MODERN DWELLINGS.

tion of Standing a Long Time-The Framework Morticed and Fastened With Pins -- A Lady Visited it Before It Was Pulled Down. The old frame house on Division street,

familiar object for several generations, has

at last met the fate of all ancient structures. As with humanity, the old being jostled to one side by the push and enterthe younger to make room for dwellings of modern style of architecture. The exact age of the structure, unfortunately, is not known, but it is not far short of a hundred years. Old | residents say they remember it for fiftyfive years, and it was an old house then. Its interior construction leads to the belief that it was erected at least a century ago, Prevost, at the New York clothing store, vet all the frames, studding, etc., were alwith wooden pins. Most likely the timber from which it was built was cut on the site and there shaped and placed in position. The old building was undoubtedly one of the most aged in the city, link. ing the past with the present. In those days houses were put up to withstand the ravages of time, and the skill of the workmen of those by gone days might be taken for an example by modern artisans. C. J.

A day or two before the old building was razed a lady from New York called on the owner and said she had been reared in that house, leaving it thirty-seven years ago. She asked liberty to visit the home of her younger days, which was gladly given. She went through the dwelling from cellar to garret, recalling familiar In the police court, this morning, scenes, and departed with a sense of When on your vacation to the islands Thomas Rush pleaded guilty to a charge pleasure at having been in time to visit the
