At present, besides doing a large amount I correspondence, he is the advertising correspondent for the large sawmill machinry establishment of W. C. Garland, Bay City, Mich. Mr. Wilson began his carcor n a printing office when a boy, fifty one years ago, at Picton, ten miles from his ormer nowe. Although he did good and pard service during the war he stands up well under his years. After serving in a printing office in every position and work ing at book binding, he became foreman in one of the largest printing establishments in the country, and was at one time forenan of the state printing office at Albany, N. Y. He was also a newspaper writer on the Evening Star at Schnectady, N.Y. before the war. Twenty seven years ago he removed from Troy, N Y, to Bay City, Mich., and bought the Bay City Journal He worked there on all the papers of Bay City for years, and was for several years aditor of the Lumbermen's Gazette, the dret lumber trade journal in this ccuatry, which was afterwards merged into the Timberman, of Chicago. Mr. Wilson has dways been closely allied with the lumber rade of Michigan, and is one of the beet posted and mo t reliable authorities on the rade of that section that can be found. In 1888 he retired from the newspaper rield, being appointed clerk of the commitee on unralled bills in congress at Wash ington, D.C., during Cleveland's adminisration; and at the same time he acted as private secretary for Hon O. S. Fisher, of the tenth congressional district of Michigan. Since leaving Washington Mr. Wilson has been under constant employment as a writer for Chicago and Now York trade journals, and at the same time has been ssecciated with Mr. Garland in laying be-

LETTERS THAT NEVER CAME.

They Changed the Currents of Two Happy Lives.

The miscarrying of mail has been a convenient peg to hang romances on since the mails began. Most of them, like all other romances, of course, have their foundation on facts-facts like the follow-

ing, for instance: They met in the west one summer. Conditions were favorable, and they saw a deal of each other. The unconventionalities of travel brought them very near together and propinquity did the usual i thing. They loved easily, for they were young, and both were well worth loving. When they parted, no vows had been exchanged, but they unders ood each other and felt that the vows would come naturally. They said goodby unsuspectingly, trustfully, with promises to write and to exchange photographs. That was all,

She went her way, he went bis. One, two, three, four years passed. Then she heard he was married. Many years after they met, quite by chance, as we say, in a distant city. She had kept up with his life, with his work in the world, with the growth of his family. She had done this, being a woman. He knew nothing of her, out the meeting was very dear to both. who make a public profession of anarchist | They met as old friends meet and talked of old days as friends talk. At last, when

> He looked into her eyes a long time without speaking; then he said: "Will you mind telling me why you never sent yours?"

"I did send it," she said. "And I sent mine, and a letter." "I never got them," she said. "Nor I yours." He paused a moment.

'You know I loved you. "And I you," she said gently. "Good-

IN THE HOUSE OF COMMONS.

Distinctions Between Words Parliamentary and Unparliamentary.

Probably the most difficult and unpleasant of the duties which the speaker of the house of commons is called upon to discharge is that of deciding whether an offensive personal allusion to a member, in the course of debate, is or is not a breach of parliamentary decorum. There is no definite rule or order to guide the speaker in this delicate matter. The decision is left entirely to his own taste and discretion. But there has always been a rather curious distinction drawn between remarks that reflect adversely on a member as a man and on a member as a politician. According to well established precedents, the former are in all cases considered unparliamentary, while the latter rarely meet with a reprimand from the

Illustrations of both categories of personal aliusions and the light in which they are regarded by the occupant of the chair were afforded one night in the session of 1896, during the debate on the new rule of procedure in regard to supply. The expressions were applied to a promi nent member of the opposition and to the leader of the house. It was said of the former that he had been "a monumental instance of inconsistency throughout his political life."

Here we have an allusion to a member as a politician. It was met with cries of 'Order, order!" and "Withdraw, with draw!" from the occupants of the opposi tion benches, but Mr. Speaker Gully stopped the interruption by saying, "The honerable member has not used any unparhamentary language." Later on in the debate the leader of the house was told that "by a subterfugo" he was "going to palm upon the house a resolution. "That," said the speaker, "is hardly proper language to use." The word "subterfuge" was withdrawn by the offending member, and amid laughter "misapprehension" was substituted it its place.-Nineteenth Century

Muskrats.

Rare old Captain John Smith in his quaint "History of New England and the Sammer Isles," published in London in 1624, gives probably the first written ac count of the muskrat. He says that "the mussascus is a beast of the form and nature of our (English) water rat;" and he adds, "some of them smell exceedingly strong I musk." These animals may be caught in almost any sort of a trap baited with sweet apples or parsnips. Muskrats have very strong teeth and can use them on wood effectively, so it is wise to protect all corners and cracks in your wooden traps with pieces of tin or sheet iron. They have good noses, and can smell an apple a long distance off. Place your traps in the shallow water at the edge of the mill pond or stream inhabited by these rats and they will doubtless find it without

Young muskrats are very gentle and playful, and may be handled without fear. They do not grow flerce with age if reared in captivity and accustomed to gentle treatment. - Harper's Round Table.
