Train Wrecking Mania Laxpox, Dec. 5 - The train wrecking mania scems alarmingly on the increase is England. Dezens of attempts have been made lately, though fortunately none have been successful. The perpetrators do not seem to be organized, as from all parts of the kingdom come stories of obstacles be-

my found on radroads. Last week the most sensational case occurred near Machyullech, Wales. A heavy lerry or that car was taken from a shed and pluced across the line at a most danger us curve. The railway men, who fortunately discovered it, had great difficulty in removing it, so firmly was the car fixed. They had just succeeded in removing the obstruction when the express flaw past.

To Call Kruger To Account.

Linvolly, thec. is - At length it appears sumething is to be done to right the wrongs of British subjects in the Transvani, and that Mr. Kruger will be called to account for his mirquities. The visit of Sir Alfred Militer, the governor of Cape Colony, has for its object to confer with Mr. Chamberlain on these matters. We have it on the highest authority, says the Pail Mall Gazzette, that Sir Alfred has been called up principally to discuss the state of affairs in the Transvaal, particularly with r ference to several breaches of the convention reported by Mr. Greene from Pretoria. Sir Alfred, according to the Pall Mail Gazette, will also discuse affere in Rhodema, the state of Basutomad, which he recently moured, in the reported impending cession of Portuguese Ewe Africa to tirent Britain. Mr. Grenne. her majesty's agent at Precora, is still here and will be called into the conferences.
