription to the Westminster; or at the same relative price to any new subscriber forwarding his own subscription. This very generous offer will doubtless work for the Westminster thousands of new readers to that most excellent family paper. We may add that the Westminster is published weekly at $2 00 a year in advance.

HOW PROHIBITION WORKS.

DRUG STORES BECOME PUBLIC TAVERNS.

Impressions of a New Hampshire City by a Kingstonian — A Beautifully Located Place—Prohibition is Not a Thing Respected Down There — Abundance of Liquor Sold—An Unfair System.

Kingston, Dec. 2.—(To the Editor): A short time ago I had occasion to visit the city of Franklin Falls, N.H., and was favorably impressed with many things that came before my notice. It is a beautifully located place, having a population of 6,000. To its manufacturing industries is due its success, as I was told that 4,000 persons alone depend upon the factories there for their livelihood. It is styled a city, though its population is far below what we rate as worthy of so important a classification. It is governed on the same principle as the larger places, with a mayor and board of aldermen.

In 1876 I was at Franklin Falls and then its population was only about 2,000. On the occasion of my last visit I learned that the greater number of employees of the factories own the dwellings in which they reside. These houses are for the most part large and roomy, are neatly built and well cared for. They are generally located about 100 feet apart, and occupy the gentle slope of a hill, giving a beautiful outlook. From some of them a view of the country for a distance of twenty miles around can be obtained.

The business portion of the place is situated in a portion of the valley and consists in part of two wooden blocks, one of which is occupied by the post office, and other business purposes. The mills are named in the nature of their products, including woollen goods, pulp board, tweed needles, machines, etc. The different industries average about 350 employees each when running full time. The wages run at from $1.50 to $3.50 a day.

The cotton factory over the Merrimack river is a substantial structure 300 feet long and of imposing architectural design. Franklin Falls is a splendid summer resort and as such enjoys extensive popularity. The fishing and hunting cannot be surpassed and besides it is a very healthy place. The farm land in the district is very good, the soil being of a sandy nature. The substantial farm buildings show the agricultural class to be in prosperous condition. Even the farm houses are painted and present quite a contrast to the bare looking structures of a similar kind seen in other parts of the country. The farmers depend to a great extent upon the sale of the milk of their numerous cattle. In districts around the milk that is taken with them to the factories and cut up in quantities to suit purchasers. Rib steak is worth two cents a pound; pork, fifteen cents; eggs twenty-five cents a dozen; butter twenty-five to twenty-eight cents a pound; coal oil, seven cents a gallon; coal, $6.75 a ton; wood, $5.50 a cord. Rent is very high, it being very difficult to get a dwelling of even a humble kind for $8 a month. Painters get $2 a day; carpenters $2.50; laborers, $1. A woman gets fifty cents a room for scrubbing.

Two railroads enter the place, and there is prospect of an electric road being put into operation at an early date. The place boasts of one wood's paper, a well conducted sheet. The livery stables get $1 an hour for horses. All the horses are fine animals, but the rigs are old fashioned affairs. The Roman Catholic church is a very beautiful structure for so small a place. The other churches are small and rather commonplace. The opera house is also the court house. It is constructed of brick.

Franklin Falls is in a prohibition state, and while there I took particular trouble to learn how the law was carried out and the extent to which prohibition prospered. I found, as I just as I expected and as I told the people of Kingston during the past prohibition campaign here, that a man can get all the whiskey he wants at Franklin Falls. It is supposed at the drug stores to [illegible] and I was given to understand that it was not a difficult matter to get it. I have been a person during my visit, and they seem to be doing well as they are kept up in good style. Besides the several drug stores and all are supposed to sell liquor, there are several [illegible]. From what I saw through visiting these stores I was almost persuaded that the town is a very healthy place. All the drug stores have [illegible] back rooms, which seem to be kept apart as a place in which to [illegible] and other spirituous liquors [illegible] are not much in evidence. Bye is worth [illegible] a glass, and [illegible] drunkards going to and out of these rooms as to hear the clinking of glasses in them. In two different places I saw old women enter the saloons and procure bottles [illegible] their cloaks. They call at the druggists at one side and whisper what they want in their ears and they are always ready to [illegible]

I saw [illegible] with them to [illegible] were not many [illegible] and [illegible] drug stores. All the [illegible] were [illegible] and [illegible] were [illegible] and [illegible] were [illegible] and
